# **ORDINARY COUNCIL MEETING**

# **24 FEBRUARY 2015**

COMMENCING AT 7:30 PM

COUNCIL CHAMBERS THE TOWN OF NARROGIN 89 EARL STREET NARROGIN WA 6312

#### Meaning of and CAUTION concerning Council's "In Principle" support:

When Council uses this expression it means that: (a) Council is generally in favour of the proposal BUT is not yet willing to give its consent; and (b) Importantly, Council reserves the right to (and may well) either decide against the proposal or to formally support it but with restrictive conditions or modifications.

Therefore, whilst you can take some comfort from Council's "support" you are clearly at risk if you act upon it before Council makes its actual (and binding) decision and communicates that to you in writing.

#### **Disclaimer:**

"Warning - Verbal Information & Advice: Given the inherent unreliability and uncertainty that surrounds verbal communication, the Town strongly recommends that, if a matter is of importance to you, then you should NOT act upon or otherwise rely upon any VERBAL information or advice you receive from the Town unless it is first confirmed in writing."

These minutes were confirmed at the Ordinary Co	uncil Meeting held on 10 March 2015

Cr A Paternoster, Cr D Russell and Cr P Schutz alerted the meeting, for information purposes only, to the fact that they sit on Community Group Committees that assisted in the establishment or the ongoing service provision of the CAT's Service but do not have a direct interest in items 10.2.008 and 10.2.009.

### 4. RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE

Nil

### 5. PUBLIC QUESTION TIME

Mr Seale – On page 38 of the agenda it states that "then the Council hold the monies separately or with another community group" and this in the context of the paragraph was not clear.

Mr Cook responded, after re-reading the paragraph that yes this could be misconstrued and the words "the Council" should be removed and replaced with "another entity" and this would ensure that the sentence read properly. This will be altered within the minutes.

Mr Seale – On page 39 it states "All monies raised is to sit within a reserve for the payment of expenses" and my question is, is the reserve being used as an operating account.

Mr Cook – Thank you Mr Seale no this is not the case the reserve only holds the excess monies in the instance that it is needed for additional expenses that are not covered by the operational account.

7:36pm Note: Mr Mitchell departed the meeting.

### Summary:

Council is requested to consider the adoption of new Human Resources (HR) policies.

### Background:

The Town is required to provide a safe and discrimination-free workplace to all of its employees, contractors and volunteers. To assist with this requirement it is important for the Town to maintain current policies and procedures. However policies alone will not address the Town's legal obligation in this area. There is a need to also educate its staff on these policies to ensure they can identify any inappropriate behaviour as well as let them know what behaviour is considered to be unacceptable.

The Town has contacted its HR consultants and has been provided with a set of template HR policies.

### Comment:

The Town has modified WALGA's Industrial Services template policies to suit its needs. This approach has been taken to ensure compliance to the various employment-related legislation as well as making the policies easier to read by removing the need to cover specific activities.

The Town has arranged for the Local Government Insurance Service (LGIS) to conduct four workshops to educate all staff about these new policies and procedures. All staff are expected and scheduled to attend these workshops.

Additional training will also be undertaken with all managers and supervisors to ensure they understand their roles and responsibilities in this area. Senior employees need to have the tools to be able to identify potential issues in this area.

The Town will reformate the attached policies and procedures once they have been adopted by Council to match the current formatting requirements of the Town. A policy number will be assigned to each policy at a later date.

### Consultation:

- A copy of the Draft Policies have been emailed to a majority of staff for their feedback.
- WALGA Industrial Service
- Local GOVERNMENT Insurance Scheme

### Statutory Environment:

- Equal Opportunity Act 1984
- Occupational Safety & Health Act 1984
- Disability Discrimination Act 1992

### **Policy Implications:**

These policies are intended to update the Town's HR policies so they comply with modern Industrial Relations requirements.

### Financial Implications:

The Town could be held responsible for any bullying or harassment to its staff if it does not take proactive steps to educate staff about what behaviour is not acceptable within the workplace. Large fines and compensation payments may apply to any organisation who does not provide a safe workplace.

# DRAFT Discrimination, Harassment and Bullying Policy

# **Policy Statement**

The Town of Narrogin **(Town)** and its employees are committed to providing a working environment where every employee is treated equally, fairly and without prejudice. For the purposes of this policy the term "employee/s" will extend to cover contractors, volunteers and any person performing work for or with the Town in any capacity.

# Unlawful Discrimination

An employee is directly discriminated against if they are treated less favourably than another person in the same or similar circumstance, because of any one of the grounds of discrimination outlined below. Indirect discrimination can occur where a practice or requirement is imposed upon all employees; however a high proportion of employees with an attribute cannot comply with, or are affected by, that practice or requirement. The Town acknowledges its responsibilities and obligations pursuant to State and Federal equal opportunity and anti-discrimination laws.

The Town and its employees acknowledge they are subject to State and Federal equal opportunity and anti-discrimination legislation. The following is a non-exhaustive list of the grounds of discrimination for which it is unlawful to discriminate against an individual:

- Age;
- Family responsibility or status;
- Race or colour;
- Sex including gender identity, sexual orientation and intersex status;
- Physical or mental disability;
- Marital status;
- Political or religious conviction;
- Pregnancy;
- Criminal record;
- Breastfeeding;

- Gender history;
- Impairment;
- National extraction or social origin; and
- Trade union activity

### Sexual Harassment

The Equal Opportunity Act 1984 (WA) and the Sex Discrimination Act 1984 (Cth) provide that it is unlawful to engage in sexual harassment. Sexual harassment can be defined as any unwelcome conduct of a sexual nature, such as an unwelcome sexual advance or an unwelcome request for sexual favours, in circumstances in which a reasonable person would anticipate that the person harassed would be offended, humiliated or intimidated.

### Some examples of sexual harassment include, but are not limited to:

- Physical contact (touching, rubbing, patting, embracing, brushing up against etc.);
- Gestures of a sexual nature;
- Leering or staring;
- Offensive telephone calls, emails, text messages or notes;
- Sexual suggestive jokes or comments;
- Tales of sexual exploits;
- Repeated requests for a date;
- Unwelcome comments or questions about a person's sex life, appearance or dress; and
- Sexually graphic material (poster, calendars, cartoons, graffiti, messages, emails).

# Bullying

Bullying is defined as repeated and unreasonable behaviour directed towards an employee or a group of employees that creates a risk to health and safety. Unreasonable behaviour amounts to behaviour that a reasonable person in the circumstances would see as unreasonable including behaviour that is victimising, humiliating, intimidating or threatening.

Bullying is also unlawful under the Occupational Safety and Health Act 1984 (WA) and the Occupational Safety and Health Regulations 1996 (WA).

