Preface

The Policy Manual is the compiled decisions of Council to the Chief Executive Officer (CEO), employees and other officers, detailing how specific matters are to be administered, the standards to apply etc.

Council Policy is over-ridden by –

- Commonwealth and State legislation and regulations,
- the Local Planning Schemes
- Local Laws
- Council resolutions
- Delegations

Council Policy overrides –

- Executive Instructions
- Local Government Guidelines –
 - o although are not decisions of Council, close observance is strongly recommended
- administrative directions/instructions

The decisions can be made at any time and may be varied at Council's discretion. Council Policy is not binding on the Council, but is binding on employees and officers, unless discretion is stated. Council Policy is to be considered as Council's standing or permanent instructions.

The Local Government Act requires the development of only a few policies, otherwise all policies are at Council's sole discretion.

Policies, Codes or Standards of a local government required by the Local Government Act 1995 include:

- Adoption of an Attendance at Events Policy (S5.90A)
- Adoption of a Council Members, committee members and candidates Code of Conduct (S5.104)
- Adoption of an Employees Code of Conduct (S5.51A), to be made by the CEO
- Adoption of Continuing Professional Development Policy for Elected Members (S5.128)
- Adoption of a Policy relating to employing a CEO or Acting CEO (S5.39A and B and C)
- Adoption of Regional Price Preference Policy (R24C Local Government (Functions and General) Regulations 1996)
- Adoption of a Policy that pays employees more than required by their contract or award (recognition of service / gratuity) (S5.50); and
- Adoption of a Standard for CEO recruitment, performance and termination (based on model) (S5.39B).

Other than the above, policies are generally not required to be based on or in legislation but can be a stand-alone instruction of Council. However, it cannot be inconsistent with legislation.

Within the Policy Manual is a detailed outline of –

- how actions and administrative decisions are to be made,
- when they are to be implemented or made,
- limitations and restrictions etc.

The Policy Statement is resolved by Council. All procedural or reference information, formatting and spelling errors may be amended or updated by the CEO.

INTRODUCTION

Statutory and Corporate context

The Council is responsible for functions and activities under numerous Acts and other legislation, many of which permit Council to delegate responsibilities and authority to various employees and officers, and to stipulate conditions, standards or methods of control and management.

This Council Policy Manual has been prepared to complement a range of obligations imposed by legislation including local laws, and various document adopted by Council.

The order of priority for compliance is –

1. Federal and State legislation and regulations,
2. the Local Planning Scheme,
3. a specific resolution of Council,
4. Delegations Register – being specific authorisations resolved by Council, and having a statutory context under the Local Government Act,
5. Local Planning Policy – as it is made under the authority of the Local Planning Scheme, by resolution of Council,
6. Council Policy – being instructions resolved by Council on how particular matters are to be dealt with,
7. Executive Instruction – standing instructions or procedures issued by the CEO,
8. Administrative directions or instructions.

Although not decisions of Council, and therefore not a requirement of staff, consideration should be given to the following as being best practice –

- DLGRD Guidelines
- WALGA Councillors Manual, Practice Notes etc.

Unless specifically resolved that the instruction is to be included in the Policy Manual, it is considered that it is for a specific matter and is not a general or on-going instruction.

There are some policies that have specific legislative provision, and these are noted in the individual policy.

IMPORTANT – Consequences of Breaching Council Policy

Where there is a breach of Council Policy –

- a) it may result in disciplinary action up to and including termination of employment,
- b) the Shire may also be obligated to refer a breach to an external agency where an employee may be held personally liable for their actions;
- c) the employee in breach may also be personally liable for their actions, such costs charged to the Shire or to repair as a result of the private/personal or unauthorised use.

Application – is to staff, not to community

Policy generally cannot be used to control or manage the general community – it is essentially an instruction to staff that in particular circumstances, a specific action or process is to be followed, for instance –

- Hire of facilities – if there is damage, then staff are to invoice the hirer or cancel their booking etc
- Caravan Park Rules – if a patron does not comply with these, staff are to take action
- HR / Personnel policies – outlines the circumstances in which actions are to be taken
- Crossovers – staff may approve if an application complies with requirements or take action if a crossover does not comply.

A Policy generally cannot be applied directly to the community as they may not be aware of its adoption. The community has to have had the opportunity to be aware of the requirements imposed on them. If a policy is to be applied to the community or to a specific applicant, there are legislative requirements that must be observed.

However, policy may require staff to apply specific conditions to a licence, permit etc, and to provide a written copy of the conditions being applied. These conditions applied are then enforceable.

Advertising of a local law constitutes community wide notification, whether the person is aware of it or not. Accordingly, many policies expand on how a Local Law is to be interpreted or acted upon by staff.

Definitions

The LG Act has not defined the term “delegation” or “delegated power”. However:

- s.5.16 refers to “... the exercise of any of its powers and duties ...”
- s.5.42 refers to “... the exercise of any of its powers or the discharge of any of its duties ...”

The term “policy” is not defined anywhere in the LG Act; however, Departmental guidelines refer to Council “acting through” the administration to fulfil requirements and obligations.

The following terms used in this document apply insofar as they are consistent with enabling legislation –

authority means the permission or requirement for Council, a Committee, or a person to act in accordance with –

- the Local Government Act, Regulation, or other legislation,
- a delegation made by Council,
- a Council Policy,
- a specific decision of Council, or
- an Executive Instruction.

delegation means the authority for a Committee, the CEO or other person to exercise a power, or discharge a duty, as conferred by absolute majority decision of Council under the provisions of the relevant legislation.

employee means a person employed by the Shire and is on the payroll, and does not include contractors or consultants

Council Policy is a standing instruction resolved by Council as to how a particular matter is to be implemented:

Executive Instruction is a standing instruction issued by the CEO as to how a particular matter is to be implemented.

instruction means the requirement for a staff member to act in accordance with a direction given by the Council, the CEO, senior employee, or supervisor.

officer generally only to be used in the context of a formal authorisation, and may include an authorised employee

Guidelines No.17 – Delegations (Department of Local Government)

The Department of Local Government and Communities has published Guidelines for the formation of Delegations.

The Guidelines outline the concept of “delegation” and “acting through” in parts 3 and 4, particularly in paragraph 13 where it is stated –

... the key difference between a delegation and “acting through” is that a delegate exercises the delegated decision making function in his or her own right. The principal issue is that where a person has no discretion in carrying out a function, then that function may be undertaken through the “acting through” concept. Alternatively, where the decision allows for discretion on the part of the decision maker, then that function needs to be delegated for another person to have that authority.

In effect, “acting through” is an action that could reasonably be expected to be carried out as the result of a decision by Council (e.g. advertising of a tender), or as a function reasonably expected of the position that a person holds.

Not all matters which will be recorded in Policy are “acting through” matters. Similarly, not all “acting through” matters will be listed. Council Policy supported by Executive Instructions describe how that action or some other action is to be carried out.

Making, amending, and revoking Council Policy

Administrative Policy generally requires approval by a simple majority of Council, and may be made, amended or revoked at any time by Council.

A number of policies are required by legislation to be adopted or amended by absolute majority, and these are referenced in the Notes section of the relevant policy.

Council may impose limitations on Policy, or the functions delegated as they see fit.

Review of Council Policy

There is no required timetable for the review of policy, however, it is suggested that it should be done regularly to ensure that policies are relevant, current, and understood.

To maintain the Policy Manual up to date, an administrative review should be reviewed at least once a year, and a report made to Council on matters needing amendment or inclusion.

It is suggested that detailed consideration of all policies be undertaken by Council at least once every two years.

The *Local Government Act 1995* requires that a minimum of 15 minutes be provided at council meetings for public question time. Public question time is early in the meeting as required by the Act. 3. The length of question, including any background information, should not exceed 150 words.
4. Questions are limited to 2 per person, and with a total time limit of 2 minutes per speaker. Multiple parts to a question are considered separate questions.
5. Questions are to be directed to the Presiding Member, not to any other person.

12. A timer may be activated at the beginning of each person's time period and the Presiding Member will require questioners to conclude after 2 minutes.

14. When specifically requested, questioner's details may be kept private.
15. Questions without notice or multiple parts to a question will be answered in the order they are asked to a maximum of 2.
16. Should time permit, after all present have had an opportunity to ask a question, additional questions may be considered
17. Where a question raises a significant issue not addressed in the staff report, and which cannot be adequately responded to, the meeting will need to consider whether the item should be held over or referred back for further consideration. In making this decision, the meeting will take account of statutory deadlines and other implications if appropriate.

Responding to the questions

18. The order in which questions are to be addressed is –
 - a) questions with notice relating to matters within that meeting's agenda;
 - b) questions with notice relating to other matters;

22. Questions without notice will only be responded to at the meeting if they are simple. Otherwise they will be taken on notice and will be answered in writing after the meeting and the response included in the agenda of the next council meeting.
23. The meeting will not debate nor discuss the question raised with the questioner. Discussion or debate directly with an elected member or employee, or within the gallery is not permitted.

Policy Schedule 1.7 – Legal Costs Indemnification

1. Introduction

This policy is designed to protect the interests of Council members and employees (including past members and former employees) where they become involved in civil legal proceedings because of their official functions. In most situations the Shire may assist the individual in meeting reasonable expenses and any liabilities incurred in relation to those proceedings.

It is necessary to determine that assistance with legal costs and other liabilities is justified for the good government of the district.

2. General Principles

The Shire may provide financial assistance to members and employees in connection with the performance of their duties provided that the member or employee has acted reasonably and has not acted illegally, dishonestly, against the interests of the Shire or otherwise in bad faith.

The Shire may provide assistance in the following types of legal proceedings –

- a) proceedings brought by members and employees to enable them to carry out their local government functions (e.g. where a member or employee seeks a restraining order against a person using threatening behaviour);
- b) proceedings brought against members or employees (this could be in relation to a decision of Council or an employee which aggrieves another person (e.g. refusing a development application) or where the conduct of a member or employee in carrying out his or her functions is considered detrimental to the person (eg: defending defamation actions); and
- c) statutory or other inquiries where representation of members or employees is justified.

The Shire will not support any defamation actions seeking the payment of damages for individual members or employees in regard to comments or criticisms levelled at their conduct in their respective roles. Members or employees are not prevented, however, from taking their own private action. Further, the Shire may seek its own advice on any aspect relating to such comments and criticisms of relevance to it.

The legal services under this policy will usually be provided by the Shire's solicitors. Where this is not appropriate for practical reasons or because of a conflict of interest then the service may be provided by other solicitors approved by the Shire.

3. Applications for Financial Assistance

- a) Subject to item (e), decisions as to financial assistance under this policy are to be made by the Council.
- b) A member or employee requesting financial support for legal services under this policy is to make an application in writing, in advance if possible, to the Council providing full details of the circumstances of the matter and the legal services required.
- c) An application is to be accompanied by an assessment of the request and a recommendation prepared by the CEO.
- d) A member or employee requesting financial support for legal services, or any other person who might have a financial interest in the matter, must ensure compliance with the financial interest provisions of the Local Government Act 1995.
- e) Where there is a need for the provision of urgent legal services before an application can be considered by Council, the CEO may give an authorisation to the value specified by Council.
- f) Where it is the CEO who is seeking urgent financial support for legal services the Council shall deal with the application.
- g) Any application is to be subject to an enforceable agreement to repay expenses incurred by the Shire, either –
 - In full but not exceeding the extent recovered by a member in accordance with 4(a) below, or
 - In full where 4(2) applies.

