

## MINUTES

### JOINT LOCAL EMERGENCY MANAGEMENT COMMITTEE (LEMC)

### SHIRES OF NARROGIN & CUBALLING

19 May 2026

The Chief Executive Officer recommends the endorsement of these minutes at the next Joint Local Emergency Management Committee Meeting

Signed: ..... Date 26 May 2026

These minutes were confirmed at the Joint Local Emergency Management Committee Meeting held on 15 September 2026

Signed: .....  
(Presiding Person at the meeting at which minutes were confirmed)

### **Acknowledgement of Noongar People**

The Shire of Narrogin acknowledges the Noongar people as traditional custodians of this land and their continuing connection to land and community. We pay our respect to them, to their culture and to their Elders past and present.

Naatj ngiyen Birdiya Gnarojin kep unna nidja Noongar Moort ngaala maya nidja boodjera baarlap djoowak karlerl koolark. Ngalak niny ngullang karnan balang Bibolman baalap borong koora wer boorda.

# STRATEGIC COMMUNITY

SNAPSHOT

PLAN  
2017-27

## VISION

To be a leading regional economic driver and a socially interactive and inclusive community.

## MISSION

Provide leadership, direction and opportunities for the community.

## KEY PRINCIPLES

In achieving the Vision and Mission, we will set achievable goals and work with the community to maintain a reputation of openness, honesty and accountability. In doing so we will:

- Respect the points of view of individuals and groups;
- Build on existing community involvement;
- Encourage community leadership;
- Promote self-reliance and initiative;
- Recognise and celebrate achievement;
- Support the principles of social justice; and
- Acknowledge the value of staff and volunteers.

## OUR VALUES

### Care with Trust & Teamwork

**Caring** - We display kindness and concern for one another and our community

**Accountability** - We accept responsibility for our actions and outcomes

**Respect** - We treat everyone how we would like to be treated

**Excellence** - We go the extra mile to deliver outstanding services

**Trust** - We share without fear of consequences

**Team Work** - We work together for a common goal

## ECONOMIC

### Support growth and progress, locally and regionally...

#### Growth in revenue opportunities

- Attract new industry, business, investment and encourage diversity whilst encouraging growth of local business
- Promote Narrogin and the Region
- Promote Narrogin's health and aged services including aged housing

#### Increased Tourism

- Promote, develop tourism and maintain local attractions

#### An effective well maintained transport network

- Maintain and improve road network in line with resource capacity
- Review and implement the Airport Master Plan

#### Agriculture opportunities maintained and developed

- Support development of agricultural services

## SOCIAL

### Provide community facilities and promote social interaction...

#### Provision of youth services

- Develop and implement a youth strategy

#### Build a healthier and safer community

- Support the provision of community security services and facilities
- Advocate for mental health and social support services
- Continue and improve provision of in-home care services

#### Existing strong community spirit and pride is fostered, promoted and encouraged

- Develop and activate Sport and Recreation Master Plan
- Engage and support community groups and volunteers
- Facilitate and support community events
- Provide improved community facilities (eg library/recreation)
- Encourage and support continued development of arts and culture

#### Cultural and heritage diversity is recognised

- Maintain and enhance heritage assets
- Support our Narrogin cultural and indigenous community

#### A broad range of quality education services and facilities servicing the region

- Advocate for increased education facilities for the region
- Advocate for and support increased education services

## ENVIRONMENT

### Conserve, protect and enhance our natural and built environment...

#### A preserved natural environment

- Conserve, enhance, promote and rehabilitate the natural environment

#### Effective waste services

- Support the provision of waste services

#### Efficient use of resources

- Increase resource usage efficiency

#### A well maintained built environment

- Improve and maintain built environment

## CIVIC

### Continually enhance the Shire's organisational capacity to service the needs of a growing community...

#### An efficient and effective organisation

- Continually improve operational efficiencies and provide effective services
- Continue to enhance communication and transparency

#### An employer of choice

- Provide a positive, desirable workplace

## DISCLAIMER

Council and Committee agendas, recommendations, minutes, and resolutions are subject to confirmation by the Council or Committee and therefore, prior to relying on them, one should refer to the subsequent meeting of Council or the Committee with respect to their accuracy.

No responsibility whatsoever is implied or accepted by the Shire of Narrogin for any act, omission or statement or intimation occurring during Council/Committee meetings or during formal/informal conversations with staff.

The Shire of Narrogin disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council/Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person's or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a license, any statement or limitation or approval made by a member or officer of the Shire of Narrogin during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Narrogin. The Shire of Narrogin warns that anyone who has an application lodged with the Shire of Narrogin must obtain and should only rely on WRITTEN CONFIRMATION of the outcome of the application, and any conditions attached to the decision made by the Shire of Narrogin in respect of the application.

In accordance with Regulation 14I of the Local Government (Administration) Regulations 1996, the Shire of Narrogin records all Council Meetings. Recordings are publicly available within 14 days and retained for at least 5 years. Copies may be provided to the Departmental CEO upon request.

# JOINT LOCAL EMERGENCY COMMITTEE (LEMC) MEETING

19 MAY 2026

---

## 1. OFFICIAL OPENING/ANNOUNCEMENT OF VISITORS

The Presiding Member, President Kowald, declared the meeting open at 4.31 pm.