### Some examples of bullying include, but are not limited to:

- Loud, abusive or offensive language or comments;
- Yelling and screaming;
- Unjustified criticism and insults;
- Unjustified threats of dismissal or other disciplinary action;
- Acts of sabotaging another's work by withholding information which is required to fulfil tasks;
- Spreading malicious rumours or misinformation;
- Inappropriate comments about an employee's appearance, lifestyle of family;
- Deliberately excluding an employee from workplace meetings or activities;
- Hiding documents or equipment or withholding vital information required for effective work performance;
- Constantly changing targets or work guidelines;
- Overloading an employee with work and impossible deadlines;
- Setting tasks that are unreasonably below or beyond an employee's level of skill;
- Threats of assault or violence or actual violence;
- Teasing and practical jokes; and
- Isolating or ignoring an employee on a constant basis.

Where an employee makes a threat of violence or assaults another employee, the police should be called.

# Reasonable Management Action

The Town has a right to take reasonable management action to direct the way in which work is conducted and to give employees lawful and reasonable directions to complete work in a certain manner. Reasonable management action is not workplace bullying.

### Some examples of reasonable management action include, but are not limited to:

- The establishment and regular use of performance management systems;
- The setting of reasonable performance targets and deadlines;
- Providing employees with constructive feedback or counselling to assist workers to improve their work performance or the standard of their behaviour;

- Issuing a lawful and reasonable direction to an employee to complete a work task;
- Preparing and amending a roster for employees;
- Transferring an employee to a different work location for operational reasons;
- Implementing organisational change;
- Informing an employee about inappropriate behaviour in a confidential manner; and
- Taking disciplinary action against an employee.

### Other Behaviours not Considered to be Bullying

Where two or more employees have a difference of opinion and disagree on an issue, this is not usually considered to be workplace bullying. However, where conflict escalates and is repeated, it may meet the definition of workplace bullying.

Additionally bullying does not occur where bullying behaviour is a one off occurrence and if that behaviour does not create a risk to health or safety,

### What are the Ways in which Bullying can Occur?

There are a variety of ways bullying behaviour can occur in the workplace such as verbally, through email or text message or via social media. Bullying can be directed at an individual employee or a group of employees, and can be carried out by one or more employees. Bullying can occur between employees, downwards from managers to employees or upwards from employees to supervisors or managers.

# What to do if you think you are being Discriminated Against, Sexually Harassed or Bullied?

Refer to the Grievance Policy and Grievance Procedure for steps to take if you think you are being discriminated against, sexually harassed or bullied, or if you suspect another employee is experiencing any of those things.

### Roles & Responsibilities

To ensure the intent of this policy is realised, various roles within the Town must assume certain responsibilities.

### The Employer

The Town will endeavour to:

- provide all workplace participants with a workplace free from discrimination, sexual harassment and bullying;
- provide and maintain safe systems of work;
- provide a fair and effective procedure to investigate and resolve complaints of sexual harassment, discrimination and bullying;
- treat all employees fairly; and
- take suitable disciplinary action against any employee who is found to have sexually harassed, discriminated, bullied or victimised another employee.

# All the Organisation's Employees

Employees are required to:

- report any incidents of sexual harassment, discrimination or bullying they may see happening around them to an appropriate manager or supervisor;
- follow all policies and procedures of the Town;
- ensure they do not victimise any person making a complaint of sexual harassment, discrimination or bullying; and
- treat all employees fairly and with respect.

# Support

The Town engages the services of an external Employee Assistance Provider who can provide employees with confidential counselling.

# Consequences of Breaching This Policy

Any breach of this policy, may result in disciplinary action up to and including termination of employment.

# Variation to This Policy

This policy may be cancelled or varied from time to time. All the Town's employees will be notified of any variation to this policy by the normal correspondence method.

Ordinary Council Meeting 24th February 2015

# DRAFT Grievances, Investigations & Resolution Policy

# **Policy Statement**

All employees have a right to express any genuine grievances or complaints via an impartial internal process. All employees involved in a grievance process are expected to participate in good faith. For the purposes of this policy, the term "employee/s" will extend to cover contractors, volunteers and any person performing work for or with the Town of Narrogin (**Town**) in any capacity.

### Roles

**Complainant** – An employee who raises a complaint about a matter regarding the workplace.

**Respondent** – An employee who is alleged to have acted in a manner which caused the complainant to raise a complaint.

**Support Person** – A Complainant and/or a Respondent may choose to bring a Support Person with them to a meeting, where practicable. The role of a Support Person is not to advocate on behalf of anyone, but to simply provide emotional support.

**Witness** – A person (including an employee) who is requested by the Town to assist the process by providing relevant information regarding the complaint.

# What to do if you have a Complaint?

If an employee (Complainant) is the victim of behaviour of another employee (Respondent) which is inconsistent with the Town's policies, procedures or guidelines (Policies), the Complainant should, where reasonable or practicable, first approach the Respondent for an informal discussion with the intention of resolving the issue. If the nature of the complaint is deemed to be sufficiently serious, the complainant should contact their Manager or the Manager's Line Manager when the complaint is about their Manager, directly.

If the inappropriate behaviour continues, the Complainant is encouraged to make a formal complaint to their direct manager. If the direct manager is the Respondent in the matter or

if the employee feels uncomfortable approaching their manager, the Complainant should approach their Manager's Line Manager.

The Manager who receives the complaint must contact their Director or Chief Executive Officer to decide upon the most appropriate way to take the matter forward, whether it is an informal discussion with the Complainant and/or the Respondent, or the commencement of a formal investigation of the complaint.

An employee may seek further clarification of a decision and/or direction given to them by their manager/supervisor from a more senior employee who is in the same chain of command, provided the employee first discusses the matter with their supervisor/manager to seek a mutual resolution to the issue/s. If the matter remains unresolved then the employee may request the matter to be reviewed by their manager's line manager, subject to the employee advising their supervisor/manager about their intention to do so as well as the reasons for taking this action. The employee may take their request for review up their section's chain of command for a final decision by the Town's Chief Executive Officer, provided that each level of management is advised of the reasons for continuing the review process. When requiring a review the employee is not to bypass any level of their section's management structure.