4. Repayment of Assistance

1. Any amount recovered by a member or employee in proceedings, whether for costs or damages, will be off set against any moneys paid or payable by the Shire.
2. Assistance will be withdrawn where the Council determines, upon legal advice, that a person has acted unreasonably, illegally, dishonestly, against the interests of the Shire or otherwise in bad faith; or where information from the person is shown to have been false or misleading.
3. Where assistance is so withdrawn, the person who obtained financial support is to repay any moneys already provided. The Shire may take action to recover any such moneys in a court of competent jurisdiction.

Notes

State Records Office policy imposes the obligations on elected members and the organisation under the State Records Act, as advised on 30 July 2009 –

In relation to the recordkeeping requirements of local government elected members, records must be created and kept which properly and adequately record the performance of member functions arising from their participation in the decision making processes of Council and Committees of Council.

This requirement should be met through the creation and retention of records of meetings of Council and Committees of Council of local government and other communications and transactions of elected members which constitute evidence affecting the accountability of the Council and the discharge of its business.

Local governments must ensure that appropriate practices are established to facilitate the ease of capture and management of elected members' records up to and including the decision making processes of Council.

In effect, any form of record which may affect accountability or contribute to a decision or action made as an elected member must be retained. These records may be –

- physical – a letter, a handwritten note, a photo someone sends to an elected member in explanation / complaint, an agenda where you have made notes on various items, etc
- electronic – an email or document sent as an attachment to an email, digital photo, an e-file that is sent for review or comment
- audio – message left on your answering machine, although this is likely to be unusual, since rarely are many details left in a message, but it is a record.

The records are not only those you receive, but also those that you create, such as –

- a note of a conversation where someone asked you to pursue a particular matter,
- a letter that you write in the capacity of elected member,
- an email you send as an elected member

The records only need to be relating to those “*affecting the accountability of the Council and the discharge of its business ... up to and including the decision making processes of Council*”. It is the elected members decision and judgement as to what extent this applies, *and it is suggested that* this not be further defined.

The principles of relevance and ephemerality apply, for example –

- a note to remind you to phone a person is ephemeral, but notes of the conversation may not be,
- a copy of an agenda that has no notes made is irrelevant, as the document can be reproduced by the Shire at any time,
- a promotional brochure or conference information is not relevant

Policy Statement

A fundamental principle of good public administration is that public officials comply with both the letter and the spirit of the law.

The Shire of Narrogin has an obligation to ensure that legislative requirements are complied with. The community and those working at the Shire have an expectation that the Council will comply with applicable legislation and the Council should take all appropriate measures to ensure that that expectation is met.

Regulation 14 of the Local Government (Audit) Regulations 1996 requires local governments to carry out a compliance audit for the period 1 January to 31 December in each year. The compliance audit is structured by the Department of Local Government, Sporting and Cultural Industries and relates to key provisions of the Local Government Act 1995.

Regulation 17 of the Local Government (Audit) Regulations 1996 also requires a review of the appropriateness and effectiveness of systems and procedures in relation to legislative compliance at least once every three financial years and a report to the Audit Committee on the results of that review.

1. The Shire will have appropriate processes and structures in place to ensure that legislative requirements are achievable and are integrated into the operations of the local government.
2. The processes and structures will aim to –

 - b) Assign responsibilities for ensuring that legislation and regulatory obligations are fully implemented.
 - c) Provide training for relevant employees, elected members, volunteers and other relevant people in the legislative requirements that affect them.
 - d) Provide people with the resources to identify and remain up-to-date with new legislation.
 - e) Establish a mechanism for reporting non-compliance.
 - f) Review accidents, incidents and other situations where there may have been non-compliance.
 - g) Review audit reports, incident reports, complaints and other information to assess how the systems of compliance can be improved.
3. Roles and Responsibilities
 - a) Elected members and committee members –

Elected members and committee members have a responsibility to be aware and abide by legislation applicable to their role.
 - b) Senior management –

Senior management should ensure that directions relating to compliance are clear and unequivocal and that legal requirements which apply to each activity for which they are responsible are identified. Senior Management should have systems in place to ensure that all staff are given the opportunity to be kept fully informed, briefed and/or trained about key legal requirements relative to their work within the financial capacity to do so.
 - c) Employees –
 - i) Employees have a duty to seek information on legislative requirements applicable to their area of work and to comply with the legislation.
 - ii) Employees shall report through their supervisors to Senior Management any areas of non-compliance that they become aware of.

4. Implementation of Legislation

The Shire will have procedures in place to ensure that when legislation changes, steps are taken to ensure that future actions comply with the amended legislation.

5. Legislative Compliance Procedures

a) Identifying Current Legislation –

The Shire accesses electronic up to date versions of legislation through the Department of Justice Parliamentary Counsel's Office website at www.legislation.wa.gov.au. Direct access to this site is provided from the Shire's networked computers.

b) Identifying New or Amended Legislation –

i) Western Australian Government Gazette

The Government Gazette publishes all new or amended legislation applicable to Western Australia. Copies of Government Gazettes are able to be downloaded from the State Law Publisher website at slp.wa.gov.au. It is incumbent on the CEO and Senior Staff to determine whether any gazetted changes to legislation need to be incorporated into processes.

The Shire receives regular circulars from WALGA and these circulars highlight changes in legislation applicable to local governments.

c) Obtaining advice on Legislative Provisions

The Shire will obtain advice on matters of legislation and compliance where this is necessary. Contact can be made with the Department of Local Government, Sporting and Cultural Industries, WALGA or the relevant initiating government department for advice.

d) Informing Council of legislative change

i) If appropriate the CEO will, on receipt of advice of legislative amendments, advise the Council on new or amended legislation.

Policy statement

This policy outlines the purpose, principles, and approach to ascertaining opinions of, and otherwise receiving feedback from, its diverse community and stakeholders including the specific interest of its Aboriginal people, facilitating, and promoting participation, in the local government's decision making processes and generally undertaking community engagement by the Shire of Narrogin

The policy will be applied by all employees and consultants appointed by the Shire when engaging those affected by and interested in decisions to be made by the Shire.

1. Purpose

The Shire of Narrogin is committed to providing opportunities for all members of the community to participate in civic decision-making processes.

The Shire recognises that the community is a source of knowledge and expertise, and this can be harnessed to help find solutions to local issues as well as complex Shire challenges. It also recognises that outcomes and advocacy efforts can often be better achieved through regional collaboration with other local governments with similar interest and objectives.

Community engagement is a key part of our commitment to be a transparent and responsive organisation. Our objective is to make better decisions by giving a voice to communities and stakeholders on matters and topics that are of interest and important to them and to develop and encourage a culture which respects and welcomes community input and specifically the particular interests of Aboriginal people, where reasonable and practical to do so.

2. Principles

The Shire of Narrogin's approach to community engagement is guided by the following principles:

2.1 We clearly communicate why we are engaging and the community's role in the engagement.

From the outset, we articulate the purpose of our engagement and what will happen as a result of any information gathered. We explain what level of influence the community, stakeholders and Council have on the decision to be made, and any associated limitations or constraints. We consider the requirements for each project and its level of potential impact on the community to determine the required level and timing of engagement. We provide all information necessary so participants can make informed choices.

2.2 We carefully consider who to engage.

Before we begin engaging, we identify communities and the diversity within those communities and stakeholders who are directly involved, or likely to be affected by the project. On major projects that

set a direction or define a position for the Shire, we encourage broad community participation to ensure that a diverse range of views and ideas are expressed and considered. We also consider barriers that prevent or deter people from participating in engagement activities and consider ways to minimise them.

2.3 We explain the process.

We aim to be transparent, and make our decision-making process clear. We do this by explaining upfront the process to be undertaken, identifying where there is opportunity for the community and stakeholders to have input, and where the decision-points are.

Where possible, we build on the outcomes of previous engagement. If the engagement crosses over with a previous engagement process, we explain the outcomes, identify how they relate to the current process and why a new process is required.

2.4 We carefully consider how to engage and ensure our processes, venues and information are accessible.

We recognise people engage with civic life in different ways depending on a number of factors, such as age, background and ability. We aim to be responsive to this broad spectrum of needs, and ensure there are multiple engagement methods in various settings, to achieve appropriate community participation.

We ensure our engagement is accessible by providing information in clear and easy to understand formats, or is available in alternative formats on request. Our engagement events and venues are designed to be accessible whenever practical and achievable.

2.5 We design our engagement to be engaging.

The Shire of Narrogin is working to continuously improve how we engage, and design approaches that are creative, relevant, culturally appropriate and safe and also engaging. We are open to new and innovative engagement methodologies, and we are working on ways to tailor our approach to draw people into the process and maximise the reach and impact of our engagement.

2.6 We complement our engagement with high quality communication.

We provide clear, comprehensive and accessible information, written in plain English, to stakeholders throughout the engagement process. Information about our engagement is available at Have Your Say on our website (<https://www.narrogin.wa.gov.au/have-your-say.aspx>) and through the Shire's usual communication channels.

2.7 We acknowledge contributions made during the engagement process and let participants know how their feedback was used in our decision-making.

We are transparent with the community about how their participation was considered, by reporting back what we heard from contributors and how their input has been incorporated in decision making.

We share the results of engagement through Have Your Say - (<https://www.narrogin.wa.gov.au/have-your-say.aspx>)

We also advise contributors when the matter is to be considered by Council so they may attend Ordinary Council Meetings if they wish.

3. Approach

3.1 When we engage

The Shire will engage with the community or other local governments when:

- Council resolves formally to engage.
- A decision or plan will substantially impact the community and there is some part of the decision or plan that is negotiable.

- Stakeholders or the community have expressed an interest, or could be interested in a decision or plan where there is a range of potential outcomes.
- Community input can enhance decision-making, project outcomes or future opportunities.
- There is legislation, policy or an agreement requiring community engagement or consultation.

3.2 How we engage

The level of engagement will vary depending on the nature and complexity of the project or decision and will be guided by the Shire of Narrogin community engagement principles as set out above in Section 2 of this Policy.

Consideration is given to matters like community and stakeholder interest, political sensitivity, opportunities for partnerships, the level of impact, legislative requirements, time and resource and budget constraints. These considerations will guide how and when in the life of a project or decision community engagement may offer the greatest benefit.

Quality community engagement is well planned and executed, inclusive and accessible to all members of the community.

At times Council will engage the community on issues that are of importance or interest to a specific part of the community. In this instance, engagement will be targeted towards this group.

The Shire's engagement approach has four stages to ensure we deliver a consistent approach to engagement activities. This includes: a process of planning (developing an engagement plan); doing (preparing and engaging); reporting (analysing information and providing updates on the engagement) and evaluating (both the process and outcomes).

The purpose of the engagement and the type of input that will assist with the decision to be made, is reflected in the way community engagement is planned and reported. We carefully consider aspects of both qualitative input (such as trends and thoughts) and quantitative input (such as number of participants) when designing engagement methods and reporting back what we heard.

The following matrix is used to assist in determining the most suitable approach, relative to the likely 'level of impact' of a project, plan, service or action. As highlighted by this matrix, there are four levels of engagement: Inform, Consult, Involve, and Collaborate. More than one level of engagement is generally required, as there is likely to be movement back and forth through the different levels as the engagement is implemented, except in the case of projects or issues with only a low level of impact of a localised nature or if there is a statutory requirement to consult (see 3.4).