While Section 9.57A of the Local Government Act 1995 provides the Local Government with limited protection from defamation liability for content published on its official website as part of a broadcast or recording of council proceedings (council or a committee of the council), this does not extend to Elected Members or Employees and I encourage all participants to ensure their contributions are respectful, professional, and consistent with the standards expected of council and committee meetings. Please remember that all comments will form part of the public record.

## 2. RECORD OF ATTENDANCE/APOLOGIES/APPROVED LEAVE OF ABSENCE

### Members (Voting)

Cr A Kowald – Shire of Cuballing President (Presiding Member)  
Cr G Broad – Shire of Narrogin Deputy President  
S/Sgt M Glynn – WA Police, OIC Narrogin  
A Mort – Cuballing Volunteer Bush Fire Brigades  
A Erickson – Department of Primary Industry & Regional Development  
A Jackson – Narrogin State Emergency Services Unit  
S Sinclair – Department of Fire and Emergency Services  
C Moffat – Narrogin Regional Hospital

### Employees (Non-voting)

A Majid – Executive Manager Planning & Sustainability  
P Gibson – Community Emergency Services Manager  
L van Heerden – Executive Support Officer

### Leave of Absence

Nil

### Apologies

L Ballard – Shire of Narrogin President (Presiding Member)  
R Harris – Shire of Cuballing Deputy President  
K Nottle – Narrogin Regional Hospital  
P Porter – Narrogin Volunteer Bush Fire Brigades  
V Gardiner – Department of Fire and Emergency Services, Narrogin Regional Officer  
G Stevens – Department of Fire and Emergency Services, District Officer Narrogin  
M Phillips – Department of Communities  
C Paget – Shire of Cuballing Chief Executive Office

**7. PETITIONS, DEPUTATIONS, PRESENTATIONS OR SUBMISSIONS**

Nil

## 8. MATTERS WHICH REQUIRE DECISIONS

#### Summary

The purpose of this report is to present the Local Emergency Risk Sharing Plan (LERSP) – Wheatbelt Narrogin (Including Kent) – November 2025 to the Joint Local Emergency Management Committee (JLEMC) for consideration and adoption.

The LERSP has been developed to strengthen emergency management preparedness, improve interagency coordination, and provide a consistent regional framework for sharing resources and managing identified emergency risks across participating local governments and stakeholders.

#### Background

The Local Emergency Risk Sharing Plan (LERSP) has been prepared as part of the ongoing commitment of local governments and emergency management stakeholders within the Wheatbelt region to improve emergency preparedness, response capability, and regional collaboration.

The LERSP identifies shared emergency risks affecting the region and outlines coordinated arrangements for resource sharing, support mechanisms, and operational cooperation between participating agencies and local governments during emergencies and recovery operations.

The Joint Local Emergency Management Committee is responsible for reviewing emergency management arrangements and providing recommendations relating to emergency preparedness and risk management within the district. Adoption of the LERSP will support compliance with emergency management obligations and strengthen regional resilience.

## Consultation

Consultation has been undertaken with the following stakeholders during the preparation and review of the LERSP:

### Internal Consultation

- Relevant local government officers;
- Local Emergency Management Committee representatives; and
- Chief Executive Officers and authorised officers of participating local governments.

### External Consultation

- Department of Fire and Emergency Services (DFES);
- Western Australia Police Force;
- State Emergency Service (SES);
- St John WA;
- Bush Fire Brigades;
- Participating neighbouring local governments; and
- Relevant emergency management stakeholders within the Wheatbelt region.

Consultation undertaken aligns with the principles established in Council Policy 1.14 Community Engagement through collaboration with relevant stakeholders and agencies involved in emergency management planning and response.

No public community engagement was considered necessary, as the LERSP relates primarily to operational emergency management arrangements between agencies and participating local governments.

## Statutory Environment

The following legislation is relevant to this matter:

- Emergency Management Act 2005;
- Emergency Management Regulations 2006;
- Local Government Act 1995, Section 3.1 – General Function of Local Governments; and
- State Emergency Management Policy Framework.

The Emergency Management Act 2005 establishes the framework for emergency management arrangements within Western Australia and outlines the responsibilities of local governments in relation to emergency management planning and preparedness.

The proposed adoption of the LERSP supports compliance with the legislative framework and contributes to coordinated emergency management arrangements across the region.

## Policy Implications

The Council's Policy Manual contains no policies that directly relate to this matter and nor are there any proposed.

## Sustainability & Climate Change Implications

*Environmental* - The adoption of the LERSP supports improved preparedness and coordinated responses to environmental emergencies, including bushfire, severe weather events, and other natural hazards potentially impacted by climate change.

*Economic* - The LERSP supports regional cooperation and resource sharing arrangements, which may reduce duplication of resources and improve emergency response efficiency during significant emergency events.

*Social* – The adoption of the LERSP will contribute positively to community safety, resilience, and emergency preparedness outcomes for the Wheatbelt region and participating local governments.

### Financial Implications

There are no known meaningful financial implications relative to this matter in excess of officer time and minor administrative cost.

The proposal has no impact on the Council’s Long Term Financial Plan (LTFP).

Any future operational costs associated with emergency response activities would be managed in accordance with existing emergency management arrangements and budget processes.

### Strategic Implications

Support and strengthen emergency management preparedness, response capability, and community resilience through collaboration with relevant agencies and neighbouring local governments.