# Key Principles in the Complaint Resolution Process

The following principles are necessary for the fair investigation and resolution of a complaint:

- Confidentiality Only the employees directly investigating or addressing the complaint will have access to the information about the complaint. The Town may inform or appoint a third party to investigate or advise on the investigation. All parties involved in dealing with a complaint are required to keep the matter confidential. Information will only be placed on an employee's personal file if they are disciplined as a result of the complaint;
- Impartial (fair/unbiased) Both parties will have an opportunity to put their case forward. No assumptions are made and no action will be taken until available and relevant information has been collected and considered;
- Sensitive The employees who assist in responding to complaints should be specifically trained or equipped to treat all complaints sensitively and ensure the process is free of coercion or intimidation and consult with the Town's Industrial Relations Consultants;
- **Timely** The **Town** aims to deal with all complaints as quickly as possible and in accordance with any legislative requirements;

- Documented All complaints and investigations must be documented. In formal grievance processes, records must be kept of all documents collected and/or drafted as part of that process. For more informal processes, a file note or note in a diary may be sufficient;
- Natural Justice The principles of natural justice provide that:
  - A Respondent against whom allegations are made as part of a grievance process has the right to respond to the allegations before any determination is made;
  - A Respondent against whom an allegation is made has the right to be told (where possible and appropriate) who made the allegation;
  - Anyone involved in the investigation should be unbiased and declare any conflict of interest;
  - Decisions must be based on objective considerations and substantiated facts; and
  - The Complainant and the Respondent have the right to have a support person present at any meetings where practicable.
- **Procedural Fairness** The principles of procedural fairness provide that:
  - the Respondent is advised of the details (as precisely and specifically as possible) of any allegations when reasonably practicable;
  - A Respondent is entitled to receive verbal or written communication from the Town of the potential consequences of given forms of conduct, as applicable to the situation;
  - The Respondent is given an opportunity to respond to any allegations made against them by a Complainant;
  - Any mitigating circumstances presented to the Town through the grievance process are investigated and considered;
  - The Respondent has the right to have an appropriate support person present during any inquiry or investigation process where practicable or necessary;
  - Any witnesses who can reasonably be expected to help with any inquiry or investigation process should be interviewed; and
  - All interviews of witnesses are conducted separately and confidentially.

# Outcome of Making a Complaint

If a complaint is substantiated, there are a number of possible outcomes. If the complaint involves a performance issue, the manager of the Respondent may commence a formal or informal performance management process with the Respondent or elect to discipline the Respondent in accordance with the Disciplinary Policy.

If the complaint involves a breach of a Policy or any other behaviour that is inconsistent with the employment relationship, the manager of the Respondent may elect to discipline the Respondent in accordance with the Disciplinary Policy.

# Vexatious or Malicious Complaints

Where a Complainant has deliberately made a vexatious or malicious complaint that Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

# Victimisation of Complainant

A Complainant must not be victimised by the Respondent or any other employee of the Town for making a complaint. Anyone responsible for victimising a Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

### Variation to This Policy

This policy may be cancelled or varied from time to time. All the Town's employees will be notified of any variation to this policy by the normal correspondence method.

# DRAFT

# Grievances, Investigations & Resolution Procedure

# Procedure

The following procedure, based on the principles outlined in the Grievances, Investigations & Resolution Policy, is to be used in the resolution of any complaint. A complaint should be dealt with internally in the first instance where reasonable and practicable. The aim of this procedure is to resolve the complaint as quickly and confidentially as possible.

# First step – Self Resolution

A Complainant should attempt to resolve the issue directly with the person(s) concerned in the first instance. The Complainant should identify the specific conduct which has caused offence, explain the impact of that conduct on them, and request that the conduct stops. In some circumstances, the Respondent may be unaware that their behaviour offends the Complainant. These actions should be taken as soon as possible.

If the Complainant is not comfortable attempting to resolve the issue directly with the Respondent, if their attempts to resolve the issue are unsuccessful or if the issue is deemed sufficiently serious, the Complainant should seek guidance from the Director Corporate and Community Services on the options available to the Complainant. The Complainant has the choice whether to proceed with their complaint at that stage and the complaint can be withdrawn at any stage. If a complaint is withdrawn and the Town deems that matter to be sufficiently serious, it may continue to investigate the complaint even if it has been withdrawn.

# Informal Complaint Procedure

A complaint can be dealt with on an informal basis where:

- the allegations are not deemed sufficiently serious, for example interpersonal conflict or potentially amount to a minor breach of some of the Town's policies, procedures and guidelines (Policies);
- the Complainant is reluctant to lodge a formal complaint; or
- the Complainant and the Respondent work together closely on a regular basis and the preservation of the employment relationship is paramount.

The informal complaint procedure may be approached as follows:

- The Complainant should approach their direct manager or their manager's line manager if they are the Respondent or their manager has not satisfactorily dealt with the complaint, the desired outcome and any ideas for resolution of the complaint.
- The Complainant's manager or manager's line manager will explain the various options open to the Complainant for the resolution of the complaint.
- If the Complainant chooses to proceed with the complaint, their manager or manager's line manager can either:
  - arrange for a mediation between the Complainant and the Respondent; and/or
  - meet with the Complainant and the Respondent separately to discuss the issues and explore possible solutions; and/or
  - write to the Complainant and the Respondent to obtain further information about the complaint and to explore potential solutions.

If the matter is resolved to the satisfaction of all parties, the matter will be concluded. If the matter is not resolved, the manager and Director or CEO will determine whether any further action is required. All meetings with the Complainant and the Respondent should be documented and any correspondence between the parties should be retained on a confidential basis.

# Formal Complaint Procedure

A complaint should be dealt with through the formal complaint procedure where:

- the complaint involves sufficiently serious allegations, including but not limited to, sexual harassment, discrimination, criminal conduct, breaches of Town's policies or breach of *the Local Government Act 1995 (WA)*;
- the complaint involves a particularly sensitive or personal matter; or
- a formal complaint procedure is deemed appropriate in the circumstances by the manager and Director or CEO.

# Submitting a Formal Complaint

A formal complaint should be made in writing and include the following information:

- the Complainant's name and contact details;
- details of the specific incident or issue being complained about;

- if the complaint is about a person(s), the identity of the Respondent/Respondents and their relationship to the Complainant;
- the names of any witnesses who were present during the specific incident or who have first-hand knowledge of the issue being complained about;
- the outcome the Complainant is seeking; and
- any action that has already been taken in an effort to resolve the issue.

# Preliminary Inquiry

Before commencing a formal investigation, the relevant Manager or Director/CEO are able to conduct a preliminary inquiry if further information about the complaint is required to determine the level of seriousness involved. The purpose of a preliminary inquiry is to:

- obtain details about the complaint and assess the seriousness of the allegations;
- determine the level of factual dispute;
- assess whether there is sufficient evidence to proceed to a formal investigation; and
- determine whether the Town should proceed with an investigation or refer the matter to an external authority. It may be appropriate to refer a matter to an external authority where the alleged conduct is potentially of a criminal nature, potentially breaches the *Local Government Act 1995* or may need to be dealt with by the Corruption and Crime Commission.

# Full Investigation

If deemed necessary, the relevant Manager, Director or CEO may require a formal investigation to be conducted. The Town can elect to appoint a person from outside the Town to conduct the formal investigation or an appropriate Town employee may conduct the investigation (the Investigator).