3.3 When it is not effective or appropriate to engage

It is neither effective nor appropriate for the Shire to engage when:

- A final decision has already been made by council or another agency.
- Council cannot influence a decision by another agency or party.
- The decision to be made concerns a minor operational matter with minimal impact on the community or stakeholders.
- Implementing a project or decision that has already been subject to engagement.
- There is insufficient time due to legislative or legal constraints, or urgent safety issues to be addressed.

In these events, the Shire will inform stakeholders why the decision has been made.

3.4 Statutory engagement

In some instances, the Shire of Narrogin is legally required to consult with the community. In these cases, the Shire will treat the prescribed level of community engagement as the minimum standard.

The most common instance of this is in relation to development applications and other planning proposals. For planning proposals, the Shire relies on its policies, adopted under the Planning and Development Act 2005, for guidance in regard to consultation and this will continue to be the basis on which the Shire engages with the community on planning matters.

Delivery of community engagement beyond legally required levels will depend on the decision to be made (or project or service to be delivered), the community's interest to participate, the need for Council to understand the community's view, and the opportunity for the community to influence the decision.

3.5 Holiday periods and other seasonal times

The Shire will not commence an engagement process between the last Council meeting of the calendar year and the first Council meeting of the new-year, unless there is a legal requirement, Council direction or other unavoidable necessity to do so.

An additional 14 days will be added to any engagement period that falls between 15 December and 15 January and 7 days before and 7 days after Easter Sunday.

The Shire will be cognisant of not commencing an engagement process where the primary identified stakeholders and communities would seasonally, or culturally, be less likely to make comment.

Definitions and abbreviations

Objective

To ensure that Elected Members of the Shire of Narrogin receive appropriate information and training to enable them to understand and undertake their responsibilities and obligations.

Policy Statement

The Shire of Narrogin recognises the importance of providing Elected Members with the knowledge and resources that will enable them to fulfil their role in accordance with statutory compliance and community expectations and make educated and informed decisions.

Pursuant to the Local Government Act 1995, Elected Members must complete Council Member Essentials which incorporates the following training units:

- a) Understanding Local Government;
- b) Conflicts of Interest;

Council's preferred provider for the training is WALGA (WA Local Government Association).

All units and associated costs will be paid for by the Shire and must be completed by 30 June in the year immediately following the elected Member's election. The training is valid for a period of five years.

Additionally, the Shire will publish, on the Shire's website, training undertaken by all Elected Members within one month after the end of the financial year pursuant to Local Government Act 1995.

It is Council's preference that the training is undertaken via the eLearning method which is the more cost efficient form of delivery. Consideration of attendance at training or professional development courses, other than the online Council Member Essentials, or Diploma in Local Government (Elected Member), (payment in arrears on successful completion of each unit), which are both deemed to be approved, are to be assessed as follows:

- Events for the Shire President must be approved by the Deputy Shire President, in conjunction with the CEO; and
- Events for Councillors must be approved by either the Council or the Shire President, in conjunction with the CEO.

Policy Statement

The Shire of Narrogin supports and values all children and young people. The Shire of Narrogin makes a commitment to support the safety and wellbeing of all children and young people, including protection from abuse. This Child Safe Awareness policy is one of the ways the Shire of Narrogin demonstrates its commitment to being child safe and a zero-tolerance approach to child abuse. This policy outlines procedures for reporting concerns and maintaining secure, confidential records to support a safe and accountable environment.

This policy aims to reduce the risk of harm and child sexual abuse in our communities by encouraging child safe environments to be created and maintained. The Shire of Narrogin is committed to encouraging local organisations to be child safe and ensure children are safe and empowered.

This Child Safe Awareness policy has been developed in response to recommendation 6.12 of the Royal Commission into Institutional Responses to Child Sexual Abuse and recognises that the Shire of Narrogin is uniquely placed within the local community to demonstrate leadership by supporting organisations to be child safe and to protect children and young people from harm and/or abuse. The Shire of Narrogin will promote the safety and wellbeing of children across the community.

Consistent with the [National Principles for Child Safe Organisations](#) and [Commonwealth Child Safe Framework](#), this policy provides a framework that outlines the role of the Shire of Narrogin in supporting local organisations to be child safe through access to resources, awareness raising and sharing relevant information.

Scope

The safety and wellbeing of children is everyone's responsibility. This Child Safe Awareness policy applies to all, employees, volunteers, trainees, work experience students, interns, and anyone else who undertakes work on behalf of the Shire of Narrogin, regardless of their work related to children or young people. It applies to occupants of the Shire of Narrogin's facilities and venues, including visitors, contractors and suppliers.

This policy also applies to the reporting and handling of any concerns or incidents involving the safety or

wellbeing of children and young people in accordance with this policy.

Definitions

Abuse: Abuse is an act, or a failure to act, towards or on behalf of a child that may result in harm. It can occur on one occasion or multiple occasions. Sometimes the impact of multiple events leads to harm that becomes cumulative in nature. Types of abuse include physical, emotional and sexual abuse, and neglect.

Child/Children: Means a person under 18 years of age, and in the absence of positive evidence as to age, means a person who appears to be under 18 years of age.

Child Safe Organisation: is defined in the Royal Commission Final Report as one that:

- creates an environment where children's safety and wellbeing are at the center of thought, values, and actions;
- places emphasis on genuine engagement with and valuing of children and young people;
- creates conditions that reduce the likelihood of harm to children and young people;
- creates conditions that increase the likelihood of identifying any harm; and
- responds to any concerns, disclosures, allegations, or suspicions of harm.

Note: in the context of local governments, this would involve referring concerns to the Department of Communities or WA Police to respond as appropriate.

Implementation of the National Principles for Child Safe Organisations give effect to the above.

Child safe: For the purpose of this policy, child safe means protecting the rights of children and young people to be safe by taking actions that can help prevent harm and abuse.

Harm: Harm, in relation to a child, means any detrimental effect of a significant nature on the child's wellbeing, whether caused by a single act, omission or circumstance; or a series or combination of acts, omissions or circumstances.

Reportable Conduct: Behaviour by an adult that may involve sexual misconduct, physical violence, emotional harm, significant neglect, or any act that could cause serious harm to a child's wellbeing.

Wellbeing: Wellbeing of children and young people includes the care, development, education, health and safety of children and young people.

Policy Principles

- The rights of children and young people are upheld.
- Children and young people are respected, listened to, and informed about their rights.
- Children and young people have the fundamental right to be safe and cared for.
- Children and young people have the right to speak up, be heard and taken seriously without the threat of negative consequences.
- The safety and best interests of children and young people are a primary consideration when making decisions that concern them.
- Access to trusted and reliable information, including the National Principles for Child Safe Organisations, helps support organisations to understand what they must do to help reduce the risk of harm and abuse.
- Communities are informed and involved in promoting the safety and wellbeing of children and young people including protection from harm.
- Collaboration with the community and our partners promotes the safety, participation and empowerment of all children and young people.

Policy Functions

The Shire of Narrogin will ensure the following functions of this policy are resourced and assigned to the relevant officers for implementation.

- Developing a process to deliver child safe messages (for example at the Shire of Narrogin's venues, grounds and facilities or events).
- Connecting and supporting local community groups, organisations, and stakeholders to child safe resources (including culturally safe and inclusive resources).

Responsibilities

The Shire of Narrogin has a leadership role in our community to support relevant organisations to be child safe and promote child safe practices.

Although the Shire of Narrogin is not legally responsible for providing oversight of compliance with child safe practices, it will take any reasonable steps to engage with persons who utilise the Shire of Narrogin facilities to operate in alignment with the Child Safe Awareness policy.

All individuals covered by this policy have a responsibility to report suspected reportable conduct in accordance with the procedures outlined. The Shire will ensure appropriate record-keeping systems and processes are in place to securely manage such reports.

The Shire of Narrogin's Chief Executive Officer will determine which roles across the organisation will directly support the implementation of the Child Safe Awareness policy and provide administrative resources and training to employees where required, to ensure its success.

Reportable Conduct

The Shire of Narrogin is committed to ensuring any concerns, allegations, or suspicions of reportable conduct involving children or young people are taken seriously and responded to appropriately.

Reportable conduct refers to any behaviour by an adult that may involve:

- Sexual offences or sexual misconduct involving a child;
- Physical violence or serious emotional harm against a child;
- Significant neglect of a child; or
- Any behaviour that causes significant harm to a child's wellbeing.

- Staff, volunteers, contractors, and others engaged by the Shire who become aware of, witness, or suspect reportable conduct must notify their supervisor or the Chief Executive Officer immediately.
- The Shire will cooperate fully with any investigations and ensure confidentiality and procedural fairness are upheld.
- Appropriate support will be offered to affected children, families, and staff throughout the process.
- Disclosures may also be made via the Shire's website at www.narrogin.wa.gov.au/child-safety-awareness.aspx, where a secure disclosure form is available.

All records will be:

- Managed in accordance with the *Shire of Narrogin's Record Keeping Plan*,
- Stored securely with restricted access, and
- Retained in line with relevant legislative, regulatory, and archival requirements.

1.21 Freeman of the Shire

Responsible Executive	Chief Executive Officer	
Statutory context	Former Local Government Act 1960 (s 157).	
Corporate context	Australia Day and Honours Advisory Committee (and Terms of Reference)	
History	Adopted	22 November 2023
	Reviewed	28 May 2025

Introduction

The Shire of Narrogin from time to time acknowledges the remarkable contributions of individuals to our community by granting them the honorary title of Freeman of the Shire of Narrogin. This policy provides clarity and guidance on the invitations extended to Freeman that are still living, to various civic functions and events, emphasising their special connection to the Shire. The term Freeman in the context of this policy is a gender-neutral designation.

In 1965, amendments were made by the Western Australian Parliament to the then Local Government Act 1960, to insert a power for local governments to, by Absolute Majority and with the approval of the Minister, confer upon any person the title of 'Honorary Freeman of the Municipality'. The title of 'Freeman' has its origins in mediaeval European history when a man who was bound to serve a landowner could, by special decree, be declared a 'free man' and so be freed of former obligations to the landlord. In more modern usage, 'Freeman' is used to describe an honour bestowed on a person by a local government who has made a lasting and exceptional contribution to a district. It does not confer any special entitlements (other than reserved seating at local government events) and is the highest honour that a local government can bestow, and unless otherwise rescinded, is bestowed for life.

With the passage of the 1995 Act, the dedicated legislative power for local government disappeared and was absorbed within the general function under section 3.1 of the Local Government Act 1995 (the Act) to provide for the good government of persons in its district and the executive functions under the Act. While the dedicated legislative power to award the title was repealed, many local governments across the state have continued the practice as a means of recognising exceptional contributions, often but not always, made by long-serving and retired Elected Members. In the absence of a legislative power, the framework for appointing a Freeman is set out in this policy.

Criteria for Freeman Status

Freeman of the Shire of Narrogin is an esteemed title awarded to individuals who have demonstrated exceptional dedication and service, significantly advanced the Shire's strategic interests and benefitted the greater community.

Each application for Freeman status shall be assessed on its merits, considering the nominee's profound contributions to the Shire of Narrogin.

Nomination Process

The community is encouraged to nominate individuals for consideration as Freemans at any time. Nominations must be submitted in writing, addressing them confidentially to the Chief Executive Officer. Nominees should not be consulted or informed of their nominations.

The Council will deliberate on nominations in a confidential "in-camera" setting in accordance with the following principles established below under the Eligibility & Selection Criteria.

