Summary

Council's consideration is requested to approve public advertising of the Draft Shire of Narrogin Local Planning Scheme No. 3 (LPS 3) in accordance with regulation 22 of the Planning and Development (Local Planning Schemes) Regulations 2015.

Background

In 2008, the former Shire and Town of Narrogin resolved to modify and adopted the Town and Shire of Narrogin Joint Local Planning Scheme No. 3 subject to modifications and to formally submit the revised documentation and plans to the Environmental Protection Authority (EPA) and the Western Australia Planning Commission (WAPC).

In 2009, the EPA advised that the scheme should not be formally assessed and provided a number of recommendations relating to environmental issues regarding existing land uses requiring separation distances, such as the piggery on Katta/Mokine Road (no longer operating), light Industry and other land uses which require a separation buffer.

In December 2011, the WAPC, granted its consent to advertise the joint Local Planning Scheme No. 3 and the Local Planning Strategy for public comment for a period of 90 days. Advertising closed in April 2012. At the conclusion of the advertising period, a total of 35 submissions were received. The main issues raised during the submission period were:

Required buffer or separation distances from incompatible land uses such as:

- Buffer requirement (500m) around the White Road Refuse site
- Buffer requirements around the Sale yards and the Kennels associated with the Veterinary Hospital at the northern end of Earl Street
- Waste Water Treat Plant Buffer
- Speedway
- Waste water and Water treatment plant
- Airfield
- Narrakine Road Precinct to be developed as future Rural Residential subdivision
- Lot 123 Old Golf Course to retain portion of the area as POS
- Accommodation in the CBD, in the form of Multiple Dwellings
- Increasing the Residential Density around the CBD area from R12.5 (Avg 700m²) to R30 (Avg 300m²) and R40 (Avg 220m²)
- Heritage Protection
- Rural Residential Development
- Aged Persons Accommodation
- Potable Water Supply
- Requirement for Structure Planning.

In July 2012, the report was provided to the Shires for their consideration including all submissions received during the advertising period. This was approved subject to conditions. Given the significant changes recommended, it was agreed to seek the permission from the WAPC to readvertise the scheme for further public comment.

In December 2015, the Shires considered the recommended amendments and resolved to support the recommendations subject to modifications.

In March 2017, a letter was sent to the WAPC incorporating the modifications as resolved by the Shires.

In August 2017, the WAPC wrote to the Shire requesting the Joint Local Planning Scheme No 3 and the Local Planning Strategy be amended as per the modifications listed in the attachment. The majority of modifications were the requirements for the Scheme to be consistent with the model provisions in accordance with the newly adopted Planning and Development (Local Planning Schemes) Regulations

2015. The WAPC also requested that some of the Rural Living area proposed be removed from the plan due to the fact that there is significant land already marked for future Rural Living. The WAPC also requested the Local Planning Strategy modifications be undertaken prior to finalising the Local planning Scheme.

In April 2019, the WAPC granted Shire the support to advertise the Local Planning Strategy in accordance with Regulation 13 of the Regulations.

The Local Planning Strategy was advertised for a period of 90 days, which closed on 2 September 2019.

In December 2019, the Council resolved to adopt the Local Planning Strategy for final approval, with modification, to the WAPC for its endorsement.

In July 2020, the WAPC endorsed the Local Planning Strategy.

Upon the endorsement of the Local Planning Strategy, on 23 March 2021, the Shire submitted its Local Planning Scheme No. 3 including the requested amendment as per the WAPC letter dated 3 August 2017, to the WAPC for its consideration for consent to advertise.

In May 2021, the Department of Planning, Lands and Heritage (DPLH), gave its consent for the Local Planning Scheme No 3 to be advertised for public comment in accordance with regulation 22 of the Planning and Development (Local Planning Schemes) Regulations 2015 as per WAPC's decision dated 3 August 2017 (attachment 2). The changes requested are mainly administrative in nature (updating text) to reflect the model provisions of the Planning and Development (Local Planning Schemes) Regulations 2015. The DPLH also requested that the list of Modifications (attachment 4) are to be included as an addendum to the documents to be advertised prior to final approval.

On 7 July 2021, the Shire received a letter of response from DWER (attachment 3), stating – *“Consistent with the EPA’s 2009 advice for LPS3, for the purposes of Part IV of the Environmental Protection Act 1986 (EP Act) the scheme is defined as an ‘assessed scheme’ and no further consideration of LPS3 is required by the EPA.”*

Consultation

The Draft LPS 3 was presented to the July 2021, Council Monthly Briefing session.

Comment/Conclusion

The Draft Local Planning Scheme no. 3 is a joint scheme of the former Shire and Town of Narrogin under the new entity – Shire of Narrogin. The LPS is a statutory document that sets out the way the land is to be developed including zoning and use classifications, the rules and requirements that control land use and development and the process that must be followed to obtain development approval.

The objectives of the draft LPS 3 are to:

- Set out the Shire’s planning aims and intentions for the Scheme area;
- Set aside land as local reserves and public purposes;
- Zone land within the Scheme area for the purposes defined in the Scheme;
- Control and guide development including processes for the preparation of structure plans, activity centre plans and local development plans;
- Set out procedures for contributions to be made for the costs of providing infrastructure in connection with development through development contribution plans;
- Make provisions for the administration and enforcement of the scheme; and
- Address other matters set out on Schedule 7 to the Planning Act.

The DPLH, is reasonably satisfied with the scheme documentation submitted, including the modifications requested which are largely structural and administrative in nature and therefore it is not considered necessary to undertake the modifications to the draft scheme text or maps for the purpose of advertising, provided that the schedule of modifications (Attachment 4) is advertised alongside.

It is noted that at the July 2021, Council Monthly Briefing Session, there were several minor textual / mapping errors that will need to be taken into consideration prior to final approval of the Draft LPS 3.

These included:

- The new alignment of the Great Southern Highway of the Northern section of the Narrogin Link Road;
- The location of the Sale yards buffer (SCA 3) to be accurately reflected over the property;
- References to the Local Scheme Reserves on existing education establishment; and

- Schedule 7, SCA 2, comments to reflect the Development requirements that no subdivision will be permitted until such as time as the landfill site is no longer required.

On this basis, it is recommended that the Council supports the public advertising of the draft LPS 3 for public comments in accordance with regulation 22 of the Planning and Development (Local Planning Schemes) Regulations 2015 for a period of 90 days.

At the conclusion of the advertising period, all submissions received will be presented to Council for its further consideration.

3.3 Interpretation of the Zoning Table

3.3.1 The permissibility of uses of land in the various zones in the Scheme area is determined by cross-reference between the list of use classes on the left hand side of the zoning table and the list of zones at the top of the zoning table.

3.3.2 The symbols used in the zoning Table have the following meanings –

‘P’ means that the use is permitted if it complies with any relevant development standards and requirements of this Scheme;

‘I’ means that the use is permitted if it is consequent on, or naturally attaching, appertaining or relating to the predominant use of the land and it complies with any relevant development standards and requirements of this Scheme;

‘D’ means that the use is not permitted unless the local government has exercised its discretion by granting development approval;

‘A’ means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving notice in accordance with clause 64 of the deemed provisions;

‘X’ means a use that is not permitted by this Scheme.

Note: 1. The development approval of the local government may be required to carry out works on land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the carrying out of works on, and the use of, land. For development on land that does not require development approval see clause 61 of the deemed provisions.

2. In considering an application for development approval, the local government will have regard to clause 67 of the deemed provisions.

3.3.3 A specific use class referred to in the Zoning Table is excluded from any other use class described in more general terms.

3.3.4 The local government may, in respect of a use that is not specifically referred to in the zoning table and that cannot reasonably be determined as falling within a use class referred to in the zoning table —

(a) determine that the use is consistent with the objectives of a particular zone and is therefore a use that may be permitted in the zone subject to conditions imposed by the local government; or

(b) determine that the use may be consistent with the objectives of a particular zone and give notice under clause 64 of the deemed provisions before considering an application for development approval for the use of the land; or

(c) determine that the use is not consistent with the objectives of a particular zone and is therefore not permitted in the zone.

3.3.5 If the use of land is identified in a zone as being a class P or class I use, the local government may not refuse an application for development approval for that use in

that zone but may require works that are to be undertaken in connection with that use to have development approval.

- 3.3.6 If a use of land is identified in a zone as being a class X use, the local government must refuse an application for development approval for that use in that zone unless
- (a) the development approval application relates to land that is being used for a non-conforming use; and
 - (b) the local government considers that the proposed use of the land would be less detrimental than the non-conforming use.

- 3.3.7 If the zoning table does not identify any permissible uses for land in a zone the local government may, in considering an application for development approval for land within the zone, have due regard to any of the following plans that apply to the land
- (a) a structure plan;
 - (b) an activity centre plan; and
 - (c) a local development plan.

3.4 Additional uses

Schedule 2 sets out –

- (a) classes of use for specified land that that are additional to the classes of use that are permissible in the zone in which the land is located; and
- (b) the conditions that apply to that additional use.