The role of the Investigator is to collect information about the complaint and make findings about whether any allegations are able to be substantiated. The Investigator is responsible for ascertaining facts, reviewing documentation, interviewing parties and making a determination about whether any further action against the Respondent is warranted. The depth and scope of the investigation will depend on the nature of the complaint, however, as a general guide the following should be covered by the investigation report:

- the circumstances of any allegations made;
- a list of allegations made by the Complainant, the Respondent's response to the allegations and whether any of the allegations are substantiated;

- outline where any policies or legislation have been breached;
- evidence stemming from the complaint include any documentation such as emails; letters and signed witness statements; and
- any mitigating circumstances that have been presented through the investigation on behalf of the Respondent.

### Outcome and Action

The outcome of the investigation will dictate whether any disciplinary action may be warranted. Whether any disciplinary action is required will be at the discretion of the relevant manager in consultation with their Director or CEO. Any disciplinary action will be taken in accordance with the Disciplinary Policy.

# Substantiated Complaints and Potential Outcomes

Outlined below are some examples of actions that may be taken after a formal complaint is investigated and outcomes have been substantiated.

- apology from the Respondent to the Complainant (written or oral/verbal);
- agreement from the Respondent that the behaviour will not be repeated;
- a Respondent can be issued with a verbal or written warning;
- transfer, demotion or termination of the Respondent's employment;
- counselling of the Complainant and/or Respondent;
- implementation of a training program; or
- changes to the Town's Policies.

# Frivolous or Vexatious Complaint

If a complaint is found to be deliberately vexatious or malicious after an investigation, the employee making that complaint may be subject to disciplinary action, including but not limited to, termination of employment.

### Other Resources

An investigation into a complaint may require the Town to utilise resources from outside the organisation to help resolve the situation, including:

- an Employee Assistance Program (EAP);
- use of an independent investigator; or

• use of an independent mediator.

### Variation to this Procedure

This procedure may be amended from time to time. All the Town's employees will be notified of any variation to this policy by the normal correspondence method.

# 10.2.007 SOCIAL MEDIA, WORKPLACE SURVEILLANCE, DRUG AND ALCOHOL POLICIES

File Reference:	22.5.2

Previous Item Nos:	Nil
Date:	19 February 2015

### Attachments:

- Social Media Policy
- Workplace Surveillance Policy
- Drug and Alcohol Policy

### Summary:

Council is requested to consider adopting new policies to cover social media, workplace surveillance and drug and alcohol in the workplace.

### Background:

The Town does not have any specific policies to cover the following areas:

- Social Media
- Workplace Surveillance
- Drug and Alcohol

The Town has contacted its HR consultants and has been provided with a set of template HR policies.

### Comment:

The Town does need to implement policies to educate its staff as to what is appropriate behaviour with regards to social media, and reduce any issues associated with its staff drinking alcohol or taking drugs. There also is a need to set standards for the use of CCTV within its Administration and Library Buildings.

The Town has been required to speak to its staff about their posts on social media in the past. The use of social media is only getting more common and therefore all employees need to be aware of what standards of behaviour is considered to be acceptable. The Town can be held responsible if its staff conducts bullying behaviour towards other staff on social media, even when posting takes place within their own homes.

The Town has been expanding its use of CCTV to protect property and reduce antisocial behaviour. Therefore there is a need to set a standard for the collection and use of digital recordings. A policy of this nature may also address any fears the staff may have that the Town intends to monitor their every move.

The Town does hold a number of staff functions that involves the drinking of alcohol. This type of activity does involve a certain level of risk to the Town and therefore needs to be appropriately managed.

The Town does not have any specific policies to cover an incident where an employee comes to work while under the influence of drugs and/or alcohol. The Town does need to have the ability to ensure all of its staff are able to perform their duties in a safe manner without risking themselves or others. The adoption of the proposed Drug and Alcohol Policy will clearly explain to staff, and their supervisors, their roles and responsibilities with regards to this issue.

The Town will reformat the attached policies and procedures once they have been adopted by Council to match the current formatting requirements of the Town. A policy number will be assigned to each policy at a later date.

# **Policy Statement**

The Town of Narrogin **(Town)** understands the requirement to provide a framework for using social networking sites, including clarity on appropriate conduct, and emphasizes the need for its employees to use good judgement about what appears and its context within these social media venues/spaces.

The objective of this policy is to ensure all of the Town's employees are aware of appropriate professional and personal social media conduct to ensure the greatest benefit to the Town.

This policy applies to all employees and contractors (whether paid or unpaid) at the Town who access social media for professional or social purposes whether via personal devices or those supplied by the Town.

Social Media means forms of electronic communication (e.g. Web sites for social networking and microblogging) through which users create online communities to share information, ideas, personal messages, and other content (e.g. videos). Some examples include (but are not restricted to) Facebook, Pinterest, LinkedIn, Twitter; YouTube, and Foursquare.

# Social Media Use for Town of Narrogin Purposes

The Town may direct specified employees to use social media for Town purposes.

Only employees with appropriate training and knowledge who are expressly authorised by the Chief Executive Officer may use social media for Town purposes.

If a person is provided with express permission by the Chief Executive Officer to use social media s/he must provide information that is truthful, accurate and in the interests of the Town. S/he must not disclose anything that is financial or technical information, commercially sensitive information, personal information about employees, or any information about customers, suppliers or members of the general public.

Employees who are required to use social media in the course of their work must:

- Use spell check and proof read each post;
- Understand the context before entering any conversation;

- Know the facts and verify the sources;
- Be respectful of all individuals and communities with which the person interacts with online;
- Be polite and respectful of other opinions;
- Seek to conform to the cultural and behavioural norms of the social media platform being used;
- If a mistake is made, the person must correct it quickly by disclosing it was a mistake (including the particulars of the correction) and inform his/her supervisor; and
- Understand and comply with any directions given by the CEO on topics that are not to be discussed for confidential, operational or legal reasons.

A person required to use social media who has been trained and given express permission by the Chief Executive Officer should always be aware that the Town may be liable for any posts made. Accordingly s/he should always seek guidance from his/her supervisor or the Chief Executive Officer if s/he is ever unsure about stating or responding to something on a social media site.

# Records Personal/Private Use of the Town of Narrogin's Corporate Sites

An employee cannot comment on behalf of the Town unless expressly authorised by the Chief Executive Officer. If the person wishes to broadcast something (either as an initial broadcast or a response) then a request to the Chief Executive Officer (or his/her authorised delegate) must be made.

A person of the Town is able to share links that the Town has posted on the social media sites, or submitting a "like" action, or comment on an event, initiative and/or program, provided that it is in the best interests of the Local Government.

# Personal/Private Use of Non-Town of Narrogin Sites

Employees at the Town are permitted reasonable use of social media for personal/private purposes on the condition that it does not interfere with the performance of their work.

Employees who use social media for personal/private purposes must not infer or state they are speaking on behalf of the Town and are reminded that any inappropriate postings or actions carried out on social media may result in disciplinary action.