Shire of Narrogin Strategic Community Plan 2017-2027		
Outcome:	4.1	An efficient and effective organisation
Strategy:	4.1.1	Continually improve operational efficiencies and provide effective services
Strategy:	4.1.2	Continue to enhance communication and transparency

### Risk Implications

Risk	Risk Likelihood	Risk Impact / Consequence	Risk Rating	Principal Risk Theme	Risk Action Plan (Controls or Treatment proposed)
Failure to adopt the LERSP may result in inconsistent regional emergency response coordination and reduced preparedness capability.	Possible (3)	Moderate (3)	Medium (5-9)	Compliance Requirements	Adoption and implementation of the LERSP with ongoing review and stakeholder collaboration.

## Risk Matrix

Consequence Likelihood		Insignificant	Minor	Moderate	Major	Catastrophic
		1	2	3	4	5
Almost Certain	5	Medium (5)	High (10)	High (15)	Extreme (20)	Extreme (25)
Likely	4	Low (4)	Medium (8)	High (12)	High (16)	Extreme (20)
Possible	3	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Unlikely	2	Low (2)	Low (4)	Medium (6)	Medium (8)	High (10)
Rare	1	Low (1)	Low (2)	Low (3)	Low (4)	Medium (5)

A risk is often specified in terms of an event or circumstance and the consequences that may flow from it. An effect may be positive, negative or a deviation from the expected and may be related to the following objectives; occupational health and safety, financial, service interruption, compliance, reputation and environment. A risk matrix has been prepared and a risk rating of nine (9) has been determined for this item. Any items with a risk rating over 10 or greater (considered to be high or extreme risk) will be added to the Risk Register, and any item with a risk rating of 16 or greater will require a specific risk treatment plan to be developed.

### Comment/Conclusion

The Local Emergency Risk Sharing Plan (LERSP) provides a coordinated and collaborative framework for managing shared emergency risks within the Wheatbelt region.

Adoption of the LERSP will strengthen interagency cooperation, improve regional emergency preparedness, and support effective response and recovery arrangements during emergency incidents.

The LERSP has been prepared in consultation with relevant stakeholders and aligns with legislative requirements and emergency management best practice. Officers consider the adoption of the LERSP to be beneficial in supporting regional resilience and coordinated emergency management outcomes.

### Voting Requirements

Simple Majority

#### OFFICERS' RECOMMENDATION AND COMMITTEE RESOLUTION

Moved: S/Sgt Glynn

Seconded: Cr Broad

That the Joint Local Emergency Management Committee, with respect to the Local Emergency Risk Sharing Plan (LERSP) – Wheatbelt Narrogin (Including Kent) – November 2025:

1. Accepts and adopts the Local Emergency Risk Sharing Plan (LERSP) – Wheatbelt Narrogin (Including Kent) – November 2025; and
2. Notes that the LERSP will be subject to ongoing review and amendment as required in consultation with participating agencies and local governments.

**For activation of Emergency Relief and Support services for hazards defined under the WA Emergency Management arrangements call**

**0418 943 835**

## Activation summary

### Alert – stage one

- The Hazard Management Agency (HMA) or Controlling Agency is responsible for placing the Department of Communities (Communities) and the relevant Local Government/s on alert.
- Communities may engage with the Local Government/s, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

### Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the Local Emergency Relief and Support Plan (LERSP) arrangements, to enable emergency relief and support service delivery for the response to the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.
- The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.
- All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on [Media@communities.wa.gov.au](mailto:Media@communities.wa.gov.au).

### Stand down – stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.
- The Local Government is responsible for managing the overall recovery efforts affecting their community.
- When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

---------	----------------------------------

## Acknowledgement of Country

The Department of Communities acknowledges the Aboriginal and Torres Strait Islander people as the traditional custodians of all the lands in Western Australia.

We recognise their continuing connection to their lands, waters and sky. We pay our respects to the Aboriginal and Torres Strait Islander people with whom we work, who we serve and protect. We also pay our respects to the Aboriginal and Torres Strait Islander cultures, and to their Elders past and present.

## Introduction

The Department of Communities (Communities) is the support organisation responsible for providing and coordinating emergency relief and support services (previously welfare) for the 28 prescribed hazards, as specified in the emergency management legislation.

The Local Emergency Relief and Support Plan (LERSP) details the operational activities for the management and coordination of emergency relief and support services under the Local Emergency Management Arrangements (LEMA).

This LERSP is to be read in conjunction with the LEMA and [the State Support Plan - Emergency Relief and Support](#). This LERSP refers to a range of existing plans and documents relating to emergency relief and support services, including directions to websites and other sources where further information can be obtained.

### Purpose

The purpose of this LERSP is to detail the activities for the activation and coordination of emergency relief and support services before, during and after emergencies within the Local Emergency Management Committee or Local Government boundary.

The objective of this LERSP is to outline:

- the activation, and stand-down protocols of Communities and partner agencies
- Communities' responsibilities for the preparedness, response and recovery coordination of emergency relief and support services and resources, and
- the responsibilities of partner agencies to support emergency relief and support service delivery.