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the additional class of use set out in Schedule 2 in respect of that land subjects to the conditions that apply to that use.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

3.5 Restricted uses

Schedule 3 sets out –

- (a) restricted classes of use for specified land that that apply instead of the classes of use that are permissible in the zone in which the land is located; and
- (b) the conditions that apply to that restricted use.

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the restricted class of use set out in respect of that land subject to the conditions that apply to that use.

Note: A restricted use is the only use or uses that is permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

3.6 Special use zones

3.6.1 Schedule 4 sets out –

- (a) special use zones for specified land that are in addition to the zones in the zoning table; and
- (b) the classes of special use that are permissible in that zone; and
- (c) the conditions that apply in respect of the special uses.

3.6.2 A person must not use any land, or any structure or buildings on land, in a special use zone except for a class of use that is permissible in that zone and subject to compliance with any conditions set out in Schedule 4 that apply to that use.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

3.7 Non-conforming uses

3.7.1 Unless specifically provided, this Scheme does not prevent –

- (a) the continued use of any land, or any structure or building on land, for the purpose for which it was being lawfully used immediately before the commencement of this Scheme; or
- (b) the carrying out of any development on land if –
 - (i) before the commencement of this Scheme, the development was lawfully approved; and
 - (ii) the approval has not expired or been cancelled.

3.7.2 Subclause (3.7.1) does not apply if –

- (a) the non-conforming use of the land is discontinued; and
- (b) a period of 6 months, or a longer period approved by the local government, has elapsed since the discontinuance of the non-conforming use.

3.7.3 Subclause (3.7.1) does not apply in respect of a non-conforming use of land if, under Part 11 of the Act, the local government –

- (a) purchases the land; or
- (b) pays compensation to the owner of the land in relation to the non-conforming use.

Note: "Land" has the same meaning as in the Planning Act and includes houses, buildings and other works and structures.

 - (d) change the use of land from a non-conforming use to another non-conforming use that is not permitted by the Scheme.
- An application for development approval for the purposes of this clause must be advertised in accordance with clause 64 of the deemed provisions.
- 3.8.2 A local government may only grant development approval for a change of use of land referred to in subclause (3.8.1d) if, in the opinion of the local government, the proposed use —
- (a) is less detrimental to the amenity of the locality than the existing non-conforming use; and
 - (b) is closer to the intended purpose of the zone in which the land is situated.
- 3.9 Register of non-conforming uses

 - (b) must make a copy of the register available for public inspection during business hours at the offices of the local government; and

Attention: Mr Azhar Awang, Executive Manager

Dear Azhar,

SHIRE OF NARROGIN DRAFT LOCAL PLANNING SCHEME No.3 - EXAMINATION OF DOCUMENTATION

Thank you for your letter of 22 March 2017. Pursuant to regulation 21(4) of the *Planning and Development (Local Planning Schemes) Regulations 2015*, the Western Australian Planning Commission (the Commission) has examined the documents submitted regarding draft Local Planning Scheme No. 3.

The Commission considers that modification of the draft LPS is required in order for it to be suitable for advertising, mainly to achieve conformance with the Regulations. These modifications are set out in **Attachment 1**. It would be considered prudent to complete the modifications to the Shire's Local Planning Strategy prior to finalising the LPS.

Upon the modifications to the LPS being completed and submitted to the WAPC for review, the draft LPS should be advertised in accordance with r. 22. It would be appreciated if you could forward a copy of the advertised draft LPS to the Commission.

As a full assessment has not been undertaken, this advice should not be construed as an indication of future approval. When a full assessment is undertaken and public submissions are considered, additional modifications may be recommended to the Minister for Planning.

A Local Planning Scheme Checklist is enclosed, which is designed to assist when submitting the draft LPS to the Commission for final approval. The checklist is provided at **Attachment 2**.

If you have any queries regarding the draft scheme or the processes involved, please contact Ryan Carvell from the Wheatbelt Region team on 6551 9768 or at ryan.carvell@planning.wa.gov.au

Yours sincerely

Kerrine Blenkinsop
Secretary
Western Australian Planning Commission

Dear Mr Stewart

SCHEME: LOCAL PLANNING SCHEME 3 (LPS 3)
LOCATION: SHIRE OF NARROGIN

Thank you for your referral received 12 May 2021 in relation to the above proposed scheme, and subsequent email on 15 June 2021 providing further information.

In September 2009, the Environmental Protection Authority (EPA) determined LPS 3 did not require assessment (attached), however advice was provided. Further to the information provided by the Shire, EPA Services understands the LPS 3 draft referred to the EPA on 12 May 2021 is an updated version of the scheme as referred to the EPA in 2009 and the Shire of Narrogin Council has not initiated a new LPS 3.

Consistent with the EPA's 2009 advice for LPS3, for the purposes of Part IV of the *Environmental Protection Act 1986* (EP Act) the scheme is defined as an 'assessed scheme' and no further consideration of LPS3 is required by the EPA.

In addition to considering the EPA's previous advice regarding LPS 3, the Shire is reminded of its obligations, as the responsible authority, to refer significant proposals to the EPA for environmental impact assessment, consistent with Part IV of the EP Act.

If you have any questions in relation to this letter, please contact Renee Blandin on 6364 6786.

Yours sincerely

Summary

Council is requested to consider the Application for Planning Consent for an Outbuilding (Aircraft Hangar) at Lot 1 (No. 2202) Clayton Road, Minigin.

Background

On 29 June 2021, the Shire of Narrogin received an Application for Planning Consent for the erection of an Outbuilding (Aircraft Hangar) at Lot 1 (No. 2202) Clayton Road, Minigin. The Proposed outbuilding is to be 12m long by 12m wide. The roof pitch will be 4m while the wall height is 3.2m. The proposal's height, size and development is consistent with both existing hangars on site and with the principles of the Narrogin Airport Masterplan 2013. The proposal is almost identical to another Aircraft Hangar approved by Council at the Ordinary Council Meeting on 27 October 2020 with the colour being the only differentiation. This proposal is to be clad in 'heritage red/manor red' Colorbond. This proposal is to be situated immediately east of the previously approved hangar.

Consultation

A site visit was undertaken by the Planning Officer on 2 July 2021.

The following Officers were consulted:

- Executive Manager Technical and Rural Services

The lessee of the property, via the president of the Narrogin Flying Club, has given its support for the proposal.

Statutory Environment

The following documents relate to the proposal:

- Former Shire of Narrogin – Local Planning Scheme No. 2
- Narrogin Airport Masterplan 2013.

Policy Implications

Nil

Financial Implications

Application for Planning Consent Fee of \$147 was paid to the Shire of Narrogin on 29 June 2021.

Strategic Implications

Shire of Narrogin Strategic Community Plan 2017-2027		
Objective	1.	Economic Objective (Support growth and progress, locally and regionally)
Objective	3.	Environment Objective (Conserve, protect and enhance our natural and built environment)
Outcome:	3.4	A well maintained built environment
Strategy:	3.4.1	Improve and maintain built environment

Comment/Conclusion

Zoning

The subject land is reserved for “Public Purpose” under the Former Shire – Local Planning Scheme No. 2 (FS-LPS). Clause 2.2 of the FS-LPS states:

“2.2 Matters to be considered by Council

Where an application for planning approval is made with respect to land within a reserve, the Council shall have regard to the ultimate purpose intended for the reserve and the Council shall, in the case of reserved for the purpose of a public authority, confer with that authority before granting its approval.”

Given the existing development on site, the proposed development fits with the intent of the reserve.

Tenure

The proposed Outbuilding is located on Lot 1 (No. 2202) Clayton Road, being land owned freehold by the Shire of Narrogin and on part of the Narrogin Flying Club Lease. The lease with the Narrogin Flying Club commenced 24 June 2020 and expires on 30 September 2040.

Height and Bulk

Section 4.7 of the Narrogin Airport Masterplan 2013 states:

“The landside development is required to occur behind a designated ‘Building Line’.

An offset of 85 metres from runway 10/28 centreline allows hangar/building height development of up to 8 metres and has been depicted as the building line location.

This is determined by the 1:5 transitional surfaces that arise from both sides of the 90 metre runway strip. This is depicted by the Obstacle Limitation Surfaces (OLS) plan.

This 85 metre offset distance can be increased, as in the case for the proposed location of new hangars, club rooms and future hangar sites.”

The 80m setback of the proposed outbuilding from the runway centreline would allow for a maximum height of 7.5m, therefore the development of the hangar is compliant with a 4m height.

OFFICERS' RECOMMENDATION AND COUNCIL RESOLUTION 0721.005

Moved: Cr Fisher

Seconded: Cr Broad

That with respect to the Application for Planning Consent: Outbuilding (Aircraft Hangar) at Lot 1 (No. 2202) Clayton Road, Minigin, Council grant Planning Approval subject to the following conditions:

2. The development approved shall be in accordance with the plans and specifications submitted with the application and these shall not be altered or modified without the prior written approval of the Chief Executive Officer.
3. Any use, additions to and further intensification of any part of the development or land which is not in accordance with the original application or conditions of approval shall be subject to a further development application and consent for that use.
4. All drainage run-off associated with the development shall be contained on site or connected to the Shire's storm water drainage system to the satisfaction of the Chief Executive Officer.
5. The proposed outbuilding is for the storage of aircraft and associated equipment only and shall not be used for commercial or habitation purposes.
6. Construction of the outbuilding shall be kept clear from all service connections.
7. The building materials and colours shall match existing buildings on the lot and are to be of non-reflective and muted tones, i.e. not Zinalume.

