CASHIER HOURS:
8:30am – 4:30pm
MONDAY- FRIDAY

Out of Hours Construction Noise

'Out of hours' construction work means construction activities undertaken outside the following permitted hours:

7:00 am to 7:00 pm, Monday to Saturday.

Construction work undertaken before 7:00 am or after 7:00 pm Monday to Saturday, or at any time on a Sunday or public holiday, is considered out of hours construction work.

Noise Management Plan

A Noise Management Plan must be submitted with this application.

The purpose of the Noise Management Plan is to identify and manage the potential impact of construction noise on nearby noise-sensitive premises, including residential properties.

The Noise Management Plan must include:

- the need for, and reasons why, the construction work must be undertaken outside permitted hours;
- the types of activities proposed and their expected duration, particularly activities likely to result in noise emissions above the assigned noise levels;
- predictions of likely noise emissions;
- proposed measures to control and minimise noise and vibration;
- arrangements for monitoring noise and vibration, where applicable;
- a procedure for receiving, managing and responding to noise complaints; and
- a copy of the proposed notification letter to affected premises, together with details or a map of the area to be notified.

Lodgement

The completed application form, Noise Management Plan and applicable fee must be submitted to the Shire of Narrogin a minimum of 14 days before the proposed works commence.

Applicants should ensure sufficient time is allowed for the application and Noise Management Plan to be assessed.

Under the Environmental Protection (Noise) Regulations 1997, a Noise Management Plan for construction work carried out outside permitted hours must be submitted at least 7 days before the construction work commences.

Submission of an application does not constitute approval. Out of hours construction work must not commence until approval has been granted by the Shire of Narrogin.

I have attached a Noise Management Plan, including information as required by the attached "Required for Noise Management Plans".					

Requirements for Noise Management Plans

All Noise Management Plans must include the following information:

1. Names and contact details of relevant parties (mobile phone number and email address) e.g. developer, site manager/supervisor, contractors.
2. Details of the proposed work including -
 - a. location of the proposed works;
 - b. purpose of the work and reason why the noisy works need to be undertaken out of hours;
 - c. details of activities to be conducted as part of the works; and
 - d. details of the work schedule including dates, times and duration of the work;
3. Details of activities or equipment to be used that may result in noise emissions;
4. Predictions of potential noise levels from the site at noise sensitive receivers;
5. Proposed methods of noise and vibration monitoring during the works;
6. Details of noise and vibration control measures to be implemented;
7. Complaint recording and response procedures, including a copy of the Notice to Residents, and how the notice will be delivered.

Failure to submit the above information for assessment may result in delay or rejection of the application.