Entitlements of Freeman

Any individual granted the title of Freeman of the Shire of Narrogin may officially use this designation.

Freeman shall be honoured with a special badge and certificate during a ceremony hosted by the Council to acknowledge their Freemanship.

Freeman are invited to all civic functions and events free of charge including to the following the non-exhaustive list:

- Shire of Narrogin's Foundation Day Celebrations.
- Annual Civic Awards Ceremony.
- Swearing-in Ceremonies for Elected Members.
- Opening Ceremonies of Civic Buildings.
- Special Commemorative Events.
- Community (Shire Sponsored) Festivals and Parades.
- Other significant community events as determined by the Shire President, Chief Executive Officer or the Council.

Freeman are recognised on the Shire of Narrogin's Freeman Honour Board in the Chambers and on the Shire's website.

A photograph and plaque of the Freeman should be displayed in a prominent location within the Administration of the Shire of Narrogin to commemorate their invaluable contributions.

Notes

Approved purchasing limits assigned to employees are determined by the CEO.

Clause 7(c) is consistent with the Local Government (Functions and General) Regulations 1996 r.11(1A) and (3)(b)

Policy Schedule 3.1(a) – Purchasing Principles

The object of the Purchasing Framework is to –

- obtain quality goods and services that are judged to deliver the best value-for-money or be the most advantageous,
- provide compliance with the Local Government Act, 1995 and the Functions and General Regulations,
- deliver a best practice approach and procedures to internal purchasing for the Shire,
- ensure consistency for all purchasing activities that integrates within all the Shire operational areas.

1. Ethics & Integrity

All officers and employees of the Shire shall observe the highest standards of ethics and integrity in undertaking purchasing activity and act in an honest and professional manner that supports the standing of the Shire.

The following principles, standards and behaviours must be observed and enforced through all stages of the purchasing process to ensure fair and equitable treatment of all parties –

- full accountability shall be taken for all purchasing decisions and the efficient, effective and proper expenditure of public monies based on achieving value for money,
- all purchasing practices shall comply with relevant legislation, regulations, and requirements consistent with the Shire policies and Code of Conduct for Employees,
- purchasing is to be on a competitive basis in which all suppliers are treated impartially, honestly and consistently,
- all processes, evaluations and decisions shall be transparent, free from bias and fully documented in accordance with applicable policies and audit requirements,
- any actual or perceived conflicts of interest are to be identified, disclosed and appropriately managed,
- any information provided to the Shire by a supplier shall be treated as commercial-in-confidence until such time as the purchase decision is made, and is not be released unless authorised by the supplier or relevant legislation, and
- consideration must be given to any Local Price Preference Policy adopted by Council.

2. Value for Money

Value for money is an overarching principle recognised by the Regulations, that allows the best possible outcome to be achieved for the Shire. Compliance with the specification is more important than obtaining the lowest price, particularly taking into account user requirements, quality standards, sustainability, life cycle costing, and service benchmarks.

What constitutes “value for money” or “most advantageous” considerations are to be itemised and detailed as part of evaluation.

An evaluation of the best value for money outcome for any purchasing should consider –

- all relevant whole-of-life costs and benefits (for goods) and whole of contract life costs (for services) including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, maintenance and disposal,
- the technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality,
- financial viability and capacity to supply without risk of default. (Competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history),
- a strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable,
- continuity of supply or service, and particularly timeliness of any warranty service, emergency or maintenance/repair response, familiarity with works/conditions etc
- where a new or start up business makes a submission, the anticipated longevity of the business, its relevance to the region and if goods or service previously not available in the region.

Where a higher priced conforming offer is recommended, there should be clear benefits over lower priced conforming offers.

3. Sustainable Procurement

Sustainable procurement is defined as the procurement of goods and services that have less environmental and social impacts than competing products and services, and considerations must be balanced against value for money outcomes.

– End of Schedule

Policy Schedule 3.1(b) – Purchasing Thresholds and Requirements**1. Purchasing Thresholds**

1. Any work done under warranty / guarantee is not considered to be a purchasing activity, but is a part of the original contract / agreement to purchase. Any purchase order issued for warranty / guarantee work is to note this on the purchase order.
2. Any work done outside of warranty / guarantee, even if it may affect warrant / guarantee, is a purchasing activity. Management of that risk is an administrative task, and may be a factor in a “value for money” consideration.

Where it is considered beneficial, tenders may be called in lieu of seeking quotations for purchases under the \$250,000 threshold (excluding GST). If a decision is made to seek public tenders for contracts of less than \$250,000, a Request for Tender process that entails all the procedures for tendering outlined in this policy must be followed in full.

WALGA Preferred Supplier or State Government Common Use Agreement

Policy 3.1 Purchasing Framework adopted by Council stipulates –

Where the goods or services are to be accessed from the WA Local Government Association Preferred Supplier Panel or State Government Common Use Agreement, compliance with Policy Schedule 3.1(b) Purchasing Thresholds, clause 1 is required.

2. Quotations / Submissions

The general principles relating to written quotations / submission are –

- An appropriately detailed specification should communicate requirement(s) in a clear, concise and logical fashion.
- The request for written quotation should include as a minimum:
 - o written specification
 - o assessment criteria to be applied
 - o price schedule
 - o conditions of responding
 - o validity period of offer
- Invitations to quote should be issued simultaneously to ensure that all parties receive an equal opportunity to respond.
- Offer to all prospective suppliers at the same time any new information that is likely to change the requirements.
- Responses should be assessed for compliance, then against the selection criteria, and then value for money and all evaluations documented.
- Respondents should be advised in writing as soon as possible after the final determination is made and approved.

The Local Government Purchasing and Tender Guide produced by the Western Australian Local Government Association (WALGA) should be consulted for further details and guidance.

If it is not possible to get written quotations, a supplier’s verbal “decline to quote” will be sufficient, and is required to be noted with details of date, and name of person who declined.

3. Specifications, Assessment Criteria and Evaluation

Applies to all procurements as determined by the thresholds in clause 1 –

- a) Where a specification is provided or required by clause 1 – What is required to be in the specification may include –
 - Details, format and request to be appropriate to the procurement
 - How many / how much,

- what size / power etc,
 - how fitted out,
 - standard / quality required,
 - type of construction,
 - where the work / product is to be delivered etc
- b) If a written specification has been issued the assessment criteria is to be included in the written specification.
- c) In any event, assessment criteria are to be determined prior to evaluation – How the submission is to be assessed and scored, and may include –
- Details and record to be appropriate to the procurement
 - Local provider or external
 - Standard of work, quality of item
 - Reliability, service, warranty
 - References
 - Price etc
- d) After close of submission period, evaluation is to be made based on the following– How the submission was actually assessed and scored –
- To what extent was each specification met,
 - How does submission measure against each criteria
 - Which score provides best value for money

Where required and prior to submissions being requested, the specifications for the procurement and the assessment criteria for determining the procurement are to be determined in writing –

- for quotations – by the purchasing employee, and approved by the relevant Executive Manager within their approved purchasing limits, otherwise by the CEO
- for tenders – by the purchasing employee, approved by the relevant Executive Manager, and authorised by the CEO under delegated power.

If required or appropriate, any Evaluation Panel is to be established prior to the request for submissions being with a mix of skills and experience relevant to the nature of the purchase. The Panel is to assess the submissions against the specifications set, the assessment criteria, value for money, local price preference and any other relevant matter.

– End of Schedule

Policy Schedule 3.1(c) – Regulatory Compliance**1. Tender Exemption**

In some instances public tenders or quotation procedures are not required, regardless of the value of expenditure. The permitted exemptions are stipulated in the Local Government (Functions and General) Regulations 1996 r.11.

2. Sole Source of Supply (Monopoly Suppliers)

- a) Procurement from only one private sector source of supply, (i.e. manufacturer, supplier or agency) is permitted without the need to call competitive quotations provided that –
 - there must genuinely be only one source of supply
 - every endeavour to find alternative sources has been made,
 - written confirmation of this must be kept on file for later audit.
- b) The application of provision “sole source of supply” should only occur in very few cases and procurement experience indicates that generally more than one supplier is able to provide the requirements.
- c) Purchase orders issued to a sole supplier are to be signed –
 - where the purchase is \$10,000 or more – by the CEO.
 - where the purchase is less than \$10,000 ex GST – by the CEO or relevant Executive Manager.

4. Tender Criteria

- a) The CEO under delegated power shall, before tenders are publicly invited, determine in writing the criteria for deciding which tender should be accepted.

5. Receiving and Opening Tenders

- a) All tenders must be clearly marked, sealed and placed in the locked tender box until the official opening.
- b) When lodgement of tenders by email is permitted, the email is to be sent to a separate email inbox that remains unused until the close of the tender period.
- c) When tenders are opened there must be at least two employees present, or one local government employee and at least one person authorised by the CEO.

6. Tender Evaluation

- a) Evaluation is to be recorded against the specifications set and assessment criteria established. Reasons for the decision are to be recorded.
- b) Where required by Schedule 3.1(b) an evaluation panel will be established and include a mix of skills and experience relevant to the nature of the purchase.

7. Tender Acceptance

Unless authorised by Council, and delegation of acceptance has been made to a specific Committee or the CEO, all tenders and procurement over \$250,000 are to be presented to Council for decision.

8. Records Management

- a) All records associated with the procurement process must be recorded and retained. For a tender process this includes –
 - Tender documentation, including specifications and assessment criteria,
 - Internal documentation,
 - Evaluation documentation,
 - Enquiry and response documentation,

Policy Schedule 3.2 – Regional Price Preference

1. Definitions

price preference is the application of a discount to the price when comparing submitted prices only, so as to give a marginal advantage to a regional offer, and does not refer to the price that is to be accepted.

preference region is specified as the geographical area which comprises the whole of the Shires of Narrogin, Cuballing, Wickpin, Williams, Wagin and West Arthur.

regional tenderer as defined under the *Local Government (Functions and General) Regulations 1996* s 24B(2) as a supplier that has been operating a business continuously out of premises within the region for at least 6 months and submits a tender for the supply of goods and/or services.

start-up businesses means a business of less than 10 employees, which has commenced within the preceding 6 months prior to closing date of tender, or would be established specifically for the purposes of the tender.

regional content preference is the incentive for businesses/contractors outside the region to purchase goods, services and construction from within the region, but excludes travel and accommodation costs.

tenderer includes a new or start up business where the owner or provider has been resident of the region for at least 6 months.

2. Preference principles

The Shire will encourage local industry to do business with the Shire by providing incentive through the adoption of a regional price preference advantage in conjunction with standard evaluation considerations, and as part of usual procurement consideration.

The price preference will apply to suppliers who are based in, and operate from the preference region in relation to all purchasing by the Shire for the supply of goods and services and construction (building) services, unless specifically stated otherwise, providing they are competitive in regard to specification, service, delivery and price.

3. Start-up Businesses

Where a new or start up business having less than 10 employees makes a submission, the anticipated longevity of the business, its relevance to the region and if goods or service previously not available in the region, are to constitute a component of “value for money” or “most advantageous” considerations as per Function and General Regulations r.24D(3). Reasons are to be itemised, and detailed as part of the “value for money” evaluation in accordance with Policy Sch.3.1(a) – Purchasing Principles.

4. Regional business preference

This preference enables businesses/contractors within the preference area to claim a price preference for their whole bid, regardless of the origin of the labour or materials, as all labour and materials are deemed to be regional content.