Advice Notes:

1. The applicant is advised that the property is subject to a lease between the Shire of Narrogin and the Lessee, being the Narrogin Flying Club Inc, and the applicant should familiarise themselves with the contents of that document.
2. This is not a Building Approval for which a separate application is required.

Summary

Council's consideration is requested to advertise the draft Shire of Narrogin Public Health Plan, for the purpose of seeking public comment.

The purpose of the Shire of Narrogin Public Health Plan (the Plan) is to protect, improve and promote public health and wellbeing for all residents and ratepayers in the Shire of Narrogin. The Plan's intent is to support all members of the community, through various life stages to enable good health and wellbeing to be enjoyed across a range of identified health issues.

Background

The Plan focuses on what the Shire can do directly within its functions and capacity, and through partnerships, to enhance public health, and recognises that many factors influence health and wellbeing, including those which occur within the social, built, economic and natural environments.

In partnership with key health, community, education and government organisations and private industry, the Shire of Narrogin is committed to implementing a range of initiatives across Council functions that contribute to the health and wellbeing of individuals and families, particularly those most vulnerable and in need of support.

The development of this Plan has used an evidenced-based framework, supported by a sound understanding and acknowledgement of the many factors in our environments and residential areas that affect health and wellbeing.

The methodology used to develop this Plan included a policy alignment process to identify existing public health priorities within the Shire, the identification of community needs and aspirations, involvement of Shire of Narrogin staff to identify local public health risks, advice from key stakeholders on the issues affecting their clients and communities and the integration of local health data.

Through this process a list of five priority health issues were identified and include:

- Environmental health protection;
- Alcohol and Drugs;
- Access to fresh food and nutrition;
- Mental health; and
- A more active lifestyle.

For those five identified priorities, set strategies and actions have been identified and fit under the broad priority areas of: Environmental Health Protection, Chronic Disease Prevention and Promoting Positive Community Lifestyle.

It is expected that implementation of the Plan will occur through:

- the implementation of actions directly identified in this document; and
- the development and subsequent implementation of a range of action plans or existing plans that are called up, which reflect the policy directions and community issues identified in the Plan.

The Shire will measure and report against an agreed range of community health indicators to track outcomes over time. This will focus on improvements to health and wellbeing, partnerships and communication within the Shire of Narrogin.

Central to the development of this Plan is an acknowledgement of the need and value of integrated health planning and strong partnerships in the Shire of Narrogin. The nature of the Plan is dynamic, reflecting a commitment to work with partner organisations to progressively address priority health and wellbeing issues and to develop and implement a number of strategies under this Plan.

Consultation

Consultation, to date, has been limited to in house and the Department of Health. Once approved by Council for public comment consultation will be encouraged from within the Shire, various government departments, community groups and individuals.

It is intended that as well as advertising via the normal channels, such as the website and social media a copy of the Plan will be provided in electronic versions with hard copies made available at specific venues such as the library, Shire office and the Narrogin Regional Recreation Complex.

Any consultation undertaken will be in keeping with the principles established in Council Policy 1.12 Community Engagement.

Following the period of consultation any suggestions made will be considered and a report prepared for consideration to incorporate into the final plan.

Statutory Environment

The *Public Health Act 2016*, section 16 requires a local government to:

“A local government has the following functions in relation to the administration of this Act —

- (a) to initiate, support and manage public health planning for its local government district;*
- (b) to develop and implement policies and programmes to achieve the objects of this Act within its local government district;*
- (c) to perform the functions that are conferred on local governments by or under this Act;”*

The Shire of Narrogin Public Health Plan meets the Shire’s legislative obligations.

WA State Legislation can be found on the website below:

<https://www.legislation.wa.gov.au/legislation/statutes.nsf/default.html>

Policy Implications

The initial draft Policies developed for the Plan are generic statements that explain the Shire’s position to the subjects raised and as such, do not commit the Shire to any additional budgeting into the future.

To assist the Plan in achieving its objectives, a number of policies have been developed. These include:

- **Healthy Eating Policy** – the Shire of Narrogin recognises the impact healthy fresh food and good nutrition can have on residents’ lives and the community in that it contributes positively to physical and mental health. In addition, a focus on food in a wider context such as food security, food systems and an awareness of the culinary aspects of food can strengthen the local economy and foster cultural and social connection. This policy will be further augmented by the Local Food Environments Plan for the Shire of Narrogin currently being developed in conjunction with Curtin University.
- **Active Narrogin Policy** – the Shire of Narrogin recognises the importance of providing and facilitating opportunities for the community to engage in physical activities by offering accessible, safe and affordable facilities and services which meet the community-identified needs and encourages residents to be active;
- **Alcohol and Drug Policy** – this Policy identifies the Shire’s role in minimising the negative impacts of alcohol and drug use on the local community. It formalises Council's agreement to a harm minimisation approach, and demonstrates Council's commitment to create partnerships with other agencies to address community concerns;
- **Environmental Health Policy** – to be developed. A policy that encourages residents to practice habits that lead to a better lifestyle and to a longer more enjoyable life; and
- **Mental Health Policy** – to be developed as a policy that encourages people to ask RUOK, to listen with an open mind, encourage action and check in on a regular basis.

Financial Implications

The Policies and Plan largely reflects what we are doing now.

Thus the Plan mirrors and recommends continuation of the delivery of existing services, advocacy and communication, and as a result, there are only minor financial implications relative to this matter including officers’ time, minor administrative and advertising costs.

Strategic Implications

Shire of Narrogin Strategic Community Plan 2017-2027		
Objective	2.	Social Objective (To provide community facilities and promote social interaction)
Outcome:	2.2	Build a healthier and safer community

Strategy:	2.2.1	Support the provision of community security services and facilities
Objective	3.	Environment Objective (Conserve, protect and enhance our natural and built environment)
Outcome:	3.1	A preserved natural environment
Strategy:	3.1.1	Conserve, enhance, promote and rehabilitate the natural environment

Comment/Conclusion

When gazetted in 2016, the *Public Health Act 2016* required a local government to develop and implement a public health plan within five (5) years. That requirement has since been amended to require local governments to initiate, support and manage public health planning as well as develop and implement policies and programmes to achieve the objects of the Act.

The Plan meets the Shire's legislative obligations under the Act, and aims to establish an integrated health and wellbeing planning process that fits into existing planning frameworks and strategies within local government and can support a wider local vision for a healthier community.

The Plan aims to identify the health and wellbeing needs of the community and establish priorities and strategies for a five-year period with a focus on the following key areas:

- Healthy People and Community: – To guide and encourage our community to lead healthier lifestyles through the provision of lifestyle and educational opportunities.
- Healthy Places and Spaces: – To provide healthy places and spaces to encourage and support healthy lifestyle opportunities.
- Healthy Partnerships: – To develop collaborative partnerships with community, business, government, non-government and key stakeholders to improve health and wellbeing.

The Plan is at the same time a stand-alone document as well as dovetailing in with the State Public Health Plan for Western Australia. Where possible repetition with the State Plan has been kept to a minimum.

As well as containing the history of public health planning the document also details current health and socio-economic information from the 2011 census (the most current SEIFA data available at the time of writing the Plan). The 2011 census reported that the Shire of Narrogin had a Socio-Economic Indexes for Areas (SEIFA) score of disadvantage of 932. A SEIFA score of 1,000 is considered the benchmark. Where specific health information was not available for the Shire of Narrogin the Plan has defaulted to the Wheatbelt region or the State.

The current Shire population of 5162 persons (2016 census) is made up of 48.8% male and 51.2% female with adults aged 65 and over accounting for just under 20% (18.2%) and children under 14 years 20.8%, with the mean age for the Shire being 40.

This document is meant to be a living Plan and will change in the future to reflect the community and the Shire's aspirations over time.

Even though the information presented in the Plan can be considered as statistics, it is in fact a representation of the Narrogin community as a whole. The agenda for the future will be to get the lifestyle, socio-economic balance in the right mix for a healthy active community. In the Wheatbelt Region, Narrogin has achieved a great deal however there is room for improvement into the future.

Message from the Shire President & Chief Executive Officer

The Shire of Narrogin is proud to present the Public Health 2021-2025. The plan has been developed to protect, promote, and improve public health and wellbeing in our community and we are committed to ensuring that the residents of the Shire have an acceptable level of health today and into the future. Health is important to each of us as individuals, to our families and to our communities and we hope to ensure that we all have the opportunity to enjoy our health to the fullest extent.