### Consequences of Breaching this Policy

The policy constitutes a lawful instruction to all of the Town's people, and breaches may lead to disciplinary action or termination by the Town, or referral to appropriate external authorities where applicable. People who breach the policy may also be personally liable for their actions.

# Variation to this Policy

This policy may be cancelled or varied from time to time. All the Town's employees will be notified of any variation to this policy by the normal correspondence method. All users of social media (be it for personal or professional purposes) within the organisation are responsible for reading this policy prior to accessing social media.

# DRAFT Workplace Surveillance Policy

# **Policy Statement**

Surveillance may be deployed within the workplace in order to protect the assets and equipment of the Town of Narrogin (**Town**) and improve community and employee safety.

This policy outlines the deployment of workplace surveillance in the Town.

# The Town of Narrogin's Commitment

The Town is committed to providing a safe environment for its employees and the community in which unlawful, antisocial, and inappropriate activity is kept to a minimum while respecting the individual rights to privacy. The Town will ensure that the use of workplace surveillance complies with the requirements of the relevant legislation including the *Surveillance Devices Act* 1998 *(WA)*.

### Electronic Surveillance Devices

The Town may deploy electronic surveillance devices to protect assets, equipment and people through the recording of unauthorised, unlawful, inappropriate, or dangerous activity/incidents.

The Town may deploy fixed and mobile cameras (of either motion/CCTV or still variety) in areas where assets or equipment are stored or commonly used, or in high risk work areas. Cameras may be placed in, around, or to view fixed or mobile locations.

Cameras should be placed in unobtrusive positions covering the area to be protected.

Cameras must not be placed inside toilets or change rooms, residences, or in such as position as to view inside these premises.

The Town will erect signage to inform employees and community members that cameras are in use.

Global Positioning System (GPS) devices may be utilised in vehicles or equipment where the operator is often required to work alone, where there is risks associated with the tasks being carried out by an employee or where the Town has a need to monitor and protect that vehicle or equipment.

### Staff Management

The Town will not deploy workplace surveillance for the general management of the Town's employees. However, if any workplace surveillance demonstrates an employee acting in an antisocial, inappropriate, or unlawful manner, the Town may use this information for disciplinary or other appropriate action.

### Review and Retention of Images

Images that indicate unauthorised or inappropriate activity, either through a record of that activity or due to interference with the camera, are to be referred to the Director Corporate and Community Services or the Chief Executive Officer. The Director Corporate and Community Services will retain the images and any associated information in a secure, confidential location.

# Confidentiality

Image information or data recorded is to be discussed only with the Chief Executive Officer, or Director Corporate and Community Services. No information regarding the location of surveillance devices or images recorded is to be released or discussed with any other person, except with the approval of the Chief Executive Officer or if required by law.

# Consequences of Breaching this Policy

Any person engaged by the Town's found to have breached this policy may be subject to disciplinary action or dismissal, as appropriate. Criminal charges may also be applied, where appropriate.

### Variation to this Policy

This policy may be cancelled or varied from time to time. All the organisation's employees will be notified of any variation to this policy by the normal correspondence method.

### Statement of Understanding

I confirm that I have read and understood the Town's Workplace Surveillance Policy. I understand that it is a condition of my employment or engagement with the Town that I consent to, and must comply with, the terms and conditions contained within this Policy.

# DRAFT Drug and Alcohol Policy

# **Policy Statement**

# The Town of Narrogin's Commitment

The Town of Narrogin **(Town)** and its employees must take all reasonable care not to endanger the safety of themselves or others (including customers) in the workplace. Alcohol and other drug usage becomes an occupational safety and health issue if a worker's ability to exercise judgment, coordination, motor control, concentration and alertness at the workplace is impaired. For the purposes of this policy, the term "employee/s" shall extend to cover contractors, volunteers and any person performing work for or with the Town in any capacity.

# The Individual's Responsibility

Under the Occupational Safety and Health Act 1984 (the OSH Act), workers must take reasonable care of their own safety and health and not endanger the safety and health of others at the workplace. The consumption of alcohol and/or drugs while at work is unacceptable, except in relation to any authorised and responsible use of alcohol at workplace social functions. Employees are required to present themselves for work and remain, while at work, capable of performing their work duties safely. An employee who is under the influence of alcohol and/or drugs at the workplace, or is impaired, may face disciplinary action including possible termination of employment.

# Reporting Requirements

Employees must report to their employer any situation where they genuinely believe that an employee may be affected by alcohol and/or other drugs.

# Drug Use on the Premises

Employees who buy, take, or sell drugs on Town premises, may be found to have engaged in serious misconduct. Such behaviour may result in disciplinary action up to and including dismissal. Employees who have been prescribed medication/drugs by a medical practitioner that

could interfere with their ability to safely carry out their role must inform their manager and disclose any side effects that these medication/drugs may cause.

# Consumption of Alcohol on the Premises

Except in situations where the Town holds a function on the premises and alcohol is provided, employees must not bring in and/or consume alcohol in the workplace.

# Drug/Alcohol Treatment Programs

Where an employee acknowledges that they have an alcohol or drug problem and are receiving help and treatment, the Local Government will provide assistance to the employee.

- The Town will allow an employee to access any accrued personal or annual leave while they are undergoing treatment, and;
- The Town will take steps to return an employee to their employment position after completion of the treatment program, if practicable in the circumstances.

Where an employee acknowledges that they have an alcohol or drug problem and are receiving help and treatment, the line manager or members of senior management, will review the full circumstances and agree on a course of action to be taken. This may include redeployment to suitable alternative employment, or possible termination from employment if the employee is unable to safely carry out the requirements of their role.

# Managers' Responsibilities - Consumption of Alcohol at Work Sponsored Functions

Team managers shall:

- encourage their staff to make alternative arrangements for transport to and from the function;
- ensure that the following is made available: Low alcohol beer, soft drinks and water -Beverages: tea, coffee and food;
- if the manager believes a person may be over the Blood Alcohol Content (BAC) 0.05 limit, assist the person with safe transport home (including contacting a family member or arranging a taxi); and
- if the manager has to leave the function early, appoint a delegate to oversee the rest of the function.

# Pre-Employment Medical Tests

As part of the recruitment selection criteria, preferred candidates for employment positions may be required to attend a medical assessment which includes drug and alcohol testing.

# Identification of Impairment & Testing

If the Town has reasonable grounds to believe that an employee is affected by drugs and/or alcohol it will take steps to address the issue.

Reasonable grounds may include (but are not limited to), where an employee's coordination appears affected, has red or bloodshot eyes or dilated pupils, smells of alcohol, acts contrary to their normal behaviour, or otherwise appears to be affected by drugs and/or alcohol.

If the Town suspects that an employee is under the influence of drugs and/or alcohol it may pursue any or all of the following actions:

- direct an employee to attend a medical practitioner and submit to a medical assessment to determine whether the employee is fit to safely perform their duties;
- require that an employee undergo drug and alcohol testing administered by a representative of the Town.
- direct an employee to go home.