### Scope of activated services

Emergency relief and support services provide immediate and ongoing social supports to alleviate, as far as practicable, the effects on people impacted by an emergency. These are provided across six functional domains:

- Emergency accommodation - the provision of temporary shelter for impacted people evacuating from or displaced by an emergency.
- Emergency food – coordination of basic and essential food support for impacted people without the capacity to self-manage resulting from an emergency.
- Emergency clothing and personal requisites – coordination of basic and essential clothing, and personal items for emergency impacted people.
- Emergency personal support services – the provision of a variety of assistance for emergency impacted people. This can include early psychosocial support, practical assistance, and referral to advisory services, counselling or psychological services.
- Registration and reunification – the process of enabling emergency impacted people in a community to be traced and reunited with family and friends.
- Financial assistance – the coordination of financial assistance which, depending on the nature of an emergency, may be available to eligible impacted people affected by the event.

## Levels of response

When activated, Communities utilises the Australasian Inter-service Incident Management System (AIIMS) model to support decision making and delivery of emergency relief and support services. This includes establishing a management structure designed to deliver the key functions of control, planning, operations and logistics.

Communities is responsible for determining and implementing the appropriate response operating model based on the scale of the emergency event. This approach involves conducting an assessment on the severity and specific requirements to decide the level of emergency relief and support services required.

Communities may undertake pre-emptive preparedness activities before an Australian Warning System (AWS) Alert is provided.

The potential or actual severity of the emergency events are broadly classified as:

- Level 1 – minor community and infrastructure impact, locally managed, supported by resources from the Local Government.
- Level 2 – medium complexity, locally managed, supported by resources from the region and if required State-wide resources.
- Level 3 – high complexity, centrally manage, supported by State-wide resources.

Via the Communities on-call number 0418 943 835, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP, at any level will concurrently activate the State Support Plan - Emergency Relief and Support.

Depending on the nature of the emergency, and the scale of service demand, emergency relief and support services may be provided through the following approaches:

- remotely, by establishing the Disaster Response Hotline (1800 032 965)
- providing outreach via mobile teams for identified on-ground face-to-face support, or
- static service delivery from a designated physical location such as an evacuation centre or recovery hub.

The appropriate mode of delivery will be agreed in consultation with the HMA or Controlling Agency.

## Partner agencies

Communities is responsible for identifying partner agencies at local and regional levels, capable of supporting a sustainable and scalable delivery of emergency relief and support services during the response and recovery stages of an emergency. Partner agencies may include other government, industry, and social sector organisations.

Communities is responsible for the costs associated with the delivery of emergency relief and support services, where a partner agency is engaged. Communities is not responsible for self-activated agency's costs during an emergency event.

Communities and partner agencies negotiate prior to activation for the required operating resources to deliver emergency relief and support.

State-level partner agency responsibilities supporting the delivery of emergency relief and support services can be viewed in the [State Support Plan – Emergency Relief and Support](#), appendix B.

### Exchange of information

Communities may establish exchange of information agreements with HMAs, Local Governments and partner agencies. This is completed in preparation for an emergency response and recovery to ensure:

- disclosure and exchange of personal information of impacted people affected by an emergency.
- allows relevant information to be shared between HMA's, authorised officers and agencies for the purposes of emergency management.

### Media enquiries and public information

All emergency relief and support related media enquiries are to be directed to Communities' Media team by phone on 6277 5325, or by email on [Media@communities.wa.gov.au](mailto:Media@communities.wa.gov.au)

The HMA or Controlling Agency is responsible for the public information management function. This includes preparing and distributing timely information and instructions in the relevant language(s) to identified cultural groups living within the Local Government.

## Prevention and preparedness

### Prevention

Prevention is defined as the mitigation or prevention of the probability of the occurrence of, and the potential adverse effects of, an emergency.

Communities does not have any assigned responsibilities for prevention.

HMAs are assigned responsibility for prevention within emergency management legislation. Other emergency management agencies may also undertake prevention activities.

### Preparedness

Preparedness is defined as the 'preparation for response to an emergency'.

- Communities is responsible for undertaking emergency relief and support planning and preparedness activities to ensure efficient service delivery should this LERSP be activated. This includes an understanding of partner agency capabilities to support Communities when requested.
- Partner agencies, with support from Communities, are responsible for developing plans in readiness for response and recovery mobilisation.
- Support organisations providing support to people at higher risk during emergencies are responsible for the planning provisions to cater for their specific needs throughout the emergency, such as an evacuation.

- Hazard Management Agencies are responsible for emergency management preparedness activities for their prescribed hazards. Local planning arrangements are provided in the LEMA.

### Pre-determined evacuation centres

Communities establishes evacuation centres as an emergency shelter option, from which to coordinate emergency relief and support services. These centres remain operational until alternative arrangements can be made for persons impacted by the emergency.

Communities is responsible for working cooperatively with the HMA, Local Government and LEMC members to identify suitable facilities that can be used as evacuation centres appropriate for hazards that are high risk to the region.

Communities, with support from the Local Government is responsible for conducting an annual risk assessment and audit of each pre-determined evacuation centre. The purpose of the audit is to identify evacuation centres that are appropriate for the hazard-specific risks relevant to the region and to identify opportunities for Local Governments to upgrade facilities to mitigate risks.

Pre-determined evacuation centres can be found in appendix A

### Pre-positioning of emergency equipment

Communities is responsible for the placement of equipment and supplies to support an emergency event. Generally, this placement is aligned with an evacuation centre or Communities regional office location.

Communities is responsible for conducting an annual audit on pre-positioned emergency relief and support emergency equipment and supplies. This audit ensures that there is adequate fit for purpose stock, ready to be deployed quickly and efficiently in the event of an emergency.