The following levels of preference are to be applied to whole of contract for all purchasing under this provision –

Reduction % to be applied to whole of purchase	Contract for	Maximum reduction value per purchase
10%	Goods or services	\$30,000
5%	Construction (incl. building and roadworks etc) services	\$50,000

To qualify as a local business/contractor, a supplier must meet the following conditions –

- A permanent business location in the preference region for at least six (6) months. *Local Government (Functions and General) Regulations 1996* states that the 6 month calculation is based on the period prior to when the tender closes.
- Have permanent staff based in the preference region
- Management and delivery of the majority of the quotation / contract will be carried out from their business location in the preference region.

The price of the bids from the local businesses/contractors will be reduced / discounted for evaluation purposes only, by the percentage to the maximum value set out in this clause.

5. Regional Content Preference

Some businesses / contractors may be based outside the preference region, but utilise significant resources based in the preference region. This preference provides an incentive for businesses / contractors outside the preference region to purchase goods, services and construction from within the preference region.

The preference applies to the value of the goods, materials or services that are purchased from within the preference region and are referred to as *Regional Content*.

The following levels of preference are to be applied to the portion of the proposal claimed / identified as the Regional Content portion of the contract for all purchasing under this policy –

Reduction % to be applied to Regional Content only of purchase	Contract for	Maximum reduction value per purchase
10%	Goods or services	\$30,000
5%	Construction (incl. building and roadworks etc) services	\$50,000

Regional content limitations for suppliers based outside the preference region are –

- a) some or all of the goods, materials or services are to be supplied from regional sources. The preference only applies to that part of the tender or quote that has been supplied from regional sources, which needs to be specified in the submission.
- b) businesses outside of the preference region who claim that they will use regional business in the delivery of the contract outcomes:
 - must stipulate who the regional provider will be and the value of the regional content, and
 - will be required as part of the contract conditions, to demonstrate that they have actually used the regional provider.

The price of the bids from the businesses/contractors using preference region content will be reduced for evaluation purposes and for that component of the bid only, by the amounts set out in above.

6. Scope

It should be noted that price is only one factor to be considered when the Shire assesses submissions. Accordingly, a regional submission where price is within the preference is not guaranteed of procurement, as the submission must also meet other relevant criteria, as per Policy 3.1 – Purchasing Framework.

3.6 Rating – Merger Parity Transition

Responsible Executive Executive Manager Corporate & Community Services

Statutory context Local Government Act 1995

Corporate context Memorandum of Understanding – former Shire and Former Town of Narrogin

History	Adopted	26 April 2017
	Reviewed	7 June 2021
	Reviewed	26 April 2023
	Amended	24 May 2023
	Reviewed	28 May 2025

Policy Statement

1. Memorandum of Understanding

Council confirms the agreement of the Memorandum of Understanding (MOU) made between the former Shire of Narrogin and former Town of Narrogin and signed in March 2015, and applying from the 2016/17 Budget as follows –

4.16 Rating – Parity Factor

It is agreed that to achieve parity of rating within the GRV and UV individual categories that –

- Calculation of the “parity factor” will be on the basis of a fixed base-line year of 2015/2016 using the principles outlined in the Proposed Merger Report of February 2014.
- The “parity factor” is to be applied to each rate category over an appropriate period, so that –
 - Equity in the New Entity is achieved for the GRV category, and
 - “Parity factor” for the UV category is calculated with the Shire of Wagin as the selected comparative Shire and updated from the 2015/2016 Budgets.
- After application of the “parity factor”, the “natural increase” that is generally consistent across all rates categories and type be applied only to the extent necessary to meet budget requirements,
- The parity factor does not necessarily mean equality of rate in \$, but what is considered to be a reasonable and appropriate level considering access to amenities, facilities used, and services provided.
- A Joint Merger Policy is to be prepared for the calculation of parity factor increase for each rate category and is to take into account that –
 - The % rates quoted on the Report and below are referenced to the Comparison Year, and are to be considered as indicative,
 - The % rate referenced to the Base Line Year is to provide for the annual cumulative effect over the period phased in.
- The concepts of “parity factor” and “natural increase” are to be used as the methodology to calculate a cumulative rate in \$ for each individual prescribed attribute/zoning for which a differential rate/\$ is to apply, and not implemented as a two tier differential rate in \$.

Report Comparison Year 2013-2014		Base-Line Year 2015/2016
Annual Parity Factor Over 10 Years		Annual Parity Factor Over 10 Years
3.9%	UV – Rate in \$	To be re-calculated and inserted once 2015/2016 Budgets adopted by – <ul style="list-style-type: none"> Shire of Narrogin Town of Narrogin Shire of Wagin
7.8%	UV – Minimum	
10.5%	GRV – Rate in \$	
7.8%	GRV – Minimum	

3.3%	GRV – Rural Townsite Minimum	
------	-------------------------------------	--

4.17 Rating – Unimproved Values

- a) Unimproved rates should be increased –
 - Annually, by the parity factor as calculated for Base Line Year in 4.16 above,
 - The factor as calculated at that date, together with any natural increase annually, is intended to be applied equally over a period of 10 years,
- b) The parity factor is set from the 2015/2016 calculation and is not designed to achieve the same rate in \$ with the Shire of Wagin either annually or at the end of the 10 year period.

4.18 Rating – Gross Rental Values

- a) Differential rating provisions will be utilised to phase in and maintain an equitable level of rating across the New Entity.
- b) As a new Local Planning Scheme will apply the same zoning to land in the Shire as in the Town, Governor's Orders should include the capacity for differential rating on the basis of location in the former Shire or former Town, should the New Entity choose to exercise this option.
- c) It is agreed that the provisions of the Financial Management Regulation r.52A(2) should be used for the five years permitted to achieve 50% of the calculated "parity gap".
- d) Subject to any Governor's Order issues pursuant to clause 4.16(1), it is further agreed that following the 5 year period permitted by Financial Management Regulation r.52A(2), the differential rating provisions in the Act should be used for a further 5 year period to address the remainder of the "parity gap".
- e) The intent of differential rating of GRV properties is to phase in rate increases of similarly zoned land –
 - Annually, by the parity factor as calculated for Base Line Year in 4.16 above,
 - The factor as calculated at that date, together with any natural increase annually, is intended to be applied equally over a period of 10 years,

2. Parity Factors

Parity factors calculated in May 2016 for properties in the former Shire of Narrogin, in accordance with the MOU and used for differential rating in 2016/2017 Budget –

Annual Parity Factor - Compounding % Increase	2015/2016 Rate/\$	2015/2016 Target Rate/\$	Total Parity % Increase	Years for phase in	Annual Increase Compounding %

Minimum – Rural Townsite (75%)	590.00	754.50	27.9%	10	2.49%

Notes

Memorandum of Understanding

The MOU signed in March 2015 formed the foundation of the agreement between the former Shire and the former Town. A critically important component of that agreement was the process for achieving rating equitability between the two former local governments, as outlined above.

Parity Factor

As per the MOU, the parity factor was recalculated on the basis of the 2015/2016 rate increases of the relevant local government and incorporated into the calculation of the differential rating proposal put to the Town of Narrogin Council on 10 May 2016, advertised in accordance with the Governor's Order and subsequently adopted.

Unimproved Value

The Unimproved Value Target Rate/\$ for 2015/16 is that of Shire of Wagin as per the MOU.

COVID-19

The impact of COVID19 resulted in no rate rises in the 2020/21 financial year, being year 5 of the Parity Schedule; and therefore the transition to parity has been extended by one (1) year to comply with the agreed transition period of ten (10) years and in accordance with the agreed Memorandum of Understanding.

Addendum to Council Policy 3.6 – Rating Merger Parity Transition

- i. The table below is an addendum to Policy 3.6 and informs readers of the annual increases in the rate in the dollar applied for those properties affected by differential rating, in accordance with the Merger Report in February 2014 and the subsequent agreement of Memorandum of Understanding in March 2015.
- ii. This addendum, will be updated on an annual basis to reflect the annual increases of GRV and UV minimum and rates in the dollar for the affected properties that are UV or differentially rated within the Shire of Narrogin until the ten (10) years of transition are completed.
- iii. It is noted, that the transition period of ten (10) years has been extended to eleven, due to the COVID-19 pandemic and the subsequent decision by the Council not to increase rates in the 2020/21 financial year.

All investments obtained must comply with three key criteria relating to –

- Portfolio Credit Framework limit overall credit exposure of the portfolio
- Counterparty Credit Framework: limit exposure to individual counterparties/institution; and
- Term to Maturity Framework: limits based upon maturity of securities.

Portfolio Credit Framework

To control the credit quality on the investment portfolio, the following credit framework limits the percentage of the portfolio exposed to any particular credit rating category.

S&P Long Term Rating	S&P Short Term Rating	Direct Investment Maximum
AAA	A-1+	100%
AA	A-1+	100%

A	A-1	60%
BBB	A-2	20%

If any of the investments within the portfolio are subject to a credit rating downgrade such that the portfolio credit percentage are no longer compliant with the Investment Policy, the investment will be diverted as soon as practicable.

Counterparty Credit Framework

Exposure to an individual counterparty/institution will be restricted by its credit rating so that single entity exposure is limited, as detailed in the table below –

S&P Long Term Rating	S&P Short Term Rating	Direct Investment Maximum
AAA	A-1+	50%
AA	A-1+	50%
A	A-1	20%
BBB	A-2	10%

If any of the investments within the portfolio are subject to a credit rating downgrade such that the portfolio credit percentage are no longer compliant with the Investment Policy, the investment will be diverted as soon as practicable

Term to Maturity Framework

The investment portfolio is to be invested within the following maturity constraints –

Investment type	Term to Maturity
Authorised Deposit-taking Institution Deposits	< 12 months
State/Commonwealth Government Bonds	< 3 years

9. Reporting and Review

A monthly report on the investment portfolio is to be made to the Council, listing for each investment the institution, amount, term to maturity, maturity date, amount interest rate, and % of total portfolio represented by the individual investment. A summary of the composition of the investment portfolio by credit rating and institution will also be included.

Policy Statement

All cardholders must have the authority of the Chief Executive Officer to commit Council to expenditure.

1. Definitions

Cardholder means an employee who has been authorised by the Chief Executive Officer to incur expenditure by means of a transaction card.

Transaction Card means a card facility (which may include; credit, debit, store, parking, cab-charge and fuel cards) approved for use in lieu of cash transactions, to incur expenditure for goods and services for the purposes of the Shire of Narrogin business activities only in accordance with relevant Shire policies.

2. Determining When Transaction Card Facilities are Appropriate

- a) Transaction Card facilities may be implemented and maintained where the card facility provides benefit to the Shire of Narrogin operations by ensuring –
 - i) goods and services can be obtained in a timely and efficient manner to meet the business needs of the Shire;
 - ii) financial management and accounting standards are met; and
 - iii) purchasing and payment functions are secure, efficient and effective.
- b) Transaction card facility providers will only be acceptable where, in the opinion of the Chief Executive Officer, they –
 - i) provide appropriate and sufficient statement, administration and acquittal controls that enable the Shire to sufficiently administer the facility; and
 - ii) provide the Shire with protection and indemnification from fraudulent unauthorised transactions.