A medical assessment may include a drug and/or alcohol test. Testing shall be conducted in accordance with the Australian Standard AS/NZS 4308:2008 - Procedures for specimen collection and the detection and quantitation of drugs of abuse in urine.

In circumstances where an employee indicates the consumption of prescription or pharmacy drugs, the Town may request further information from the medical practitioner conducting the assessment about the effects and proper usage of the prescription or pharmacy drugs being taken. The Town may direct the employee to go home following the medical assessment until it can be established that they are fit to undertake their duties.

If an employee refuses to attend a medical examination or refuses to submit to an alcohol or drug test, the employee will be immediately directed to go home. Refusal to attend a medical assessment or refusal to go home constitutes a breach of this policy and may result in disciplinary action being taken against the employee up to and including the termination of employment.

The following steps are to be taken where an employee who has submitted to a medical assessment returns a positive test result for alcohol and/or drugs:

- The employee tested and the supervisor (or respective employer) will be informed of the result;
- A disciplinary discussion will take place in accordance with the disciplinary policies and procedures of the Town.

An employee who returns a positive test will be in breach of this policy. A breach of this policy may result in disciplinary action being taken against the employee up to an including the termination of employment.

# Education, Training & Awareness

The Town may provide education and training to all employees at the workplace about the effects of alcohol and other drugs and their risks to safety and health.

Line managers may be given training that they may identify situations where an employee is potentially misusing alcohol or drugs.

Employees who recognise that they have a drink or drug problem, or that they are at risk of developing one, are encouraged to come forward so that they can be assisted to the get the appropriate help. Contacts at outside agencies where help can be obtained will be made readily available to all employees via the Town's noticeboards.

The Town engages the services of an external Employee Assistance Provider who can provide the organisation's people with free and confidential counselling.

# Consequences of Breaching this Policy

An employee engaged by the Town who breaches the provisions of this policy may face disciplinary action including possible termination of employment.

# Variation to this Policy

This policy may be cancelled or varied from time to time. All the organisation's employees will be notified of any variation to this policy by the normal correspondence method.

## Summary:

It is presented to Council to make a decision on the changeover of the Community Assisted Transport Service "CAT's" vehicle. There has been issues surrounding the changeover in the past due to the political nature of this issue with officers required to follow Council Policy. As such, this item is presented for Council consideration and resolution.

## Background:

Since the inception of the CAT's program the Town of Narrogin has facilitated the administration of the Vehicle through the Narrogin Home Care and Administration. The facilitation of the coordination of the volunteers is conducted by the Volunteer Group and the Narrogin Senior Citizens Centre.

There have been issues raised over the financial management of the program by the Town in the past, some five plus years ago, of which there was agreement between officers and the Volunteer Group to move forward and focus on the current position. Within the last two years there was commitment that regular financial reports would be provided; however, these were produced but not distributed to the Volunteer Group and this has been committed to by the Director to ensure that it will occur.

Officers have been placed in an untenable position through the insistence that the vehicle must be purchased locally, however, only one type of vehicle can be considered. As per Council purchasing policy for this level of acquisition, at least three quotes must be obtained. As such, Council previously was seeking quotes from the Local Supplier and independent suppliers of the same vehicle from Perth and other surrounding areas. Previously this has been acceptable as the vehicle was purchased locally; however, as the price has increased, there has been questions raised if this type of car is the only one in the market that is appropriate and if there was a large gap in the price of the quotes received from the sustainability perspective of the program, then why can't the car be purchased outside of Narrogin as long as the policies are being adhered to?

These questions raised have created issues with the Volunteers and sections of the Community and, as such, the item is being presented to Council to make the formal resolution. In the future, this transaction will continue to be presented to Council for endorsement.

Several years ago the changeover cost for the car was considerably less than what it is today and during that time the reserve was able to absorb the cost. If the current changeover cost presented within the resolution continues, it is the officer's opinion that the Reserve will be empty within the next few changeovers and external funding will need to be sought.

## Comment:

Presented to Council are quotations received from Narrogin car dealers and external Perth suppliers.

It is presented to Council that due to the Volunteers views that the Toyota Camry is the vehicle of choice by the volunteers and clients that this vehicle be purchased locally, there are enough funds within the Reserve to facilitate the purchase.

The Volunteer Group resolved to accept that once this vehicle was purchased, that the Town of Narrogin facilitates a swap of the Toyota for a Holden Malibu for several weeks so that the drivers and clients can utilise the vehicle and if required the vehicle can be assessed by an occupational therapist.

DEALER/TYPE OF CAR	PURCHASE PRICE LESS DISCOUNTS	TRADE IN PRICE	CHANGE OVER INC GST

#### Statutory Environment: Nil

#### **Policy Implications:**

Town of Narrogin policies that relate to this item:

- C.2 Purchasing and Tender Policy
- C.14 Local Price Preference Policy

## Financial Implications:

The increased cost of replacement of the vehicle has resulted in the reduction of funds retained within the reserve account and concern has been raised regarding the sustainability of the funding model into the future. There has been strong comment that this is why the Community fundraises and some donations are not being provided as the Town are the managers of the funding. It was advised to the Volunteers that should people not be making donations then the Council another entity hold the monies separately or with another community group for the future costs. However from an officer's perspective why utilise other entities' raised funds or request donations where, if the changeovers can be managed to ensure that no outside funding is utilised, then these monies can be used on other projects.

## Strategic Implications:

The following section of the Community Strategic Plan relates to this item:

- 2.3 Continue to support the development of the Aged Care industry, services and support in Narrogin to assist in retaining aged residents within the community.
- 2.10 Provide support and encouragement for volunteers and local service groups.

#### That Council:

- 1) Purchase a 2015 Toyota Camry Altise from Narrogin Toyota for the changeover price of \$11,300 including GST and required repairs to the vehicle.

## 10.2.009 IMPLEMENTATION OF FEE FOR CAT'S SERVICE

File Reference: Disclosure of Interest: Applicant: Previous Item Nos: Date: Author: 24.6.9 Nil CATs Volunteer Group Nil 18 February 2015 Aaron Cook

## Summary:

It is presented to Council to consider implementing a fee and charge for the Community Assisted Transport Service (CAT's) Vehicle that is inclusive of the reimbursement of the Patient Assisted Transport Scheme Payment (PATS) and an allowance for a light meal for the volunteer and an allocation for the future replacement of the vehicle.

## Background:

Currently the CAT's is paid via the patient and the patient is reimbursed the PATS payment from the government and a request is provided to the patient to fund the volunteers lunch in addition if parking of the vehicle is required this is charged separately to the patient and is paid as a reimbursement to the service.

The payment requested for the lunch is \$15 and some volunteers felt uncomfortable in asking for this so the payment to the service was not consistent.