Pre-positioned emergency equipment can be found in appendix B

## Response

The *Emergency Management Act 2005* defines response, as combating the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage, and help to speed recovery.

When activated, Communities is responsible for supporting the HMA or Controlling Agency through the coordination and delivery of emergency relief and support services to the community.

The HMA or Controlling Agency is responsible for the overall response in an emergency.

If requested by the Local Government, Communities can support with recovery activities.

## Stages of response

Communities operates a graduated response model to determine and implement the appropriate scale of emergency relief and support services. This approach involves conducting a needs assessment to determine the specific requirements and level of services required.

As mentioned, this LERSP can be activated at any level. Activation of the response arrangements in this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.

### Alert – stage one

- The HMA or Controlling Agency is responsible for placing Communities and the Local Government on alert.
- Communities may engage with the Local Government, HMA or Controlling Agency to advise of pre-emptive preparedness activities that would support an emergency response.

### Activation for response – stage two

- Via the on-call number 0418 943 835, the HMA or Controlling Agency is responsible for activating the LERSP arrangements, to enable emergency relief and support service delivery for the response for the identified hazard.
- This LERSP can be activated at any incident level. Activation of this LERSP will concurrently activate the State Support Plan - Emergency Relief and Support.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm Communities is being activated.
- Should the Local Government receive an evacuation centre activation request directly from the HMA or Controlling Agency, Communities must be informed via the on-call number 0418 943 835.
- The Local Government may be required to support the initial emergency relief and support service response and open an evacuation centre. Communities will discuss preparedness and planning arrangements with the Local Government.

### Stand down – stage three

- The respective HMA or Controlling Agency Incident Controller is responsible for advising Communities to stand down.
- Formal written acknowledgement from the HMA or Controlling Agency is required to confirm this direction.
- Emergency relief and support services may continue beyond this time, at the discretion of Communities.

## At-risk community groups

The HMA or Controlling Agency is responsible for directing organisations that support at-risk community groups to shelter in-place or evacuate.

Aligned with their organisation's own emergency activation plans, as a first option, support organisations are requested to evacuate to a similar facility in a safer location. Where required, Communities may be directed to support evacuated at-risk community groups.

## Emergency accommodation

The respective HMA or Controlling Agency Incident Controller is responsible for the decision to evacuate during an emergency. This includes selecting the evacuation centre(s), in consultation with Communities and the Local Government.

Communities is responsible for coordinating and assessing the provision of temporary accommodation for people displaced by an emergency or evacuating from an emergency. Communities may utilise a range of emergency accommodation options to support people impacted by an emergency.

Expenses related to the activation of evacuation centres that are not approved by the HMA and/or Controlling Agency, will not be covered by Communities.

To ensure the safety of evacuees, staff and volunteers, Communities will not support the HMA/Controlling Agency to establish evacuation centres:

- in bushfire emergency warning areas, and will only establish evacuation centres in Bushfire Watch and Act areas, with Incident Controller confirmation it is safe
- if there are no safe access routes to the evacuation centres, and
- if there are structural and/or health concerns with the evacuation centre.

In circumstances where an evacuation centre is already established in a bushfire emergency warning area, in consultation with the Incident Controller, Communities will:

- conduct a risk assessment, and
- implement mitigation strategies.

In the event of an unusual damage claim resulting from the use of the facility as an evacuation centre, Communities will facilitate processes with the HMA/Controlling Agency to respond to the claim.

## Alternate accommodation sites

In large scale state-level impact emergencies, local facilities may be inadequate to ensure the safety of all evacuees, staff, and volunteers. Communities is responsible for requesting the use of facilities from Local Governments or private owners to support impacted people from other Local Governments.

### Animal welfare in emergencies

No pets or animals are allowed in an evacuation centre due to health and safety considerations, except for assistance animals, like guide and hearing dogs.

Owners or caregivers are responsible for their animals and are encouraged to make arrangements to ensure their welfare throughout all stages of an emergency.

The Department of Primary Industries and Regional Development has been assigned the role and responsibility for coordinating animal welfare services in emergencies. This is supported by the Local Government, where possible.

Further details can be found in the [State Support Plan – Animal Welfare in Emergencies](#) or the Local Animal Welfare Plan in the LEMA (if applicable).

### Emergency food

The HMA or Controlling Agency may coordinate food security during an emergency event, such as where there is limited food access due to geographical isolation.

Communities is responsible for coordinating emergency food provision to people impacted by an emergency where emergency relief and support service delivery is activated. This does not include food provision to staff from other emergency management organisations or partner agencies.

Communities cannot accept food prepared by any person or organisation without a Food Handling Certificate issued by the Local Government.

### Emergency personal support services

Communities is responsible for coordinating and connecting people impacted by an emergency to personal support services.

Emergency personal support services aim to assist impacted people to cope with the psychosocial, well-being, personal and practical needs following an emergency. These services can encompass a variety of supports to community and impacted people to build capacity and to complement natural supports.

Communities may engage partner agencies to support the coordination of services personal support to impacted people and communities.

### Emergency financial assistance

Communities is responsible for coordinating and connecting eligible people impacted by an emergency to financial assistance and related services.

The below categories of financial assistance may be provided on a case-by case basis to people deemed eligible.

- Immediate financial assistance (Category 1) – non-means tested short term assistance provided to impacted people to buy food, clothing, and personal requisites. Category 1 financial assistance is capped at a nominal amount per person, per household and is provided to impacted people based on an assessment of need.

