6.2 BUSH FIRE MANAGEMENT PLAN (BMP) UPDATE

The Executive Manager of Development & Regulatory Services provided an update regarding the ongoing mitigation works under the Bush Fire Management Plan (BMP). The acquittal process is currently in progress, with the only remaining requirement being the submission of photographic evidence, which is expected to be completed by the set deadline of June 2025.

Additionally, the MAFGP Assurance Program Guidelines from DFES were discussed, including the upcoming scheduled meeting on 8 April.

Another point of discussion involved the potential use of drones for the spraying of long grass. There were concerns raised regarding the possible use of helicopters at the tip site, particularly with respect to the risk of overspray impacting surrounding areas. Further deliberation will be needed to address these concerns and determine the most effective and safe approach for the treatment of long grass.

6.3 UPDATE ON THE LOCAL GOVERNMENT GRANT SCHEME (LGGS)

The Executive Manager Development & Regulatory Services provided an update on the progress of the Local Government Grant Scheme (LGGS). Among the key topics discussed was the installation of a weather station and the purchase of a mobile stand for operational use.

Regarding volunteer dress standards, it was suggested that the LGGS funds be applied for the acquisition of Personal Protective Equipment (PPE). Gavin from DFES recommended submitting an application for these funds, noting that there had been an overspend before the current acquittal phase. Gavin expressed his willingness to support the application to ensure the necessary PPE is procured.

Further discussions touched on the planned expenditure of \$3,000 for technical equipment intended for use with the white trucks, and \$30,000 allocated for PPE. A reminder was given to submit all funding requests by the end of next week to ensure timely processing.

7. GENERAL BUSINESS

Pip Porter – CBFCO: Acknowledged and thanked everyone for their contributions. Pip also shared a personal note regarding a family member's involvement with a fire lightning incident. Reflecting on this, Pip mentioned that, in hindsight, more experienced personnel should have been assigned to the situation.

Senior Sergeant Ryan Devine – Narrogin Police: Ryan provided an update on the newly enabled Starlink Wi-Fi in police vehicles, which will enhance communication and support. Additionally, he mentioned that training for new officers is underway to improve their operational capability.

Gavin Stevens – DFES: Gavin gave an update on the contacts list, thanking everyone for their hard work this fire season. He emphasized the importance of maintaining the flow of information and reminded everyone to call in within the first 15 minutes of a response, using the 1800 number for confidential updates. (Details on the number were provided during the meeting.)

Stuart Moyses – DCBFCO: Stuart highlighted the introduction of a QR code for Narrogin, which links to an updated fire map to help locate water points. This map will be accessible state-wide, with a paid version available for Fire Control Areas (FCAs). Stuart reminded all personnel to ensure they wear appropriate PPE at all times. He also mentioned that permits issued for fire operations must be sent to Guy for reporting purposes, with the caveat that permits can be revoked at any time.

A concern was raised regarding safety during fire operations, particularly with individuals riding in the back of utes. A photo of a hose being transported in such a manner was referenced, serving as a reminder to all volunteers that no one should be riding in the back of a ute during fire operations.

Guy Maley – Senior Ranger: Guy requested a review of the active and inactive members list to ensure accurate records. This list will be cross-checked with the DFES database for consistency.

Vern Gibson – DCBFCO: Vern discussed upcoming mitigation burns planned for the Highbury townsite, noting that a permit will be required from Guy for these burns. He also mentioned that community notification will be an essential part of the process. Vern concluded by acknowledging the wildflowers in the area and stressed the importance of protecting these during operations.

8. CLOSURE OF MEETING

There being no further business to discuss, the Presiding Member declared the meeting closed at 5:00pm.