3. Management Oversight

The Chief Executive Officer shall determine and implement systems and procedures that are adequate to ensure –

- a) assessment and selection of transaction card facilities suitable to the efficient and effective operations of the Shire;

- b) authorisation and appointment of suitably eligible cardholders;
 - c) cardholder duties and responsibilities are documented; and
 - d) cardholders provided with training; and
 - e) monitoring and auditing of transactional card activities is planned and reported.
4. Reporting
The Chief Executive Officer will ensure that acquitted transaction statements for each transaction card facility are provided to Council as part of the monthly financial reporting regime.
5. Misuse, Misconduct and Fraudulent Use
- a) Any alleged misuse of transaction cards will be investigated and may be subject to disciplinary procedures.
 - b) Where there is reasonable suspicion of misconduct or fraudulent activity arising from transaction card facilities the matter will be reported to the appropriate regulatory agency, subject to the requirements of the *Public Sector Management Act 1994* and the *Corruption, Crime and Misconduct Act 2003*.
6. Principles for usage – Allowable transactions
- a) Transaction card facilities may only be used where –
 - i) the expenditure is directly arising from a Shire operational business activity for which there is an Annual Budget provision;
 - ii) the expenditure is in accordance with legislation, the Shire Purchasing Policy, Code of Conduct for Employees and any conditions or limitations applicable to the individual Cardholder.
 - iii) the procurement of the required goods or services is impractical or inefficient if undertaken via a purchase order or is not able to be obtained other than by a transaction card;
 - iv) supplier surcharges (fees) on transactions are minimised and only allowable where the alternative method of obtaining the supply (i.e. by purchase order) is more onerous, not cost effective or there is no alternative mode of supply.
 - v) hospitality expenditure may only occur when it is in accordance with any Shire Hospitality Policy or is undertaken with the express permission of the Chief Executive Officer.
 - vi) official travel, accommodation and related expenses may only occur in accordance with Shire policies and procedures;
 - vii) a sufficient record of each transaction is obtained and retained in the local government record.
 - b) Allowable transaction modes include –

 - iv) incurring capital expenditure;
 - v) incurring expenditure for goods or services which are subject to a current supplier contract;
 - vi) incurring expenses which are not in accordance with legislation, the Shire's Purchasing Policy, the Annual Budget and / or the conditions or limitations relevant to the individual cardholder;
 - vii) Apart from approved credit cards, expenses cannot be incurred for which another transaction card is the approved facility;
 - viii) splitting expenditure to avoid compliance with the Purchasing Policy or to negate limits or conditions applicable to the Cardholder; and
 - ix) incurring expenses for the primary purpose of obtaining personal advantage through the transaction (i.e. membership or loyalty rewards).

- b) For clarity, elected members are prohibited from using Shire transaction cards as the *Local Government Act 1995* does not provide authority for an elected member to incur liabilities on behalf of the local government. The Act limits local governments to only paying elected member allowances and reimbursing elected member expenses.

 - i) keep the transaction card and access information in a safe manner; protected from improper use or loss.

 - iii) approval of the expense in (ii) above is to be referred to the Chief Executive Officer for a decision.
 - b) Where a transaction card is used to incur an expense for hospitality, the transaction record must include for the purposes of Fringe Benefits Tax calculations and probity –

 - ii) the names of any employees in that number; and

- a) Card statement accounts will be issued to the relevant cardholder who will, within 7 days, acquit the transactions on the account.

 - d) Should approval of expenses be refused by the Chief Executive Officer recovery of the expense shall be met by the cardholder.
 - e) The cardholder shall sign and date the card statement with supporting documentation attached stating all expenditure is of a business nature.

14. Procedures for Lost, Stolen and Damaged Cards

- b) The loss or theft of a transaction card must be reported to the card provider as a matter of priority.

- 16. Complaints regarding elected members are to be directed to the CEO who is responsible for the initial investigation and administrative responses. Matters that may require disciplinary action are to be referred to the Shire President and dealt with under the Policy 1.1 Code of Conduct.
- 17. Complaints from Councillors, the Ombudsman, the Local Government Department or from Members of Parliament shall be referred to, and dealt with by, the CEO unless the complaint relates to the CEO whereupon the complaint will be dealt with by the Shire President.

- 20. Complainants are to be advised that anonymous complaints may not be processed as it is possible that they may be mischievous or vexatious. Depending on the nature of the complaint, it will be at the discretion of the receiving employee to act or refer the complaint or not to deal with the complaint.

21. If a complainant cannot be satisfied immediately, or on the same day, the designated receiving employee shall immediately issue to the complainant a written acknowledgement of the complaint and if need be, refer to the complaint and a copy of the acknowledgement to a senior employee, or the CEO, as is appropriate, for investigation and determination of the complaint.
22. The standard response times when dealing with complaints are those in the Customer Service Charter.
23. Where a complainant is advised of a likely delay to the handling of the complaint and the complaint is not finalised within a reasonable period of time, the complainant is to be provided with status reports from time to time until the complaint is satisfied.

25. The designated receiving employee of any complaint shall be responsible for ensuring that all details pertaining to the complaint are recorded in the system established under clause 24.

Outcomes

26. Where a complaint has been investigated and found to be justified, the relevant employee who dealt with the complaint will ensure that the remedy is carried out, will advise the complainant that the Shire does acknowledge substance in the complaint and the specific action that will be taken by the Shire to respond to the circumstances of the complaint. The employee will, if appropriate, make follow-up contact with the complainant to ensure that the complaint has been resolved satisfactorily.
27. Where a complaint may identify the need for a review of procedures to prevent re-occurrences, relevant staff are to implement any required changes which they feel appropriate. If the matter cannot be easily remedied by the employee, he or she must liaise with his/her Manager or the CEO to agree on a course of action.
28. Where the complaint identifies a need for a change of Council policy in a particular area or a need for additional resources, the matter shall be referred to Council as early as practicable.

31. The Shire may restrict, withhold or withdraw the provision of service to unreasonable complainants by taking one of the following actions –

- a) require the complainant to make an appointment to meet with employees;
 - b) limit all future dealings to writing;
 - c) only respond to future correspondence which provides significant new information about the complaint or raises new issues which the Shire believes warrant fresh action; and
 - d) direct all contact to be through a specific employee or area.
32. The decision to determine an unreasonable complainant or to restrict, withhold or withdraw contact with the Shire will only be made by the Chief Executive Officer.

3.13 Rating Principles & Change in Predominant Use of Rural Land

Responsible Executive Executive Manager Corporate & Community Services

Statutory context Local Government Act 1995 – s.6.26 to s.6.82
Local Government (Financial Management) Regulations 1996 – r.55 – Rate record, form of etc. (Act s.6.39(1))
Local Planning Scheme No. 3

Corporate context Delegation 3.5 – Rates Record, Extensions and Objections

History	Adopted	28 July 2020
	Reviewed	26 April 2023
	Amended	24 May 2023
	Reviewed	28 May 2025

Policy Statement

The principles to be observed when implementing Council's rating strategies and policies are:

- Objectivity;
- Fairness and equity;
- Consistency;
- Transparency; and
- Administrative efficiency.

The key premise upon which this Policy is structured is that rates will be based on the "use" of a property or portion of a property.

All lots within a townsite boundary will be rated on the basis of Gross Rental Value (GRV).

All lots outside a townsite boundary, above 20 ha and zoned rural, and used for rural activities, will generally be rated on the basis of Unimproved Valuation (UV). Other lots outside a townsite boundary will be determined in accordance with the principles of this Policy.

Where the predominant use of a lot or property is rural, the basis of rating will be Unimproved Value (UV). Where the predominant use of a rural property or lot or portion of a lot is a clearly identifiable and significant activity that is non rural, the basis of rating will be Gross Rental Value, possibly if necessary to achieve the principles, by applying a "Spot (or Split) Value".

For rate assessments that are for one lot or location only, the predominant use of that property must be determined. For rate assessments that are for more than one lot or location the predominant use of the whole property must be considered. Where the predominant use cannot be clearly identified or where two or more significant activities occur, Council may apply spot or split rating (in circumstances where the projected increase in rates revenue is likely to exceed the cost of undertaking that split).

The predominant use of land is to be determined by assessment of the following non exhaustive and mutually exclusive criterion:

- If one of the activities is more noticeable or imposing than the other activities occurring on the land;
- The nature, scale, frequency & duration of the activities on the land;
- Impact on public infrastructure above that of rural activity traditionally contemplated by the Local Planning Scheme No. 3;
- The locality or impact on amenity in which the land is situated;
- The size of the property;
- The zoning of the land;
- Whether a Development Application was required for the particular activity; and
- Whether there is promotion of the activity being conducted on the land.

Where there is evidence that there has been a change in the predominant use of rural land, resulting from either the subdivision or amalgamation of rural land, or development of that land, the Shire will ensure that any rural property, where the valuation method is Unimproved Value (UV), is accurately assessed in the determination of its predominant use as that of rural, or otherwise.

Where rural land is subdivided into smaller lots (20 hectares or less), the Shire will, upon receipt of the Western Australian Planning Commission approval for subdivision of the affected land, apply to the Minister for Local Government for a change in valuation methodology from UV to GRV of those lots.

Properties where the size is twenty (20) hectares or less, with evidence of a residential dwelling situated on the parcel, and without evidence that it is being used contiguously with a larger parcel of land held by the same landowner, nor being used for a declarable source of income for taxation purposes, resulting from a rural use; will be classified as non-rural purpose and subject to a valuation of Gross Rental Value (GRV).

Properties of any size in a rural zone, with evidence (e.g., planning approval) of an improvement being used for a non-rural purpose, and that use being the predominant use of the overall property, will be classified as subject to a valuation of GRV for that improvement (commonly called a 'spot rating') and the remaining portion of the property continue to be classified as subject to a valuation of UV. Affected ratepayers may therefore expect to receive two rates' notices.

All properties that are zoned Special Rural, which include Rural Residential and Rural Smallholdings, shall be subject to a valuation of GRV.

All properties or portions thereof, that have an approved development classification of Industry, Abattoir, Transport Depot, Hard Rock Quarries or Renewable Energy Facility (or similar if not defined under the Local Planning Scheme No. 3) will be subject to a valuation of GRV, from the date of commencement of the facility or approval of the change in the Government Gazette, whichever is the latter.

Those properties found where the predominant use of the land is that of non-rural purposes will be referred to the Council for decision, where, if they so resolve, shall cause it to be referred to the Minister for Local Government for determination and gazettal (if approved). Adequate information will be provided so that a determination can be made on the method of valuation to be applied.

Subject to ministerial approval, where required, the Shire is to apply the valuation method of GRV for rural land, or clearly identifiable portions of rural land, used predominantly for non-rural purposes.

All landowners affected by any change in the valuation method shall be notified and advised of their right of appeal to the Council.

– End of Policy

Notes

Rural purpose is defined as land which is used exclusively for farming activities such as cropping, grazing and/or similar intensive use of land for agricultural purposes.

History	Adopted	22 September 2020
	Amended	26 May 2021
	Reviewed	26 April 2023
	Reviewed	28 May 2025

Policy Statement

Contiguous rating, also known as group rating, is the rating of multiple land titles on one rates notice. This method can occur within the Shire, provided the following criteria is met on the land upon which this policy may apply.

1. Unimproved Value

Where the land valuation is Unimproved Value (UV), the following criteria shall be met for the eligibility of contiguous rating:

- 1.1. The land (lots or locations) is contiguous (share a common border) and in common ownership and;
- 1.2. The land is used and occupied as one holding; and
- 1.3. The common use and contiguity of the land is likely to continue into the future (eg the relevant portion(s) are not marketed for sale); and
- 1.4. The land parcels, although possibly separated by a road or waterway (such as a river, stream, creek etc.), would otherwise be adjoining.