- Temporary accommodation assistance (Category 2) – non-means tested assistance provided to impacted people based on an assessment of need.
- Essential household contents (Category 3) – means tested assistance provided to impacted people, whose contents within their primary place of residence has been directly impacted by an emergency. This assistance is to maintain a basic standard of living by contributing towards the replacement of essential household items (e.g., cooking utensils, bedding, furniture, and whitegoods). This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.
- Essential structural repairs (Category 4) – means tested assistance provided to impacted home owner-occupiers to undertake essential repairs to their principal residences. This assistance enables the impacted person to make their home condition safe to inhabit. This assistance is capped at a nominal amount, per household and may be provided to impacted people who are without insurance or underinsured.

## Emergency clothing and personal requisites

Communities is responsible for coordinating and connecting people impacted by an emergency to clothing and personal requisites. These services can encompass a variety of supports to community and impacted people to compliment natural supports.

Communities will coordinate and provide personal requisites when:

- impacted people do not have access to their own provisions, or
- impacted people cannot fund their own provisions due to financial restraints.

Communities is not responsible for the provision of medication or coordination of donated funds, goods and services.

## Registration and reunification

The registration of impacted people in an emergency enables reunification with family and friends. Enquiries about impacted people can be coordinated, intrastate, interstate or internationally. To facilitate the reunification of impacted people, Communities may activate an appropriate system to facilitate registration and reunification services.

Communities will support the HMA or Controlling Agency to ensure appropriate public messaging is provided when activated.

## Recovery

Recovery is defined in the *Emergency Management Act 2005* as ‘the support of emergency-affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psycho-social and economic wellbeing’. The recovery process begins as soon as the emergency impact occurs. Recovery operates in parallel to the response phase and may continue after the response phase is complete.

Under the *Emergency Management Act 2005*, Local Government is responsible for managing recovery following an emergency affecting their community. Local Governments

are guided by their Local Recovery Plans within their LEMA and may appoint a Local Recovery Coordinator. The Local Government may seek support from Communities during recovery.

When activated by the Local Government, Communities is responsible for supporting the recovery activities through the delivery of emergency relief and support services.

### Approach to recovery

Communities' recovery activities are underpinned by the National Principles for Disaster Recovery. This is delivered across the social, built, economic and natural environments.

Communities operates within a scalable recovery model to determine and implement the appropriate level of emergency relief and support services required to respond to the needs of impacted people and community.

To support the needs of the community during large scale recovery programs, Communities emergency relief and support services may be funded under the Disaster Recovery Funding Arrangements.

Communities will undertake an evaluation of the effectiveness of recovery activities, including an assessment of preparedness activities for future impacts.

### Cessation of recovery

Cessation of emergency relief and support services as part of a recovery program will be determined in consultation with the Local Government and may be dependent on community needs, access to other support services, impacted people and the community's resilience.

## Appendices

### A) Local evacuation centres

## **9. GENERAL BUSINESS**

### **9.1. UPDATE OF CONTACT INFORMATION LIST**

Attachment 2 – JLEMC contact list (confidential – sent separately).

Committee members are requested to review the attached contact list and advise the Executive Support Officer of any changes that they are aware of.

### **9.2 ROUND THE TABLE**

#### S/Sgt M Glynn – WA Police, OIC Narrogin

The Narrogin Police Department representative S/Sgt Martin Glynn advised that twelve officers recently participated in the Land Search and Rescue training program. This training has enhanced the department's operational capability and preparedness in responding to land search and rescue incidents.

It was further noted that operations and activities have progressed smoothly since the previous meeting held in February, with no significant developments or issues reported.

#### S Sinclair – Department of Fire and Emergency Services (DFES)

Attachment 3 – LEMC DFES Report – Cuballing Narrogin May 2026

Department of Fire and Emergency Services (DFES) representative Stacey Sinclair advised that the DFES training calendar has been released and is available to relevant stakeholders. Stacey encouraged local governments to participate in available training opportunities to strengthen emergency management capability and preparedness within their communities.

It was further noted that DFES is currently transitioning into storm preparedness activities in anticipation of the upcoming season. Stacey also highlighted that Wednesday, 20 May 2026, marks WOW Day – Wear Orange Wednesday, which provides an opportunity to recognise and thank State Emergency Service (SES) volunteers for their ongoing dedication and service to the community.

Stacey also spoke about recent staff changes within DFES, advising that Superintendent Craig Sith has concluded his tenure and that Superintendent Peter Thomas AFSM is being welcomed into the role. Superintendent Peter Thomas was formally introduced to the group during the meeting.

In addition, Stacey thanked Paul Gibson, Certified Emergency Service Manager (CESM), for undertaking the Local Emergency Management Arrangements (LEMA) project and for preparing the document. It was acknowledged that this is the first time the LEMA has been combined between two local governments.