This was discussed at the recent CAT's Volunteer Group meeting and resolved to request to increase the fee to \$75 per patient.

#### Comment:

It is presented to Council, as per the minutes from the CAT's Volunteer Group meeting that a set fee be introduced to all passengers of the service that includes the allowance for the volunteer for a light lunch and a provision for the vehicle's future replacement.

In the instance that the vehicle carries more than one passenger, the service is then able to allocate additional funds to the replacement of the vehicle which has been stated as being required due to increasing costs.

It must be noted that although this is a fee and charge by Council, it is being requested by the CAT's Volunteer Group for the increased sustainability of the program into the future.

It must be noted that Council will be dictated by the Local Government Act in regards to the implementation of the fee and will need to follow the guidance of Sections 6.16, 6.17, 6.19. One requirement is that an advertisement must be placed in the local paper advertising the imposition of the fee and the date that it is to commence from. It is proposed that the advertisement be place in the paper on the 5 March 2015 with the commencement date being the 16 March 2015.

#### 6.16. Imposition of fees and charges

(1) A local government may impose\* and recover a fee or charge for any goods or service it provides or proposes to provide, other than a service for which a service charge is imposed.

\* Absolute majority required.

- (2) A fee or charge may be imposed for the following
  - (a) providing the use of, or allowing admission to, any property or facility wholly or partly owned, controlled, managed or maintained by the local government;
  - (b) supplying a service or carrying out work at the request of a person;
  - (c) subject to section 5.94, providing information from local government records;
  - (d) receiving an application for approval, granting an approval, making an inspection and issuing a licence, permit, authorisation or certificate;
  - (e) supplying goods;
  - (f) such other service as may be prescribed.
- (3) Fees and charges are to be imposed when adopting the annual budget but may be
  - (a) imposed\* during a financial year; and
  - (b) amended\* from time to time during a financial year.

\* Absolute majority required.

## 6.17. Setting level of fees and charges

- (1) In determining the amount of a fee or charge for a service or for goods a local government is required to take into consideration the following factors
  - (a) the cost to the local government of providing the service or goods; and
  - (b) the importance of the service or goods to the community; and
  - (c) the price at which the service or goods could be provided by an alternative provider.
- (2) A higher fee or charge or additional fee or charge may be imposed for an expedited service or supply of goods if it is requested that the service or goods be provided urgently.
- (3) The basis for determining a fee or charge is not to be limited to the cost of providing the service or goods other than a service
  - (a) under section 5.96; or
  - (b) under section 6.16(2)(d); or
  - (c) prescribed under section 6.16(2)(f), where the regulation prescribing the service also specifies that such a limit is to apply to the fee or charge for the service.
- (4) Regulations may
  - (a) prohibit the imposition of a fee or charge in prescribed circumstances; or

(b) limit the amount of a fee or charge in prescribed circumstances.

## 6.19. Local government to give notice of fees and charges

If a local government wishes to impose any fees or charges under this Subdivision after the annual budget has been adopted it must, before introducing the fees or charges, give local public notice of -

- (a) its intention to do so; and
- (b) the date from which it is proposed the fees or charges will be imposed.

## Policy Implications: Nil

## Financial Implications:

Although there are no financial implications to Council, the increased revenue will greatly assist in increasing the sustainability of the CAT service. All monies raised sits within a Reserve for the purpose of paying expenses and the replacement of the vehicle.

Budget Amendments

#### Summary:

Council is presented the findings of the 2014-2015 Budget Review as well as a number of budget amendments for its consideration.

#### Background:

The Town is required by the Local Government (Financial Management) Regulations to review its annual budget at least once every financial year. See the Statutory Environment Section of this report for further details.

A budget review was conducted using the Town's 31 December 2014 financial information. Senior officers had been requested to provide the author of this report with an estimate as to their department's income and expenditure accounts at 30 June 2015. This information was required to determine the accuracy of the budget estimates as well as the need to amend the budget due to the identification of additional expenditure items. The author and Manager of Finance also conducted a line by line review of the income and expenditure accounts by program.

The Town's 2014/15 budget review was concluded on the 17 February 2015.

Any identified budget variances can be classified into two different categories:

- Permanent Difference, and
- Timing Difference.

A permanent difference is where an account has incurred actual income or expenditure that will permanently vary from budget estimates. For example the Town had budgeted for income of \$1,000 from refuse collection services, although the actual income received was \$5,000.

Timing difference relates to a temporary variance in income or expenditure accounts which will carry over in to the next financial year or beyond. For example, a new building was expected to be constructed in the 2014/15 financial year for \$50,000, however the project has been delayed due to lack of suitable contractors until the 2015/16 financial year.

This report will only focus on reporting those accounts that have a significant permanent difference. Projects that have a timing difference will be excluded from this report as they are likely to be included in the 2015/16 Draft Budget and be funded from the carried forward surplus.

## Comment:

The Town did make a conservative estimate of the carried forward surplus in the 2014/15 Budgeted Rates Setting Statement. As Council would be aware, this year's budget was undertaken at an earlier time than was traditionally done, which can result in significant under or over estimates of any carried forward surplus or deficit. Since this time the Town has completed its 2013/14 Financial Report which has calculated the true surplus figure. The Town has an additional \$14,500 to add to its budget estimated surplus.

When reviewing the Town's financial accounts on a line by line basis it is expected that there will be minor variances with most accounts relating to the original budget estimate unless they relate to a fixed contract price or a set income amount. These minor changes have been considered to have a minimal impact on the overall financial position of the Town as some accounts will be overspent while other will be underspent. It is the Town's practice to ensure officers manage their accounts by ensuring any over expenditure or reduced income is offset with under expenditure of other accounts.

The Town has introduced a new chart of accounts in the 2014/15 financial year which has improved the ability of staff to review and better understand the financial information. There is a small number of issue that will need to be addressed to ensure items are properly recorded, but this is expected with any major change of this nature.

This budget review also included an assessment of financial management processes to ensure the Town can continue its improvement in financial management and reporting.

The Town does need to monitor its overheads allocations on a monthly basis to ensure costs are allocated on a more timely and reliable basis. There is a number of overhead adjustments needed to correct the over allocation of public works overheads and plant operation costs. Processes will be implemented to ensure these areas are monitored on a monthly basis. A small number of employees have been allocated overheads in error and this issue will be corrected.

Fringe benefit costs had not been reported in the operating statement that was reviewed. This issue is being addressed. However funds have been set aside to pay this expense based on the 2013/14 FBT liability. The 2014/15 FBT liability will be calculated by the end of April 2015.

Due to the requirement of reporting Goods and Service Tax (GST) there has been a small number of income accounts created without a budget allocation. These accounts are in fact a sub account of another income account.

Additional work is required to complete the transactions required for the disposal of assets in the general ledger.