The development of the Public Health Plan has been a process of research and community consultation which has resulted in a roadmap for the people of Narrogin and their families to enjoy the benefits of a healthy community, lifestyle and environment. Traditional health protection initiatives will continue to occur while adopting a new focus on assisting the Local Health service providers and the State in preventing long term disease caused by poor lifestyle choices. Residents of the Shire will be encouraged to live healthy and fulfilling lives. The Shire is working towards having more opportunities for residents to engage in a healthy lifestyle and to make the choices that will lead them to greater physical, social, and mental health wellbeing while being a part of a growing and thriving community.

This Public Health Plan will assist Narrogin in being and continuing to be a place where social, cultural, and economic benefits promote the quality of life necessary to maintain a healthy lifestyle and environment. The Shire is committed to working with its stakeholders, including the State Government, to make the goals of this plan a reality and to fully realise the benefits of a healthy lifestyle, through the right choices in exercise, diet and community interaction to our community today and into the future. This Public Health Plan will guide our community along a path of health and wellbeing, which will be enjoyed by all residents now and into the future.

Executive Summary

The purpose of the Shire of Narrogin Public Health Plan (the Plan) is to protect, improve and promote public health and wellbeing for all residents and ratepayers in the Shire of Narrogin. The Plan's intent is to support all members of the community, through various life stages to enable good health and wellbeing to be enjoyed across a range of identified health issues.

The Plan focuses on what the Shire can do directly within its functions and capacity, and through partnerships, to enhance public health, and recognises that many factors influence health and wellbeing, including those which occur within the social, built, economic and natural environments.

In partnership with key health, community, education and government organisations and private industry, the Shire of Narrogin is committed to implementing a range of initiatives across Council functions that contribute to the health and wellbeing of individuals and families, particularly those most vulnerable and in need of support.

The development of this Plan has used an evidenced-based framework, supported by a sound understanding and acknowledgement of the many factors in our environments and residential areas that affect health and wellbeing.

The methodology used to develop this Plan included a policy alignment process to identify existing public health priorities within the Shire, the identification of community needs and aspirations, involvement of Shire of Narrogin staff to identify local public health risks, advice from key stakeholders on the issues affecting their clients and communities and the integration of local health data.

Through this process a list of five priority health issues were identified and include:

- Environmental health protection;
- Alcohol and Drugs;
- Access to fresh food and nutrition;
- Mental health; and
- A more active lifestyle.

For those five identified priorities, set strategies and actions have been identified and fit under the broad priority areas of; **Environmental Health Protection, Chronic Disease Prevention and Promoting Positive Community Lifestyle.**

It is expected that implementation of the Public Health Plan will occur through:

- the implementation of actions directly identified in this document; and
- the development and subsequent implementation of a range of action plans or existing Plans that are called up, which reflect the policy directions and community issues identified in the Public Health Plan.

The Shire will measure and report against an agreed range of community health indicators to track outcomes over time. This will focus on improvements to health and wellbeing, partnerships and communication within the Shire of Narrogin.

Central to the development of this Plan is an acknowledgement of the need and value of integrated health planning and strong partnerships in the Shire of Narrogin. The nature of the Plan is dynamic, reflecting a commitment to work with partner organisations to progressively address priority health and wellbeing issues and to develop and implement a number of strategies under this Plan.

1.0 INTRODUCTION

The Shire of Narrogin Public Health Plan (the Plan) compliments the State Government’s Public Health Plan.

The Shire of Narrogin recognises that good health is the cornerstone of a happy and connected community and is committed to creating an environment where it is easy for people to lead safe, happy and healthy lives.

This Plan is a five-year strategic document that meets the Shire’s legislative obligations for the development of a local Public Health Plan under the WA Public Health Act 2016. This plan is intended to integrate with and ‘value-add’ to the Shire’s core functions rather than duplicate existing plans and strategies across the organisation.

The approach adopted in developing this Plan has been guided by the ‘Pathway to a Healthy Community’, Department of Health 2017, Pathway to a Healthy community: a guide for councillors and local government, South Metropolitan Health Service, Perth, and recognises local government as the tier of government closest to the community in supporting and influencing the health and wellbeing outcomes. It promotes the range of services delivered by the Shire which help to establish many of the necessary conditions upon which good health and wellbeing is determined, see Figure 1 below

2.0 ABOUT THIS PLAN

This Plan meets the Shire's legislative obligations under the Western Australia's *Public Health Act 2016*, which aims to establish an integrated health and wellbeing planning process that fits into existing planning frameworks and strategies within local government and can support a wider local vision for a healthier community.

The Plan aims to identify the health and wellbeing needs of the community and establish priorities and strategies for a five-year period with a focus on the following key areas:

Key Areas:

1. HEALTHY PEOPLE AND COMMUNITY:

To guide and encourage our community to lead healthier lifestyles through the provision of lifestyle and educational opportunities.

2. HEALTHY PLACES AND SPACES:

To provide healthy places and spaces to encourage and support healthy lifestyle opportunities.

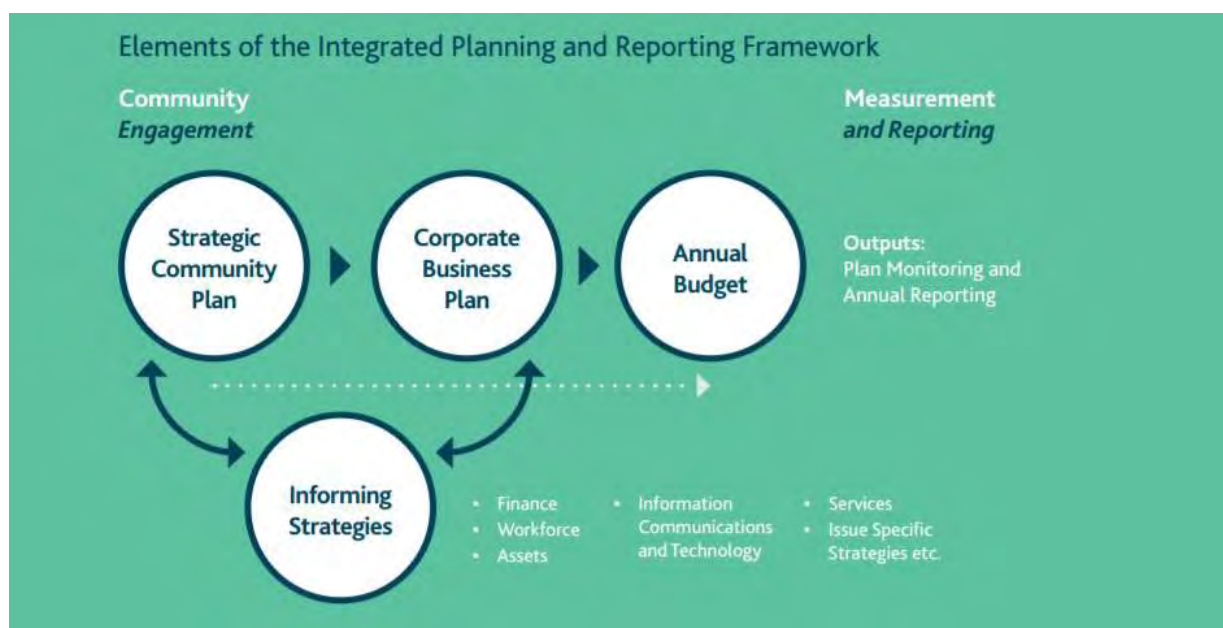

3. HEALTHY PARTNERSHIPS:

To develop collaborative partnerships with community, business, government, non-government and key stakeholders to improve health and wellbeing.

2.1 Corporate Planning Framework

The Plan aligns with and builds on the foundations of the **Integrated Planning and Reporting Framework**, as shown in the image below, and will operate as an informing strategy to the Shire's **Strategic Community Plan 2017-27**. This plan is intended to integrate with and 'value-add' to the Shire's core functions rather than duplicate existing plans and strategies across the organisation. (See Figure 2 below)

Figure 2: Integrated Planning

2.2 Community Engagement

This draft Plan will be advertised for community consultation and formed by the ideas and feedback gathered from the community, service providers, local organisations, businesses and government agencies, through various engagement processes.

The draft Plan has been developed through research, and consultation with the Wheatbelt Health Services and Shire staff including Planning ,Building Services and Community Development. It is intended to advertise the draft plan and seek community, Government and non-Government Organisations (NGO) feedback. Where appropriate that feedback will be fed into this Plan to identify opportunities to optimise the health and wellbeing of the community.

The Plan provides a framework for an integrated and collaborative approach that will support and enhance the community's ability to lead healthy, active and rewarding lives. It is designed to complement rather than duplicate Council's existing planning frameworks and strategies.

The following documents have been used to inform and/or complement this plan:

- SoN Strategic Community Plan 2017-2027
- SoN Corporate Business Plan 2020-2024
- Recreation and Community Facilities Strategy 2020
- Disability Access and Inclusion Plan 2018-2023

3.0 BACKGROUND

3.1 Definition

The World Health Organisation (WHO) in 2016, defined health as “a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.” In functional terms, health is a resource which permits people to lead an individually, socially and economically productive life.