**Local Emergency Management Committee**  
**Department of Fire and Emergency Services**  
*District Officer Narrogin*

## Post Fire Season Update

- **In the Upper Great Southern region this season;**
  - Newmont Goldmine Fire (Inc 765644) 14 Dec 2025 – 07 JAN 2026  
4150Ha, activating Evac Centre (Ngn and Williams) and engaging the Level 3 Preformed State Team, this incident has two deployments from South Australia and put the townsite of Boddington into Emergency Warning on Christmas day
  - Dunn Rock Bushfire (Inc 769192) 17 Jan 2026 – 28 Jan 2026  
32537Ha in the Shire of Lake Grace near Lake King townsite. Was eventually run as South Coast Complex along with Fitzgerald National Park by the State Level 3 Team and then DBCA before being handed back to Local Government
  - Boddington Complex (Inc 769835) 22 Jan 2026 – 02 Feb 2026  
6200Ha, 4 separate fires, 125kms of edge, 54 impacted properties including sheds etc, across 3 local governments and DNCA tenure, run as a Level 2 Complex Incident across 3 divisions. Narrogin evacuation centre used.

Some **key learnings** from these incidents anecdotally that came through debriefs to date were;

- The importance of On-call / Duty numbers
  - Holiday food and fuel arrangements locally.
  - Back up power, water and comms are essential.
  - Having a plan and activating it early for agencies and providers.
  - Engagement with ISG key for success and information flow.
  - All these significant fires were started by lightning events and were long duration and medium to high complexity.
- Further to these significant Bushfire Events the Volunteer Fire and Rescue Brigades in the region have also been very busy with many **Road Crash Rescues, HAZMAT's** and other incidents recorded within our region. Debriefs are help with brigades and the DFES Wellness branch engaged but we appreciate the collaborative efforts of everyone but especially SJA and WAPOL.

## Emergency Management Information

- **The State Hazard Plan – Fire** has been updated and it provides an overview of arrangements for the management of all fires in Western Australia (WA) and contains information on fire prevention, preparedness, response and recovery. The State Hazard Plan - Fire can be found here: [https://www.wa.gov.au/system/files/2025-08/shp\\_fire\\_v3.00.pdf](https://www.wa.gov.au/system/files/2025-08/shp_fire_v3.00.pdf)
- While not in the DFES remit please note the addition of the State Hazard Plan intern Cyber Incident which is the 29<sup>th</sup> Hazard identified by SEMC - <https://www.wa.gov.au/government/publications/state-hazard-plan-cybersecurity-incident>

**WHEN SHOULD YOU CALL THE SES?**

FOR EMERGENCY ASSISTANCE IN FLOOD, STORM, CYCLONE AND TSUNAMI CALL 132 500.

SES Volunteers undertake temporary emergency measures to make your home and the situation safe.

Is anyone trapped or injured? **YES** → Call Triple Zero (000)

**NO**

Is your roof leaking heavily or badly damaged? | Is your house flooded or beginning to flood? | Is your house badly damaged and in need of temporary repairs that you cannot fix yourself? | Are you trapped in your house due to storm damage? | Has a large tree fallen on your house or driveway?

**NO** → Contact your insurance company, private contractor or repair it yourself if it is safe to do so.

**YES** → CALL THE SES on 132 500  
Your call will be logged. You will receive a reference number. Your local SES will attend as soon as possible.

For more information visit [www.dfes.wa.gov.au](http://www.dfes.wa.gov.au)

**Storm Preparedness** - With the transition from Bushfire to Storm Season – Emphasis on storm awareness and ensuring LGs have storm preparedness in mind. Some key information to circulate early in the season would be the changes to the Australian Warning System Around Storm and Flood. As well as the SES line, when to call the SES for assistance. Also ensure you have a communication strategy in place in the event of power outage and communication outage.

## Local Considerations

### Local Government Emergency Management Knowledge Hub (EM Hub)

The EM Hub provides an overview of the roles and responsibilities of local governments as outlined in the *Emergency Management Act 2005 (EM Act)* and the State Emergency Management (EM) Framework. It consolidates and summarises key information into a single, accessible resource and provides direct links to key documents for further reading and reference. It has been designed to assist local governments develop and maintain their local emergency management arrangements so they are better prepared for emergencies. <https://www.dfes.wa.gov.au/local-government/em-knowledge-hub>

**Training Calendar** – The Upper Great Southern DFES Brigade Training Calendar for 2026 has been released and available on eAcademy. As per the regional plan we have a strong focus on incident management and developing new trainers.

### Local Staff Changes

We have had some staff changes recently notably our Superintendent Craig Sith has concluded in the Upper Great Southern and we welcome Superintendent Peter Thomas AFSM. Peter has relieved in the region previously and is a highly experienced and capable leader who is leading some of our new projects across the region. Also our Training Support Officer Anika Keeling has concluded her paid employment with DFES but continues in her volunteer roles. We are currently going through some recruitment processes with our Natural Hazards District Officer Lynda Elms also moving towards retirement. Lynda has had an outstanding career and we are very grateful for her dedication and work.

**Local Emergency Management Committee**  
**Department of Fire and Emergency Services**  
*District Officer Narrogin*

---

**Support the orange army by wearing orange on WOW Day – 20 May 2026**

Wear Orange Wednesday (WOW Day) provides an opportunity to say “thank you” to State Emergency Service (SES) volunteers. WOW Day will be celebrated by thousands across the nation this Wednesday as the public wear a splash of orange in appreciation of the highly skilled personnel in orange. SES volunteers have protected the community for 67 years, putting in countless hours at a moment’s notice during cyclones, storms, floods and other emergencies. While they are best known for their response during natural disasters, SES volunteers also assist the WA Police Force with land and air searches, undertake vertical rescues, attend road crashes and provide logistical and communications support to other emergency services. We have been very fortunate to receive extensive support from Narrogin and the other SES units in the Upper Great Southern throughout a very active fire season.