The Council's policy position is that land outside of townsites utilised for genuine farming enterprise should be contiguously rated, to assist in minimising the cost of production, minimise the unplanned breakdown or disaggregation of farmland and to maximise the opportunities for that land to continue to be aggregated for productive agricultural pursuits and purposes.

2. Gross Rental Value

The Council's policy position is that land in townsites should not normally be contiguously rated, as to do so encourages the practice of holding land for speculation. This pushes prices up and inhibits the use of land designated for industrial, commercial or residential development being utilised for those purposes.

Where the basis of land valuation is GRV, contiguous rating is not permitted unless:

- 1.1. The land (lots or locations) is:
 - 1.1.1. contiguous (sharing a common border), and
 - 1.1.2. in common ownership, and
 - 1.1.3. clearly used, fenced, and occupied, and appears as one clear activity or business and either or both of the following also applies:

- 1.2. Buildings have (due to a past error) been built across the lot boundaries, and/or
- 1.3. The adjoining land is part of an approved development or used as a tennis court or manicured garden.

Adjoining owners' vacant residential, rural residential or rural zoned land in a town site will generally not be supported for contiguous rating, unless extenuating circumstances prevail.

Definitions

A 'manicured garden' is "a garden that has been significantly developed and continues to be well maintained with, for example, infrastructure, reticulation, paths or fixed seating; is generally lawned or heavily planted with flowering plants or planted shrubs or trees; and clearly incorporated into the occupation of the adjoining lot used for residential purposes without fencing between the common holdings; and viewed from the streetscape as attractive and functioning and being enjoyed as one occupation across the boundary."

A 'Building' is a permanent fixed structure that is not capable of being easily demolished.

An 'approved development' is defined as being in accordance with a Development Application approved pursuant to the former Shire of Narrogin Town Planning Scheme No. 2 or former Town of Narrogin Town Planning Scheme No. 2.

If the required criteria are met, the Shire will write to Landgate (The Valuer General) to request the contiguous rating of the affected titles on behalf of the owner.

Where the Chief Executive Officer determines that land does not meet the criteria for contiguous rating, the landowner will be given a right of appeal to the Council.

– End of Policy

Notes

An example of contiguous rating on land rated UV is a farming property which comprise a number of lots/locations that are under common ownership and used contiguously as one large holding and farming operation.

Properties in a Townsite approved for contiguous rating will be recorded on the Property Assessment in the Rate Book and reviewed for continuing conformity with this Policy on at least a 5 yearly basis.

3.16 Narrogin – Love the Life, Power the Future – Community Enhancements Fund (CEF)

Responsible Executive	Executive Manager Planning & Sustainability	
Statutory context	Local Government Act 1995 Local Government (Financial Management) Regulations 1996 Planning and Development Act 2005; Planning and Development (Local Planning Schemes) Regulations 2015 – Provides for the preparation and adoption of local planning policies State Planning Policies (SPPs) – Particularly SPP 3.6 – Infrastructure Contributions	
Corporate context	Nil	
History	Adopted	26 March 2025
	Reviewed	28 May 2025

Purpose and Background

The Shire of Narrogin is committed to ensuring that large-scale renewable energy developments (Wind Energy Facilities (WEFs) or farms, Solar Farms, and Battery Energy Storage Systems (BESS)) deliver lasting positive outcomes for the local community. This Community Enhancements (Benefits) Fund (CEF) Policy establishes a framework for proponents of such projects to share benefits with the host community, consistent with the Shire's strategic vision and best practices in Australia. It builds on the Shire's Renewable Energy Position Paper (2024), which outlines a framework of Three Cornerstones (collaboration between community, government, and industry) and Five Foundational Pillars for responsible renewable development.

One of these pillars is the establishment of robust community benefit funds to return tangible value to host regions. The Policy also aligns with principles in the Shire's Local Planning Policy on Wind Energy Facilities, which seeks to "maximise the benefits to the community and the environment" from renewable projects.

As Western Australia transitions its energy sector towards net-zero emissions by 2030, the Shire is poised to become a renewable energy hub. The Shire currently has several (circa five) development applications for wind farms, large-scale solar, and BESS projects. This Policy ensures that as renewable projects proceed, they do so in partnership with the community – through early engagement, benefit-sharing contributions, and transparent governance – leaving a positive legacy in line with the Shire's strategic planning objectives

Scope

This Policy applies to all large-scale renewable energy facilities within the Shire of Narrogin, including wind energy facilities (wind farms), utility-scale solar farms, and large battery storage projects (BESS), typically those with a nameplate capacity exceeding 5 MW.

It is intended for use by Shire staff, Council, and developers (proponents) of renewable energy projects during project planning, approval, and operational phases. The Policy sets out expectations and requirements for negotiating and establishing a Community Enhancements Fund as a condition of support for such projects. Compliance with this Policy will be considered in Council's assessment of development applications and any related agreements with proponents.

Definitions

Proponent – The developer, operator, or owner of a large-scale renewable energy project (wind, solar, and/or battery) in the Shire. This includes any company or entity seeking development approval for such projects.

Community Enhancements (Benefits) Fund (CEF) – A fund to which the proponent contributes financially, for the benefit of the local community. Contributions are typically made annually over the life of the project and are used to support community projects, services, and infrastructure in accordance with this Policy. The CEF may also be referred to as a Community Benefit Fund in other documents

Nameplate Capacity – The rated output capacity of a generator (in megawatts for wind/solar, or in megawatt-hours for battery storage if applicable). This is used as the basis for calculating CEF contributions. For hybrid projects, capacity is considered by each component (e.g., MW of wind, MW of solar, MWh of standalone storage).

Life of the Project – The expected operational lifespan of the renewable energy facility, assumed to be approximately 30 years (unless otherwise defined in approvals). CEF contributions are made for the duration of the project's operation.

Indigenous Nations Fund – A designated portion of the CEF (approximately 10% annually) set aside to support initiatives benefiting Traditional Owners and Indigenous communities of the region. In this Policy, it is administered by the Shire with guidance from Indigenous representatives (including a nominee of the Gnaala Karla Booja Aboriginal Corporation (GKBAC)).

Social License – The ongoing acceptance and approval of a project by the local community and stakeholders. Earning a social license involves proactive community engagement, benefit-sharing, and responsible practices by the proponent to build trust and goodwill.

Policy Statement

The Shire of Narrogin requires that all large-scale renewable energy projects contribute to a Community Enhancements (Benefits) Fund (CEF) to ensure the local community directly benefits from these developments. This Policy sets a consistent approach for negotiating, calculating, managing, and disbursing CEF contributions.

Key principles of the Policy include:

- **Early Negotiation and Agreement:**

- Proponents must engage with the Shire at an early stage (e.g. during feasibility or prior to lodgement of a development application) to negotiate a CEF contribution agreement. The aim is to reach an in-principle agreement on community contributions before development approval, providing certainty to both the community and the proponent. Early negotiation aligns with best practice which calls for collaboration between councils and developers on benefit-sharing programs ([Benefit-Sharing Guideline](#)). The agreed contribution should be formalised via a legal instrument (such as a voluntary planning agreement, deed of agreement, or memorandum of understanding) at development approval stage, ensuring it is binding for the project's life.

- **Contribution Formula (Per MW and Indexation):**

- The CEF contribution will be calculated based on the installed capacity of the project of each asset installed and located in the Shire of Narrogin, using a rate per megawatt (MW) per annum (or per MWh for storage). As a minimum, the contribution shall be no less than the benchmark rates recommended in the New South Wales Government's 2023 Benefit Sharing Guideline for renewable energy projects, which are: \$1,050 per MW per annum for wind energy, \$850 per MW per annum for solar energy, and \$150 per MWh per annum for standalone battery projects, indexed annually to the Consumer Price Index (CPI) ([Benefit-Sharing Guideline](#)). These rates align closely with the Shire's own advocated framework for community benefit contributions (e.g., approximately \$1,050/MW for wind, \$850/MW for solar, \$250/MW for battery). The contribution amount agreed upon shall be indexed to CPI each year to maintain its real value over time, with the first year's rate typically based on the financial year of project commissioning ([Benefit-Sharing Guideline](#)). Contributions are expected on an annual basis for the full operational life of the project (indicatively 30 years), commencing from the start of commercial operations (or as otherwise negotiated). This long-term, CPI-indexed commitment ensures the fund grows over time and provides a reliable stream of community funding.

- **Minimum Contribution Levels:**

- In all cases, the proponent's contribution must meet or exceed the Shire's minimum required level. The Shire will use the NSW guideline rates as a floor, not a ceiling ([Benefit-Sharing Guideline](#)). Proponents are encouraged to offer higher contributions or additional benefit-sharing measures where

possible (especially if a project has higher impacts or to address specific community needs), but at a minimum the above rates per capacity apply. The Shire's preference is to calculate contributions on nameplate capacity; however, alternative formulas (such as a percentage of capital investment or revenue) may be considered if they deliver equal or greater community value over the project life. In the event that State policy or regulations (future State Planning Policy or legislation) mandate higher standard contributions, the greater requirement will prevail. This ensures that Narrogin's community receives a fair share commensurate with projects in other regions and reflects the scale of development ([Benefit-Sharing Guideline](#)).

- **Administration and Governance – Shire-Managed Fund (Preferred):**

- The default and preferred model is for the CEF to be administered by the Shire of Narrogin. Proponents will make annual payments to the Shire, to be held in a dedicated restricted cash reserve account established for the particular proponent's Community Enhancements Fund. The Shire will manage and disburse the funds in accordance with the Local Government Act 1995 and relevant financial management regulations and audit requirements. By having the local government manage the fund, the Shire leverages existing governance systems, transparency mechanisms, and community accountability measures. Local governments are best positioned to understand local needs, coordinate projects, exercise sound governance, and maximise returns on investment for community betterment. All CEF monies received will be accounted for in the Shire's annual budget (as restricted funds), and unspent funds will be carried forward in the reserve. Recognition protocols will be established so that the proponent's contribution is acknowledged in Shire publications and at project openings, ensuring the proponent is credited for their community investment (thus supporting their Environmental Social & Governance (ESG) and social license objectives).

- **Indigenous Nations Fund Allocation:**

- In recognition of the Traditional Owners of the land and to ensure inclusivity, approximately 10% of the CEF contributions each year will be allocated to an Indigenous Nations Fund sub-account. This portion of the fund will be used to support projects and initiatives of benefit to Aboriginal people and heritage in the Shire (for example, cultural programs, Indigenous training and employment initiatives, community infrastructure for Aboriginal residents, or joint ventures in renewable energy). The Indigenous Nations Fund will be administered by the Shire in partnership with local Indigenous representatives. The Shire will invite the Gnaala Karla Booja Aboriginal Corporation (GKBAC) – the prescribed Noongar Regional Corporation for this area – to nominate a representative to advise on and participate in decisions about this portion of the fund. This ensures First Nations voices guide the investment of funds intended for their communities. The 10% allocation will be reviewed in consultation with GKBAC to ensure it remains appropriate and effectively targeted. Any Indigenous-focused projects may also be co-funded from the general CEF pool beyond the 10% minimum, recognising the importance of supporting reconciliation and equity.