Social commentator, researcher and writer on health and wellbeing, Richard Eckersley, describes community wellbeing in his book “*Measuring Progress: Is Life Getting Better?*” as the condition or state of being well, contented and satisfied with life. He describes wellbeing as having several components, including physical, mental, social and spiritual. Wellbeing can be used in a collective sense, to describe how well a society satisfies people’s wants and needs.

For the purpose of this Plan, health and wellbeing refers to a state of physical, mental and social wellbeing, where individuals feel connected to their community and satisfied with their overall quality of life. Quality of life refers to the general wellbeing of a person or society, defined in terms of health and happiness rather than wealth.

An individual’s health and wellbeing is impacted by a number of factors often outside of their control which fall into the social, economic, built and natural environments in which people live, work and play.

From a community perspective, positive levels of health and wellbeing can contribute to the level of social interaction and the vitality of a community. For example, it enables participation in sports, volunteering, arts, culture and other activities that connect the community. Of course, these activities also contribute to positive health and wellbeing. By contrast, poor health and wellbeing reduces this participation and brings with it the high costs of medical care and other community services.

A healthy community can be defined as one where people living within it come together to make life better for themselves and one another. One which connects people and resources, encourages communication, embraces diversity, fosters a sense of community, and shapes its future.

3.2 International Context

3.2.1 World Health Organisation (WHO)

The goal of the WHO, which was established in 1948, is to build a better and healthier future for people all over the world.

WHO has identified ten social determinants of health and wellbeing which should be addressed through policy at all levels – in government, public and private institutions to help create a healthy society:

- socio-economic status
- unemployment
- stress
- social support
- early life
- addiction
- social exclusions

- food
- work
- transport.

3.2.2 The Ottawa Charter for Health Promotion

The Ottawa Charter for Health Promotion (Charter) is an international agreement signed at WHO’s First International Conference on Health Promotion in Ottawa, Canada, in November 1986. It launched a series of actions to improve world health by the year 2000 and beyond through better health promotion.

The Charter seeks action in five key areas:

1. Build healthy public policy;
2. Create supportive environments for health;
3. Strengthen community action for health;
4. Develop personal skills; and
5. Re-orient health services.

3.3 National Context

Australia’s health system is considered world class, supporting affordable access to high quality medical, pharmaceutical and hospital services, while helping people to stay healthy through health promotion and disease prevention activities. The Australian Federal Department of Health is charged with the responsibility of overseeing Australia’s health system.

3.3.1 Department of Health (Australia)

The Australian Government Department of Health (Department) has a diverse set of responsibilities, but all with a common purpose that is reflected in their vision statement:

“Better health and wellbeing for all Australians, now and for future generations.”

The Department is committed to achieving its vision through working towards three strategic priorities:

- Better health and ageing outcomes and reduced inequality
- Affordable, accessible, efficient, and high-quality health and aged care system
- Better sport outcomes.

The Department has released a set of National Guidelines for *Physical Activity and Sedentary Behaviour* which includes recommendations for people of different ages.

Table 1 summarises these daily recommendations.

	Physical Activity	Sedentary Behaviour
0-5 Years	Move and play every day 1-3 Years – Physically active every day – 3 hours	Younger than 2 years – minimal time watching television or using electronic media. 2-5 years – less than 1 hour of electronic media.

6-12 Years	At least 60 minutes of physical activity (moderate and vigorous activities) 3 days a week – muscle/bone strengthening activities.	Less than 2 hours of electronic media.
13-17 Years	60 minutes moderate to vigorous activities every day. Include muscle/bone strengthening activities.	Limited to less than 2 hours of electronic media for entertainment.
18-64 Years	Be active on most days of every week. 150-300 minutes (moderate) or 75-150 minutes (vigorous) physical activity a week. Muscle strengthening activities at least twice a week.	

Table 1: National Guidelines for Physical Activity, Sedentary Behaviour and Nutrition

3.3.2 Australian Sports Commission

The Australian Sports Commission (ASC), established in 1985, plays a central leadership role in the development and operation of the Australian sports system, administering and funding innovative sport programs and providing leadership, coordination and support for the sport sector.

In December 2016, ASC funded the launch of a national population tracking survey called AusPlay. Data collected within the survey reveals that:

- participation in sport-related activity (i.e. team sports) tends to decline in children from the age of nine, and continues to decline until adulthood;
- participation in sport-related activity remains fairly constant in adults until around 35 years, when most adults retire from their chosen sport; and
- participation in non-sport related activities (i.e. walking, running, gym training) begins to increase from the age of 15, and then remains fairly constant throughout the life course.

This data shows that while sport remains an important form of physical activity throughout life, non-sport related activities become more important as we age.

3.4 Western Australia – State Context

WA Health manages the state’s public health system and consists of the Department of Health (DoH), as well as a number of Health Service Providers and Health Support Services.

On 1 July 2017, the State Government introduced major changes to the public sector including a 40% reduction in government departments and a major service review in order to create efficiencies and deliver better services for the community. In line with these changes, the Department of Local Government Sport and Cultural Industries (DLGSC) was amalgamated with several other state government departments to form the Department of Local Government, Sport and Cultural Industries (DLGSCI). This department has a strong emphasis on enlivening

our communities and economy, as well as offering outstanding sporting and cultural experiences to local, interstate and international visitors.

These changes have created a lot of uncertainty in regards to various funding models, programs and professional networks. The Shire works closely with existing partners to try and maintain funding to support the implementation of this strategy over the next five years. In the event that existing funding agreements are impacted by this service review, the Shire will ensure that appropriate funds are still committed to improving community health and wellbeing.

3.4.1 Department of Health (WA)

Public Health Act 2016

The Public Health Act 2016 (PHA), together with the supporting Public Health (Consequential Provisions) Act 2016, is now law in Western Australia.

Table 4: SPHP – Objective 3 – Improving Aboriginal health and wellbeing

The PHA will be progressively introduced and will eventually require all Local Government Authorities to develop a Local Public Health Plan. The local plan will be consistent with a new State Public Health Plan that is projected for development and release during Stage 5 of DoH's implementation of the PHA in three to five years.

In 2019, DoH released State 'Public Health Plan for Western Australia' following the 2017 release of the "First Interim State Public Health Plan for Western Australia" (Interim Plan), to provide Local Governments and agencies wanting to begin their local public health planning with a guiding document. The Interim Plan was followed in March 2018 by the *Public Health Planning Guide for Local Government*. This document provides guidance to local government on the evidence required to support the need for public health programs across the three public health objectives and their policy priorities (see Tables 2, 3 and 4 above).

3.4.2 Healthway

Healthway is an independent authority that reports to the Minister for Health and is considered the health promotion funding arm of the State Government. Healthway provides funding to a range of organisations across WA to support programs which encourage healthy lifestyles. This includes various health promotion initiative grants and sponsorships to promote health campaign messages, create healthy environments and increase participation in healthy activities.

3.4.3 Act-Belong-Commit – Mentally Healthy WA

Act-Belong-Commit (A-B-C) is a comprehensive community-based health promotion campaign by Mentally Healthy WA that encourages individuals to take action to protect and promote their own mental wellbeing. It also encourages community participation in mentally healthy activities delivered by community organisations. This evidence-based campaign was developed primarily

from research undertaken by Curtin University into people's perceptions of mental health and behaviours they believed protected and promoted good mental health.

The A-B-C guidelines for positive mental health provide a simple approach that individuals can adopt to become more mentally healthy:

- Act – Keep mentally, physically and socially active: take a walk, read a book, stop to chat
- Belong – Join a book club, take a cooking class, go along to a community event
- Commit – learn something new, take on a challenge, volunteer.

3.4.4 Department of Sport and Recreation

Prior to the state government amalgamations in 2017, the former DLGSC published a document titled: “Sport and Recreation and Public Health: A Resource for community sector professionals working in local government”, which describes how local government can contribute to improving community health and wellbeing. The priority issues and how local government can contribute are listed in Table 5:

The previous DLGSC partnered with the Department of Transport (DoT) to introduce an innovative community-based behaviour change program aiming to help people find simple ways to get active. The program has been built on some of the elements of the DoT's previous TravelSmart and Living Smart programs, encouraging workplaces, schools and community to choose more active ways of getting around, increasing their level of physical activity.

This program is being operated in conjunction with the City of Stirling at present.

Club Development Officer Scheme

The Club Development Officer (CDO) Scheme is a funding partnership between DLGSCI and WA local governments. The aim, through the Club Development Framework is to create a collaborative approach to club development by connecting State Sporting Associations, Regional Sport Associations, local government and community organisations to support sport and recreation clubs to become sustainable and deliver diverse opportunities to participate in physical activity in their local community.

Locally, this program was a partnership between the Shires of Narrogin, Wickelup, Cuballing, Wagin, Pingelly and Brookton to support and enhance the sustainability and capacity of sporting and recreation organisations. The program has in the past been delivered by the Shire's in conjunction with Community Resource Centres and assists local sport and recreation clubs in becoming sustainable organisations that continue to provide opportunities for locals of all ages to participate in a variety of sport and recreation.

The program was operated through the Shire's Community Development Officer.