There is still some outstanding debtor invoicing to be done for the Shire of Narrogin and other lessee's. However, with the arrival of the new Finance Officer (Accounts) this issue will be resolved shortly as she has experience with debtor management.

A detailed review of each line item account is required to be undertaken on a monthly basis to reduce misallocations. This task has been assigned to the Manager Finance.

The Town has been able to now fill most of its Finance Officer's positions with experienced officers who have worked in at least one other local government agency. This situation will support the continued improvement of financial management and reporting. Until this week the Finance Officer (Accounts) position had been vacant for some time and therefore had to be covered from within the Finance team.

The Finance Officer (Rates) will be taking extended annual and long service leave. This will require the Town to fund the appointment of another person to fill this position during the period of leave.

The \$40,000 which was allocated for consultants to value the fair value of the Town's infrastructure assets will now be used to fund small equipment items and pay for overtime as this project will now be completed in-house. The Town is required to revalue its assets for fair value every three years and it would be more cost effective if this task can be completed by Town staff.

Due to the early budget preparation, the Director Corporate Community Services had calculated the outside staffs' wages, overheads and plant operation costs for each job. These estimates may vary from the actual work that has been undertaken which has resulted in a number of variations between actual expenditure and their budgeted allocations. However overall the wages total allocations are within budget and there are a number of jobs with over and under allocations. These accounts have not been adjusted but the information of actual expenditure will be used to improve the Town's 2015/16 budget.

Narrogin Homecare still requires further analysis with regards to its budget. However Narrogin Homecare traditionally does not expend all of its grant funds. Therefore it is not anticipated to have any impact on the Town's municipal funds as any surplus fund will be transferred to reserve. The Town is currently investigating the reason for that late arrival of the Commonwealth Grants.

The Town has been advised that it will not receive \$30,000 of its budgeted Roads to Recovery funding. Although it is recommended that this reduction be offset by the Town receiving its 2014/15 Direct Road Grant of \$34,000 from Main Roads Western Australia (MRWA).

The Town has received significant funds in the 2013/14 financial year for the TAFE project. This project is ongoing but a substantial amount of this funding is likely to be carried over into next year's budget.

The Narrogin Caravan Park is expected to receive more income of around \$15,000, these additional funds will be used to continue the improvement of the caravan park e.g. BBQ's.

The Town has been able to offset some of its wages cost due to the private works it has undertaken with the Shire of Narrogin. There will be a need to adjust overheads rates as the Town Engineer is expected to spend the majority of his time working for the Shire of Narrogin. The Town has also employed additional casual outside staff to cover the absence of its staff while they are performing private works duties.

The Town has included a budget amendment to include the purchase of the steam train painting.

The attached appendix includes items of significant permanent differences that have been identified during the budget review.

Excluding the changes to and inclusion of additional expenditure items, the budget review has identified a potential surplus of \$76,200. It is recommended that these funds be transferred to the Employee Entitlement and Building Reserves at year end as these reserves do require additional funding for future use.

#### 1. SIGNIFICANT ACCOUNTING POLICIES

rinancial activity are:

#### (a) Basis of Accounting

This statement is a special purpose financial report, prepared in accordance with applicable Australian Australian Accounting Standards, other mandatory professional reporting requirements and the Local Government Act 1995 (as amended) and accompanying regulations (as amended).

#### (b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

#### (c) Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

#### (d) Rates, Grants, Oonations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

#### (e) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables are stated inclusive of applicable GST.

# (f) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities.

#### (g) Trade and Other Receivables

Trade receivables, which generally have 30 - 90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less any allowance for uncollectible amounts.

Collectability of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

# (h) Inventories

#### General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs of necessary to make the sale.

Inventories held from trading are classified as current even if not expected to be realised in the next 12 months.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Land Held for Resale

Land purchased for development and/or resale is valued at the lower of the cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

### (i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

#### (j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Buildings	50 to 100 years
Furniture and Equipment	10 years
Plant and Equipment	5 to 15 years
Sealed roads and streets	
clearing and earthworks	not depreciated
construction/road base	50 years
original surfacing and	
major re-surfacing	
- bituminous seals	20 years
Gravel roads	
clearing and earthworks	not depreciated
construction/road base	50 years
gravel sheet	12 years
Formed roads (unsealed)	
clearing and earthworks	not depreciated
construction/road base	50 years
Footpaths - slab	40 years

#### **Capitalisation Threshold**

Plant, Property and Equipment (excluding Buildings) items to \$5,000 or greater, and Building and Infrastructure items to \$10,000 or greater.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (k) Trade and Other Payables

provided to the local government prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

#### (l) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave,

- (i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits) be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.
- (ii) Annual Leave and Long Service Leave (Long-term Benefits) The liability for long service leave is recognised in the provision for employee benefits and measured as the the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

#### (m) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

#### (n) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable capitalised as part of the cost of the particular asset.

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

#### (o) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

#### (p) Nature or Type Classifications

#### 1. SIGNIFICANT ACCOUNTING POLICIES

nnanciai activity are:

# (a) Basis of Accounting

This statement is a special purpose financial report, prepared in accordance with applicable Australian Australian Accounting Standards, other mandatory professional reporting requirements and the Local Government Act 1995 (as amended) and accompanying regulations (as amended).

#### (b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

# (c) Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

#### (d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

#### (e) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables are stated inclusive of applicable GST.

# (f) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities.

# (g) Trade and Other Receivables

Trade receivables, which generally have 30 - 90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less any allowance for uncollectible amounts.

Collectability of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

#### (h) Inventories

#### General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs of necessary to make the sale.

Inventories held from trading are classified as current even if not expected to be realised in the next 12 months.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Land Held for Resale

Land purchased for development and/or resale is valued at the lower of the cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

# (i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

#### (j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Buildings	50 to 100 years
Furniture and Equipment	10 years
Plant and Equipment	5 to 15 years
Sealed roads and streets	
clearing and earthworks	not depreciated
construction/road base	50 years
original surfacing and	
major re-surfacing	
- bituminous seals	20 years
Gravel roads	
clearing and earthworks	not depreciated
construction/road base	50 years
gravel sheet	1 <b>2</b> years
Formed roads (unsealed)	
clearing and earthworks	not depreciated
construction/road base	50 years
Footpaths - slab	40 years

#### Capitalisation Threshold

Plant, Property and Equipment (excluding Buildings) items to \$5,000 or greater, and Building and Infrastructure items to \$10,000 or greater.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (k) Trade and Other Payables

provided to the local government prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

# (I) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave,

- (i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)
- be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.
  (ii) Annual Leave and Long Service Leave (Long-term Benefits)
- The liability for long service leave is recognised in the provision for employee benefits and measured as the the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

## (m) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

#### (n) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable capitalised as part of the cost of the particular asset.

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

# (o) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

#### (p) Nature or Type Classifications

#### Rates

All rates levied under the Local Government Act 1995. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered.