Apologies I am unable to be there today as I am on a two week training block at the DFES academy.

Kind regards,

Gavin Stevens  
District Officer Narrogin

May 2026

### P Thomas – Department of Fire and Emergency Services (DFES), Superintendent

Department of Fire and Emergency Services Superintendent (DFES) Peter Thomas introduced himself to the group and provided an overview of current developments within DFES. He advised that DFES is progressing with plans to construct a new dual-location facility that will incorporate all emergency services together. Peter highlighted that one of the key benefits of this initiative will be the strengthening of relationships and collaboration between services.

Peter further advised that DFES will be organising a tour for various representatives to visit similar facilities. He noted that the purpose of the tour is to encourage participants to provide feedback on what aspects work well and what areas could be improved, enabling DFES to incorporate these learnings into the development of the new facility moving forward.

Cr Broad welcomed Superintendent Thomas to the community and expressed support for the next steps being undertaken in relation to the development of the new facility.

### S Taylor – Narrogin Cottage Homes

Narrogin Cottage Homes representative Sharon Taylor enquired about where formal Fire Warden training could be undertaken. S/Sgt Glynn (Narrogin Police) advised that the police have recently completed similar training and indicated that he would provide Sharon with the relevant details.

Department of Primary Industry & Regional Development (DPIRD) representative Anna Erickson also expressed interest in undertaking Fire Warden training and suggested the possibility of completing the training collaboratively. Stacey Sinclair from DFES further advised that she would make contact with Sharon, noting that DFES had recently conducted similar training.

### A Jackson – State Emergency Services (SES)

State Emergency Services (SES) representative Anthony Jackson noted that the SES is currently undertaking storm damage preparedness activities in anticipation of the upcoming storm season.

### A Mort – Cuballing Volunteer Bush Fire Brigade

Cuballing Volunteer Bush Fire Brigade representative Anthony Mort advised that they are feeling quite hopeful for the upcoming season. He further noted that the brigade still has mitigation funding available and has decided to undertake weed management works around the fire station.

Anthony also reported that the brigade has received a number of calls relating to smoke across the highway, including an incident where smoke obstructed visibility and contributed to a motor vehicle accident. He requested that the Shires consider reviewing the process for logging burns during the open burning season and suggested that farmers undertaking burns could potentially be provided with kits or signage to improve community awareness and road safety. Stacey Sinclair (DFES) advised that a similar incident occurred last year and identified a lack of education as a contributing factor, noting that some community members were unaware that burns could still be logged even when a permit is not required. Stacey further advised that DFES has resources available regarding burning practices, including access to the Smart Burn link. Anthony encouraged Paul Gibson, CESM, to share resources such as the Smart Burn link on Facebook to further educate the community.

Anthony also questioned whether the Shire could include within the Firebreak Order Notice a requirement for contractors constructing windfarms to adhere to local government firebreak by-laws. Cr Broad advised that DA processes are already in place and include requirements relating to firebreaks. Adam Majid, Executive Manager Planning and Sustainability, added that following the Bush Fire Advisory Committee (BFAC) meeting, Paul Gibson, CESM, has been engaging with relevant parties and investigating best practice approaches. Anna Erickson (DPIRD) further suggested that inviting representatives from the companies to attend future meetings may assist in providing information and improving communication with members.

#### A Erickson – Department of Primary Industry & Regional Development (DPIRD)

Department of Primary Industries and Regional Development representative Anna Erickson advised that DPIRD is currently experiencing a local National Livestock Identification System (NLIS) tag issue. Anna explained that if any livestock are found, members of the community should check whether the animal has an identification tag in its ear. She further noted that livestock without an electronic identification (eID) tag are considered an offence under DPIRD legislation.

Anna Erickson advised that she has previously prepared and delivered a presentation regarding bird flu and indicated that she would be happy to present the information at the next meeting should members be interested. As an outcome of the discussion, it was agreed that the Shire of Narrogin will include a presentation by Anna regarding bird flu at the next Joint Local Emergency Management Committee (LEMC) meeting.

#### Paul Gibson – Community Emergency Services Manager (CESM)

Paul Gibson, CESM, advised that the Shire of Cuballing and Shire of Narrogin have been working extensively on the development of the Local Emergency Management Arrangements (LEMA) document. He explained that the document had not been completed sooner due to a range of internal and external issues, and because the previous version of the document was not considered suitable to progress further.

Paul further advised that the purpose of the LEMA document is to provide a practical framework for use by the Shires during emergency situations. He noted that the document will consist of three sections, with the first section being publicly available, while the second and third sections will remain confidential due to the inclusion of contact lists and operational resources.

He also advised that the Shires are currently in the final stages of completing the document and are aiming to have a draft finalised by the end of June. It is anticipated that the draft document will then be presented to stakeholders at the next Joint Local Emergency Management Committee (LEMC) meeting.

### **10. NEW BUSINESS OF AN URGENT NATURE APPROVED BY THE PERSON PRESIDING OR BY DECISION OF THE MEETING**

Nil

## **11. CLOSURE OF MEETING**

There being no further business to discuss, the Presiding Member declared the meeting closed at 5:03 pm and reminded Committee Members of the next Joint Local Emergency Management Committee Meeting, scheduled for 4.30 pm on Tuesday 15 September 2026, at this same venue.