KidSport

KidSport was launched by the previous DLGSC in 2011, as part of Sport 4 All, a \$20 million project aiming to increase participation in community sport and recreation throughout WA. KidSport enables eligible children aged 5-18 years to participate in community sport and recreation by offering them financial assistance towards club fees through a voucher system. DLGSCI partners with local governments across WA to administer the program locally through the provision of funding. The Shire has been involved in KidSport since 2012 and will continue the partnership with DLGSCI in the foreseeable future if funding continues.

4.0 SHIRE OF NARROGIN HEALTH PROFILE

4.1 Shire Profile

The Shire of Narrogin is located in the southern area of the Wheatbelt region of Western Australia and has a rich indigenous history as part of the broader Gnaala Karla Booja Region.

The Shire was first settled by Europeans in the 1860's and was originally part of the Williams Road Board.

The townsite of Narrogin is located in the southern Wheatbelt agricultural region, 192 km south east of Perth and 32 km east north east of Williams. It is located on the Great Southern Railway, and when this line was opened in 1889, Narrogin was one of the original stopping places. The railway line was a private line, and the Company that built the line declared a private townsite here in 1891. The railway was purchased by the Government in 1896, and in 1897 Narrogin was gazetted as a government townsite. Narrogin is an Aboriginal name, having been first recorded as "Narroging" for a pool in this area in 1869. The meaning of the name is uncertain, various sources recording it as "bat camp", "plenty of everything" or derived from "gnargagin" which means "place of water".

The Shire of Narrogin Local Government area (LGA) covers an area of 1,630.6 square kilometres and borders the Shires of Cuballing, to the north, Wickiepin to the east, Wagin and West Arthur to the south and Williams to the west. The Shire includes the following localities, Narrogin Township, Narrogin Valley, Boundain, Dumberning, Highbury, Hillside, Mingin, Nomans Lake and Yilliminning

4.2 Health and Wellbeing

Health is impacted by a number of factors, often outside the control of the individual. These factors are referred to as the social determinants of health and include socio-economic status, employment, income, education, housing, social support, access to health care, drug addiction, transport, food security and community safety.

From a community perspective, the health and wellbeing of the population contributes to social interaction and the vitality of the community. For example, it enables participation in sports, volunteering, arts, culture and other activities that bring the community together. By contrast, poor health and wellbeing reduces this participation and brings with it the high costs of medical care and other community services.

The Rural Health West publication – Outreach in the Outback – Wheatbelt – population and health snapshot, has identified specific areas of public health, including Population forecasts, Measure of disadvantage, Major Health Services, Maternal Health, Child and adolescent health, Adult health, eye health, ear health, mental health, hospitalisations and mortality.

4.3 Community Profile

The social determinants of health demonstrates that public health is closely linked with many other components of a community's profile. The following Population overview provides a snapshot of the Shire's demographic and social profile (from the 2016 Census Data).

4.4 Population Overview

The Shires population is currently 5162, according to the 2016 census with males making up 48.8% and females 51.2% of the population, with a median age of 40.

The proportion of adults 65 plus years old currently make up 18.2% of the population, however this is expected to double by 2026. Children aged 0 to 14 years make up 20.8% of the population. Based on the 2016 census Aboriginal people represented 6.3% of Narrogin's population. Generally, the Wheatbelt Aboriginal population has a younger age structure, with 50% of the population aged under 20.

4.5 Socio-Economic Status – Measure of Disadvantage

The Socio-Economic Indexes for Areas (SEIFA) measures a broad range of socio-economic indices from a baseline of 1,000, which summarise a variety of social and economic variables such as income, educational attainment, employment and number of unskilled workers. SEIFA scores are based on a national average of 1000 and areas with the lowest scores are the most disadvantaged. Based on 2011 Census data, the Narrogin township had a SEIFA Index of Disadvantage score of 932. The SEIFA score for Narrogin is the third highest in the Wheatbelt. The SEIFA index for Local Governments within the Wheatbelt Health Service Region ranged from 905 to 943.

4.6 Chronic Diseases

Many of the health conditions included in the HWSS are chronic diseases which usually have a number of contributing factors, develop gradually and have long lasting effects. Diseases such as cardiovascular disease, type 2 diabetes, respiratory diseases and some cancers contribute significantly to the burden of illness and injury in the community. Considerable potential exists to reduce the burden of disease. It is estimated that in WA in 2011, 435,000 years of healthy life were lost to premature death or living with a disability due to a chronic disease or injury. Injuries are also an important cause of death and disability and strategies to prevent chronic disease are often linked with injury prevention.

4.7 Lifestyle and Physiological Risk Factors

There are many factors that can influence a person's health, including genetics, lifestyle, age, environmental and social factors. Many chronic diseases and injuries are associated with a common set of modifiable lifestyle risk factors which can have either a positive effect on health, such as a high consumption of fruit and vegetables, or a negative effect, such as smoking, alcohol use and physical inactivity. These lifestyle risk factors also impact on the physiological risk factors such as high cholesterol, high blood pressure, and being overweight which are also related to chronic disease and are potentially modifiable.

Statutory context	<i>Public Health Act 2016</i> , Section 16
Corporate context	Local Public Health Plan 2021-2026
History	Adopted dd mmmm yyyy

The *Alcohol and Drug Policy* will guide Council's provision of advocacy and services to minimise harm from alcohol and drugs. This Policy identifies the Shire's role in minimising the negative impacts of alcohol and drug use on the local community. It formalises Council's agreement to a harm minimisation approach, and demonstrates Council's commitment to create partnerships with other agencies to address community concerns.

Whilst the Shire of Narrogin has an important role to play in addressing the harm associated with drug and alcohol use, effective efforts need to be community wide.

Other than having an advocacy role, the Shire of Narrogin will facilitate and coordinate key stakeholders within the local government area to address alcohol management relating to legislative and planning responsibilities in areas such as development approvals for liquor licence venues, interventions and objections to licence applications, event risk management processes, provision of Section 39 and Section 40 (Liquor Control Act) certificate approvals, sport and community club alcohol policies and public building approvals and conditions.

The purpose of this Policy is to provide an overarching framework to guide thought and action in relation to alcohol and drug issues in the Shire.

Policy Principles

The following guiding principles underpin this Policy. They are statements expressing Council's shared values and serve to inform decision-making with partner agencies to address alcohol and drug use, and related issues.

Reducing Supply

When assessing new applications for alcohol premises within the Shire, the effects of alcohol supply and the link to increased alcohol-related harm or ill-health are considered in discussion with partner agencies.

Council also endeavours to support strategies designed to disrupt the production and supply of illicit drugs, or restrict access to legal drugs for those under legal age.

Reducing Demand

The Shire commits to strategies designed to prevent the uptake of harmful alcohol and drug use, including prevention and early intervention, in discussion with partner agencies.

Health and Wellbeing for All

The Shire understands that drug and alcohol use are not just health issues but also impact on social and mental health. The Shire uses evidence-based information to provide a whole-of-community and population health approach to these important issues. Alcohol and drug strategies will target all residents, including cultural and linguistically diverse and Indigenous populations.

An Informed and Educated Community

Council communicates via a range of mediums to reach a broad cross section of the community to ensure that people are fully aware of the negative effects of excessive alcohol and drug use.

Attachments 1. Officers Ten Year Public Art Program 2021 – 2031 2. Townscape Advisory Committee Amended Ten Year Public Art Program 2021 - 2031	

Summary

Council is requested to consider adopting a proposed Ten Year Public Art Program 2021-2031, as presented at Attachment 1 - Officer Recommendation or Attachment 2 - Townscape Advisory Committee (TAC) Resolution and Recommendation. The proposed program is a planned direction for new public art projects within Narrogin and provides a strategic direction for Council and staff in regards to forward planning of art projects. The program enables and informs the Shire's budgeting process to continue into the future including the Shire's Long Term Financial Plan and Annual Budget.

Background

The TAC has in the past several years, been working through recommendations contained in the 2016 Narrogin and Highbury Townscape Review with many recommendations resolved and actioned i.e. street litter bins and CBD furniture.

The TAC in recent times have been focussing on public art projects as discussed by members during committee meetings making recommendations to Council with, on some occasions, minimal details on the recommended projects leading to Council referring the projects back to the Committee for further discussion on details and costings i.e. Entry Statements, Cemetery Fencing, CBD Murals and Public Art at certain locations – Clayton and Federal Streets.

The Executive Manager Technical and Rural Services (EMTRS) has recognised that although the TAC's intentions to gain Council support for public art projects within the Shire have been admirable, the recommendations to Council have been ad-hoc and somewhat lacking in detail which in turn has made it difficult for Council to resolve some recommended projects with referral back to the TAC for further discussion and clarification prior to re-presentation to Council.

Consultation

The presented program and the concept surrounding this ten year strategy was work shopped with the TAC by the EMTRS at its committee meeting held 1 June 2021. The committee members present at that meeting unanimously supported the concept and program being presented to Council for resolution. It is worth noting that three Councillors were present at the TAC meeting on the night.

The Chief Executive Officer has been briefed of this strategic ten year program being presented to Council.

The Narrogin Community were engaged as part of the development of the Shires Public Art Strategy 2019 via online survey, a face to face survey, a community workshop and a two day master class for local artists. The online and face to face surveys were used as a way to gauge the Community's interest in current and future public art and potential sites for public art in the Shire.

Statutory Environment

Local Governments are required to have Asset Management Plans in place pursuant Local Government Act 1995.

Policy Implications

The following relate:

- Shire of Narrogin Public Art Strategy & Masterplan 2019;
- 11.4 Public Art Contribution Policy and Guidelines; and
- 12.11 Asset Management Plans Policy.

Financial Implications

This program will need to be considered in the context of the Shire's Long Term Financial Plan and Annual Budgeting process.

Attachment 1 – Officers Recommendation, addresses the financial implications for the proposed program and has a ten year estimated cost, (2021 to 2031) of \$570,000 with an average allocation of \$57,000 per annum.

Attachment 2 - TAC Resolution and Recommendation, addresses the financial implications for the proposed program and has a ten year estimated cost, (2021 to 2031) of \$670,000 with an average allocation of \$67,000 per annum.

Funding of Public Art projects as listed in Attachment 1 can be by potential Grant Funding available from time to time or municipal funding (Shire funded) and would be funded on a year to year basis depending on the Shires priorities in regard to other competing projects or objectives, financial availability, restraints or circumstances.

Maintenance expenditure of the proposed art projects will be contained in Annual Budgets the same as existing outdoor public art maintenance funding is currently.

Strategic Implications

Shire of Narrogin Strategic Community Plan 2017-2027		
Objective	1.	Economic Objective (Support growth and progress, locally and regionally)
Strategy:	1.1.2	Promote Narrogin and the Region
Outcome:	1.2	Increased Tourism
Strategy:	1.2.1	Promote, develop tourism and maintain local attractions

Comment/Conclusion

The EMTRS has in the past, successfully submitted to Council, Ten Year Road, Footpath and Plant/Fleet Replacement Programs that give Council and staff, strategic and financial long term direction on planning and managing these valuable community assets and allow sound budgeting processes into the future, including Long Term Financial Planning and Annual Budget.

It is with this proven strategy in mind, that the EMTRS thought it prudent to recommend this approach to the TAC in relation to their intent and desired focus on Public Art projects and work shopped the concept and plan with the TAC at the 1 June 2021 TAC meeting.

A draft white board exercise on potential projects was presented to the committee with the committee asked to priorities projects for presentation to Council in the form of a ten year program. The EMTRS also spoke to the TAC on this strategic approach and recommended to the committee that they indorse this strategic direction so Council can be more accurately informed of the committee's long term strategic direction for public art.

The Shire of Narrogin Public Art Strategy 2019 recommends a staged approach: "The Strategy can be adapted to suit the Shire of Narrogin's aspirations as the Masterplan sets out and recommends a staged approach to implementing the Strategy - from building common ground to small budget space activation projects to nodal public artworks and finally to an iconic public artwork. This staged and strategic approach is considered feasible and meaningful and will produce outcomes from a public art program that contribute to a distinctive legacy and character for Narrogin and its districts for residents and visitors to appreciate and enjoy."

The Public Art Strategy also identified Community support: "Community engagement as part of the development of the Public Art Strategy and the Masterplan confirmed a strong level of interest in, and support for, further development of public art in Narrogin. Consultation engagement methods employed were an online survey, a face to face survey, a community workshop and a two day master class for local artists. The online and face to face surveys were used as a way to gauge the community's interest in current and future public art and potential sites for public art in the Shire."

Projects listed in Attachment 1 & 2 are identified in the adopted Public Art Strategy 2019. The costs displayed in Attachment 1 & 2 are indicative estimations based on a concept and are generalised and not based on a scope of works.

Council Resolution 0820.003, Ordinary Council Meeting 25 August 2020, at point 2 reads as follows: "Consider in the Long Term Financial Plan, an annual budget allocation of \$25,000, demonstrating Council's commitment to public art."

The officer's recommendation within this report is asking Council to resolve to adopt a Ten Year Public Art Program with financial support of greater than \$25,000 per annum and is requesting \$57,000 per annum on average over ten years between 2021 – 2031 to facilitate new public art work in Narrogin for the benefit of the community. The TAC resolution and recommendation is requesting financial support of \$67,000 per annum on average over ten years.

At the TAC meeting held 13 July 2021, the TAC resolved and recommended to Council as follows:

“That, with respect to the Ten Year Public Art Program 2021-2031, the Townscape Advisory Committee recommend to Council to adopt the program as amended and presented in Attachment 2”

Reason for Change: The Committee felt that there was a need for an additional allocation of \$100,000 to be made the 2022/23 financial year and requested that the attachment be updated to reflect this increase.

Council is asked to consider the proposed Ten Year Public Art Program 2021-2031 and resolve to adopt it as presented at either Attachment 1 or Attachment 2.

Summary

In accordance with the Local Government Financial Management Regulations (1996), Regulation 34, the Shire is to prepare a monthly Statement of Financial Activity for notation by Council.

Background

Council is requested to review the June 2021 Monthly Financial Reports.

Consultation

Consultation has been undertaken with the Executive Manager Corporate and Community Services and the auditors.

In this regard, the auditors have noted a potential issue with the very specific prohibitions in the construction of the words in Council Policy 3.8 Transaction Cards, not permitting use of the Shire's two credit cards for purchase of fuel. From time-to-time officers indeed do need to purchase fuel from suppliers other than BP, as opposed to utilising the current 'transaction card' allocated ordinarily for fuel. A remedy for that is proposed in Attachment 2 (track changed).

Statutory Environment

Local Government (Financial Management) Regulations 1996, Regulation 34 applies.

Policy Implications

Nil.

Financial Implications

All expenditure has been approved via adoption of the 2020/21 Annual Budget, or resulting from a Council Motion for a budget amendment.

Strategic Implications

Shire of Narrogin Strategic Community Plan 2017-2027		
Objective	4.	Civic Leadership Objective (Continually enhance the Shire's organisational capacity to service the needs of a growing community)
Outcome:	4.1	An efficient and effective organisation

Comment/Conclusion

The June 2021 Monthly Financial Reports are presented for review.

Voting Requirements

Simple Majority

OFFICERS' RECOMMENDATION AND COUNCIL RESOLUTION 0721.009

Moved: Cr Broad Seconded: Cr Seale

That with respect to the Monthly Financial Reports for June 2021, Council:

1. Note the Reports as presented.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to reporting period.
Prepared by: Manager Corporate Services
Reviewed by: Executive Manager Corporate & Community Services

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996, Regulation 34*. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities and to the extent they are not in-consistent with the *Local Government Act 1995* and accompanying regulations), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations. Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

SIGNIFICANT ACCOUNTING POLICIES

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be

form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

SIGNIFICANT ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

EMPLOYEE BENEFITS

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave
(Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the City has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the City expects to pay and includes related on-costs.

(ii) *Annual Leave and Long Service Leave (Long-term Benefits)*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the City does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

PROVISIONS

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

Policy Statement

All cardholders must have the authority of the Chief Executive Officer to commit Council to expenditure.

1. Definitions

Cardholder means an employee who has been authorised by the Chief Executive Officer to incur expenditure by means of a transaction card.

Transaction Card means a card facility (which may include; credit, debit, store, parking, cab-charge and fuel cards) approved for use in lieu of cash transactions, to incur expenditure for goods and services for the purposes of the Shire of Narrogin business activities only in accordance with relevant Shire policies.

2. Determining When Transaction Card Facilities are Appropriate

- a) Transaction Card facilities may be implemented and maintained where the card facility provides benefit to the Shire of Narrogin operations by ensuring –
 - i) goods and services can be obtained in a timely and efficient manner to meet the business needs of the Shire;
 - ii) financial management and accounting standards are met; and
 - iii) purchasing and payment functions are secure, efficient and effective.
- b) Transaction card facility providers will only be acceptable where, in the opinion of the Chief Executive Officer, they –
 - i) provide appropriate and sufficient statement, administration and acquittal controls that enable the Shire to sufficiently administer the facility; and
 - ii) provide the Shire with protection and indemnification from fraudulent unauthorised transactions.

3. Management Oversight

The Chief Executive Officer shall determine and implement systems and procedures that are adequate to ensure –

- a) assessment and selection of transaction card facilities suitable to the efficient and effective operations of the Shire;
- b) authorisation and appointment of suitably eligible cardholders;
- c) cardholder duties and responsibilities are documented; and
- d) cardholders provided with training; and
- e) monitoring and auditing of transactional card activities is planned and reported.

4. Reporting

The Chief Executive Officer will ensure that acquitted transaction statements for each transaction card facility are provided to Council as part of the monthly financial reporting regime.

5. Misuse, Misconduct and Fraudulent Use

- a) Any alleged misuse of transaction cards will be investigated, and may be subject to disciplinary procedures.
- b) Where there is reasonable suspicion of misconduct or fraudulent activity arising from transaction card facilities the matter will be reported to the appropriate regulatory agency, subject to the requirements of the *Public Sector Management Act 1994* and the *Corruption, Crime and Misconduct Act 2003*.

6. Principles for usage – Allowable transactions

- a) Transaction card facilities may only be used where –
 - i) the expenditure is directly arising from a Shire operational business activity for which there is an Annual Budget provision;
 - ii) the expenditure is in accordance with legislation, the Shire Purchasing Policy, Code of Conduct for Employees and any conditions or limitations applicable to the individual Cardholder.
 - iii) the procurement of the required goods or services is impractical or inefficient if undertaken via a purchase order or is not able to be obtained other than by a transaction card;
 - iv) supplier surcharges (fees) on transactions are minimised and only allowable where the alternative method of obtaining the supply (i.e. by purchase order) is more onerous, not cost effective or there is no alternative mode of supply.
 - v) hospitality expenditure may only occur when it is in accordance with any Shire Hospitality Policy or is undertaken with the express permission of the Chief Executive Officer.
 - vi) official travel, accommodation and related expenses may only occur in accordance with Shire policies and procedures;
 - vii) a sufficient record of each transaction is obtained and retained in the local government record.
- b) Allowable transaction modes include –
 - i) in-person and over the counter retail purchases;
 - ii) telephone or facsimile purchasing;
 - iii) mail order purchasing and subscriptions;
 - iv) internet purchasing.

7. Principles for usage – Prohibited transactions

- a) The Shire prohibits the use of transaction card facilities for –
 - i) cash advances;
 - ii) incurring expenses which are personal or private (i.e. any expenditure which is not an approved local government activity);
 - iii) making deposits onto the card, whether to offset misuse or otherwise;
 - iv) incurring capital expenditure;
 - v) incurring expenditure for goods or services which are subject to a current supplier contract;
 - vi) incurring expenses which are not in accordance with legislation, the Shire's Purchasing Policy, the Annual Budget and / or the conditions or limitations relevant to the individual cardholder;
 - vii) Apart from approved credit cards, expenses cannot be incurred for which another transaction card is the approved facility—eg: a corporate credit card is not to be used for purchasing fuel or oil, as the fuel card is the approved facility for that purpose;
 - viii) splitting expenditure to avoid compliance with the Purchasing Policy or to negate limits or conditions applicable to the Cardholder; and
 - ix) incurring expenses for the primary purpose of obtaining personal advantage through the transaction (i.e. membership or loyalty rewards).
- b) For clarity, elected members are prohibited from using Shire transaction cards as the *Local Government Act 1995* does not provide authority for an elected member to incur liabilities on behalf of the local government. The Act limits local governments to only paying elected member allowances and reimbursing elected member expenses.

8. Cardholder duty of care and responsible use obligations

- a) A cardholder is required to –
 - i) keep the transaction card and access information in a safe manner; protected from improper use or loss.
 - ii) only use the transaction card for allowable purposes and not for prohibited purposes.
 - iii) obtain, create and retain local government records that evidence transactions.

- iv) acquit the reconciliation of transaction card usage in the required format and within required timeframes. The onus is on the cardholder to provide sufficient detail for each transaction to avoid any potential perception that a transaction may be of a personal nature.
 - v) return the transaction card to the Shire before termination of employment, inclusive of reconciliation records.
 - vi) reimburse the Shire the full value of any unauthorised, prohibited or insufficiently reconciled expenditure.
 - vii) Comply with all cardholder responsibilities as outlined by the card provider.
- b) Benefits obtained through use of a transaction card (i.e. membership or loyalty rewards) are the property of the Shire and may only be used for Shire business purposes. Such benefits must be relinquished by the cardholder to the Shire. Under no circumstances may such benefits be retained as a personal benefit.

9. Transaction evidence

- a) A sufficient transaction record must include the following minimum information – p
- i) invoice and / or receipt that includes; the date, company name, address, ABN, amount and any GST amount included;
 - ii) where an invoice and / or receipt cannot be obtained, the cardholder must provide a signed statement, detailing the nature of the expense and sufficient information to satisfy the requirements of subclause (i) above.
 - iii) approval of the expense in (ii) above is to be referred to the Chief Executive Officer for a decision.
- b) Where a transaction card is used to incur an expense for hospitality, the transaction record must include for the purposes of Fringe Benefits Tax calculations and probity –
- i) the number of persons entertained;
 - ii) the names of any employees in that number; and
 - iii) the purpose of providing the entertainment or hospitality.

10. Card Reconciliation Procedures

- a) Card statement accounts will be issued to the relevant cardholder who will, within 7 days, acquit the transactions on the account.
- b) Transactions will be supported by a GST invoice stating the type of goods purchased, amount of goods purchased and the price paid for the goods. The receipt shall meet the requirements of the *Goods and Services Tax Act 1999* to enable a GST rebate to be applied.
- c) Transactions shall be accompanied by a job number for costing purposes.
- d) Should approval of expenses be refused by the Chief Executive Officer recovery of the expense shall be met by the cardholder.
- e) The cardholder shall sign and date the card statement with supporting documentation attached stating all expenditure is of a business nature.

11. Disputed Transactions

- a) The Shire is responsible for paying all accounts on the monthly card statement and the bank processes a direct debit from Council's operating bank account for such.
- b) When a Cardholder believes that charges are incorrect they should first contact the supplier to determine the causes of the discrepancy and if necessary the Creditors Officer will notify the bank in writing.
- c) Any amounts in dispute must be highlighted on the copy of the Cardholders statement and a copy of the written notification to the bank attached.

12. Cancelled Cards

Cancellation of a Card may be necessary where the –

- a) cardholder changes job function within the local government;
- b) cardholder terminates employment with local government;
- c) the employment of the Cardholder is terminated;
- d) card is no longer required;

- e) cardholder has not adhered to set procedures;
- f) misuse of the Card; or
- g) other sufficient reason in the opinion of the CEO.

13. Review of Card Use

All receipts and documentation will be reviewed and any expenses that do not appear to represent fair and reasonable business expenses shall be referred to the Chief Executive Officer for a decision.

14. Procedures for Lost, Stolen and Damaged Cards

- a) The cardholder must formally advise the Executive Manager Corporate & Community Services of the loss or theft without delay.
- b) The loss or theft of a transaction card must be reported to the card provider as a matter of priority.
- c) Advice of a damaged card is to be provided to the Executive Manager Corporate & Community Services who will arrange a replacement.

15. Additional Cardholders

- a) The Chief Executive Officer is the primary cardholder for the Shire and may authorise additional cardholders within the Shire's approved total credit limit.
- b) Individual transaction card limits are as approved by the CEO.

16. Cardholder Agreement

- a) The Cardholder Agreement is as determined by the CEO.
- b) Failure to comply with any of these requirements could result in the card being withdrawn from the employee.
- c) In the event of loss or theft through negligence or failure to comply with the Shire of Narrogin Card Policy any liability arising may be passed on to the cardholder.

17. Consequences of Non-Compliance

Failure to comply with the Delegations, Policy or Executive Instructions may result in disciplinary action up to and including termination of employment.

Summary

St John Ambulance Western Australia and the Narrogin Flying Club (INC) have requested a change of the leased areas of the respective organisations on the portion of 2202 (Lot 1) Clayton Road, Minigin.

The Council is asked to consider the proposed Deed of Variation of Leases, with variations to both the St John Ambulance lease and the Narrogin Flying Club lease.

Background

Both St John Ambulance and the Narrogin Flying Club have current leases with the Shire over separate portions of 2202 (Lot 1) Clayton Road, Minigin. 2202 Clayton Road, Minigin is a freehold title, owned by the Shire of Narrogin.

The St John Ambulance lease, which is to be used for the building of a 'patient transfer facility', is from the commencement date of 7 July 2020, and will expire on 30 September 2040.

The Flying Club lease is from the commencement date of 1 January 2019, and will expire on 30 September 2040.

Both leases are for the area located on the western portion of 2202 Clayton Road, with the leased areas adjoining one another. Correspondence between the two organisations show that both are in agreeance to the proposal to move the boundary of the St John Ambulance lease, noting that it will reduce the total area of the Narrogin Flying Club lease by 267m².

St John Ambulance has requested the extension of their leased area due to the original lease not factoring in the need for water tanks and leach drains, meeting regulatory requirements. The proposed extension is to incorporate these into the leased area.

Consultation has been undertaken with:

- Chief Executive Officer
- St John Ambulance Western Australia
- Narrogin Flying Club.

Comment/Conclusion

The leased area of St John Ambulance is to extend the northern boundary 2 metres north, extend the eastern boundary 10 metres east, and extend the southern portion of the western boundary 2 metres west as shown in Attachment 4.

St John Ambulance has been in contact with the Shire, requesting the proposed changes to the leased area. Written confirmation from the Narrogin Flying Club confirms the organisation's agreeance for the boundary changes.

Both parties have agreed to the proposed new leased areas, as depicted in the new Annexures of the Deed of Variation of Leases. All other covenants, terms, conditions and stipulations within the leases are to remain the same.

There are no negative implications on the Shire for the changing of the lease boundaries. The development of the extended leased area will be the responsibility of St John Ambulance.