- **Eligible Uses of Funds and Thematic Priorities:**

- CEF funds must be used for projects, programs, or initiatives that provide a public benefit and align with the Shire's strategic plans (such as the Strategic Community Plan, Corporate Business Plan, Long-Term Financial Plan, and other informing strategies). The overarching goal is to fund long-term sustainable and high-value initiatives that deliver lasting legacy outcomes for the community, rather than one-off short-lived spending. The Shire, in consultation with the community and the proponent, will identify priority themes for investment – for example: improvements to local sporting and recreation facilities, community health and wellbeing programs, education and training scholarships, environmental conservation or renewable energy initiatives, arts and cultural events, emergency services and disaster resilience, tourism development, and local infrastructure enhancement. These thematic areas echo those identified as best practice for reinvesting renewable benefits in host communities. Each year, specific projects or grant programs under these themes will be selected for funding. The Shire will ensure that funded projects are distributed fairly across the community and, where relevant, across different localities within the Shire, so that those most impacted by the

development share in the benefits. Importantly, CEF funds are additional – they complement (but do not replace) normal government spending or other funding sources, thereby truly “enhancing” the community. Proponents are encouraged to participate in launch events or media for funded projects as part of recognition, under agreed protocols.

- Suggested initial thematic approach areas of investment include:
 - Sport & Recreation: Enhancing sport & recreation facilities, the lifeblood of rural towns;
 - Health and Wellbeing: Enhancing health and wellbeing generally;
 - Education and Training: Scholarships and workforce development programs;
 - Environmental Initiatives: Promoting renewable adoption and conservation; Arts, Culture & Events: Fostering vibrant regional communities;
 - Disaster Resilience and Emergency Services: Strengthening emergency services; and
 - Tourism Development: Investing in attractions to drive economic growth.
- **Governance Structure (CEF Committee):**
 - To oversee the distribution of CEF monies, the Shire will establish a CEF Committee or Advisory Group. The Committee would ideally comprise Shire representatives (elected members and/or officers), community members (including drawn from near neighbours or stakeholders), and a representative (and deputy) of the proponent company. The committee’s role is to provide input on funding priorities, assess grant applications or project proposals, and make recommendations to Council on the allocation of funds each year. The committee will operate under clear terms of reference approved by Council, ensuring decisions are transparent, fair, and aligned with the fund’s objectives. The proponent’s presence on the committee (in a non-voting or advisory capacity) can help coordinate recognition and ensure their perspective is considered, while the majority community representation safeguards local interests. Meetings will be held at least annually (or as required) to plan and review fund distribution. Annual Reporting on the CEF will be undertaken: the Shire will publish a summary each year of the fund’s contributions received, projects funded (with amounts), and outcomes achieved. This report will be provided to the proponent and made available to the community, reflecting the principle that benefit-sharing arrangements should be transparent and publicly accessible ([Benefit-Sharing Guideline](#)). The fund’s management and accounts will also be subject to the Shire’s normal audit process, with results reported as part of annual financial statements.
- **Alignment with Shire Plans and Community Input:**
 - All CEF-funded initiatives should support the broader development plans of the Shire. The proponent and the Shire will work together to ensure that the use of funds complements the Shire’s long-term infrastructure and service planning. For example, if the Shire’s Long-Term Financial Plan (LTFP) or Asset Management Plan identifies critical community infrastructure needs (such as upgrades to community halls, recreation centres, or roads impacted by the project), the CEF can be directed to co-fund those projects. Similarly, initiatives in the Strategic Community Plan – such as improving youth services, economic development, or environmental sustainability – can be resourced through the CEF. By aligning expenditures with these plans, the fund delivers strategic value and avoids ad-hoc spending. Community input is vital in this process: the Shire may hold community workshops or invite submissions on how CEF money should be spent, ensuring the fund is responsive to local aspirations. This collaborative approach reflects that benefit-sharing must be community-focused and tailored to local needs ([Benefit-Sharing Guideline](#)). Where a proponent has its own corporate social responsibility themes (e.g., Science, Technology, Engineering, and Mathematics (STEM) education, community health), these can be coordinated with Shire priorities to maximise impact.
- **Option for Proponent-Administered Fund:**
 - While the Shire-managed model is preferred, this Policy allows for an alternative arrangement where the proponent administers the community fund directly – but only with the Shire’s agreement and under

specific conditions. If a proponent wishes to establish and run its own Community Benefit Fund or similar program (for instance, via a trust, community grants program, or a third-party foundation), the following must be ensured: (a) the level of funding provided by the proponent is at least equivalent to what would have been contributed under this Policy's formula (with the same CPI indexation); (b) the fund or programs run by the proponent are aligned with the Shire's strategic objectives and the needs of the Narrogin community; (c) the proponent involves the Shire in the governance or decision-making process – for example, the Shire may have representation on the proponent's fund committee or a formal role in approving projects – and (d) there is full transparency and reporting of expenditures to the Shire and community. Essentially, the proponent-run fund must mirror the intent of the CEF in scope and rigor. The Shire will only endorse such an arrangement if it is satisfied that the outcomes will be equal or better for the community than the Shire-managed approach. If a proponent-administered model is adopted, an agreement (or memorandum) must be in place detailing how funds will be allocated, how the Indigenous Nations Fund portion is handled, how the Shire will participate in project selection, and how reporting/recognition will occur. The proponent should also demonstrate how the fund ties into their ESG commitments. Regular check-ins (e.g., annual meetings) between the Shire and proponent will be required to review the fund's performance. Notably, even under a proponent-managed scheme, the Shire expects that key programs be coordinated with Council (for instance, if the proponent gives education scholarships or community grants, this should be communicated and celebrated jointly). This cooperative model follows the principle that benefit-sharing should be collaborative and centrally coordinated where possible ([Benefit-Sharing Guideline](#)), avoiding duplication or working at cross-purposes.

- **Financial Management and Reserves:**

- All CEF funds received by the Shire will be placed in a restricted cash-backed reserve specifically created for the Community Enhancements Fund. This ensures the funds are quarantined for their intended purpose and not used for general expenditure. Interest earned on the reserve will be retained within the fund. Unexpended funds in any given year will be carried forward to future years, building a cumulative balance if appropriate. The Shire, in liaison with the proponent, may choose to accrue funds over multiple years for larger projects of significant community benefit, rather than disbursing all funds every year. However, a general guideline is that funds should be put to use in a timely manner to benefit the community that is hosting the renewable development (unless saving for a planned large project). The reserve will be managed in accordance with the Shire's financial policies and the Local Government (Financial Management) Regulations 1996, with annual reporting as noted. If the project terminates earlier than expected (e.g., decommissioning or sale), any remaining funds in the reserve will continue to be used for community benefit. In the case of project ownership transfer, the Shire will seek commitments that the contribution agreement is binding on successors. Should there be any dispute or default in payments, the Shire will refer to the agreement provisions for resolution, noting that consistent contributions are a core aspect of maintaining the project's social license in Narrogin.

- **Recognition and Communication:**

- The Shire will develop protocols to formally recognise the contributions made by renewable energy proponents through the CEF. This may include signage at facilities or project sites acknowledging the proponent's community fund (e.g., "This project was funded by the Community Enhancement Fund contributed by [Company Name]"), media releases and stories highlighting the community outcomes enabled by the fund, and invitations for the proponent's representatives to attend and be acknowledged at community events related to CEF-funded initiatives. Mutual recognition builds goodwill and encourages other developers to also contribute generously. Additionally, the Shire will periodically communicate to the broader public about how hosting renewable energy has directly benefited the community – reinforcing the positive narrative of renewable developments. This transparency and promotion are consistent with maintaining public support for the industry and demonstrating that local communities are better off as a result of these projects ([News Story - MEDIA RELEASE - Shire of Narrogin Calls for Unified Support for Responsible Renewable Energy Development » Shire of Narrogin](#)).

Through this Policy, the Shire of Narrogin seeks to create a win-win outcome: proponents fulfill their corporate social responsibilities and gain community acceptance, while the community receives tangible and lasting benefits from the renewable energy transition. The Policy will be reviewed as needed (for example, if State Government introduces new guidelines or if improvements are identified in implementation) to remain aligned with best practices and community expectations.

Exclusion Clause – Neighbour Benefit Schemes (NBS) Not Constituting Community Enhancements Fund Contributions

Nothing in this Policy shall be construed to imply or permit that Neighbour Benefit Schemes (NBS), Near Neighbour Payments, or similar arrangements between proponents and individual landholders or nearby residents constitute part of, or can be offset against, the required Community Enhancements (Benefits) Fund (CEF) contribution.

Such neighbour-specific payments are considered project-specific mitigation or social license costs incurred as part of the normal cost of gaining project approval and community acceptance, and are intended to compensate directly impacted individuals, not the broader community.

The purpose of the CEF is to deliver broader legacy benefits to the entire host community, beyond those properties or individuals most proximate to infrastructure. The CEF is a public-good mechanism to fund strategic, equitable, and transparent investments in community wellbeing, services, infrastructure, Indigenous partnership initiatives, and sustainability outcomes—not compensation payments for localised amenity impacts.

Accordingly:

- The value or extent of any Neighbour Benefit Scheme implemented by a proponent shall not be deducted from or used to offset the agreed CEF contribution;
- The CEF shall be calculated independently, based solely on the nameplate capacity and CPI-indexed benchmarks outlined in this Policy; and
- Proponents are encouraged to implement both NBS and the CEF as complementary but separate streams of community engagement and investment.

This distinction protects the integrity, equity and transparency of the CEF, and ensures that all residents, including those not in immediate proximity to infrastructure—share in the benefit of the renewable energy transition.

Appendix 1 – Community Enhancements Fund (CEF) Procedural & Operational Guidelines

This appendix outlines the step-by-step process for establishing and operating a Community Enhancements Fund in line with the Policy.

Step 1: Initial Engagement and Proposal Stage

- **Pre-lodgement Discussion:** When a proponent is considering a renewable energy development in the Shire, they should contact the Shire administration early to discuss the Community Enhancements Fund expectations. The Shire will provide a copy of this Policy and any relevant information (such as the Shire's strategic priority areas) to inform the proponent's planning.
- **Scoping the Contribution:** The proponent and Shire will jointly scope the likely size of the CEF contribution based on the proposed capacity (e.g. MW of generation and/or MWh of storage). For example, a 100 MW wind farm would typically entail an annual contribution of about \$105,000 (indexed) under current guidelines, while a 50 MW solar farm would be about \$42,500/year ([Benefit-Sharing Guideline](#)). This early estimate helps all parties understand the scale of community investment.
- **Community Needs Discussion:** The Shire may share information on community needs or potential projects that a fund could support, and the proponent may share its initial ideas for benefit programs. Early brainstorming ensures both sides are aligned on the importance of community outcomes (e.g. the proponent might express interest in supporting local apprenticeships or environmental projects, which can be factored into the eventual fund usage).

Step 2: Negotiation of Terms

- **Formal Negotiation:** As the project details firm up (typically during project feasibility or once a development application is imminent), the Shire's representatives (e.g. CEO or delegated officer, and potentially Council's negotiating team) will meet with the proponent to negotiate the CEF agreement in detail. Key terms include: the annual contribution amount (based on the final capacity – e.g., if the project plans 150 MW wind, then \$157,500/yr at \$1,050/MW, CPI indexed ([Benefit-Sharing Guideline](#))), the duration of payments (e.g. 30 years from commissioning or until decommissioning), the indexation method (CPI All Groups, applied yearly), and the payment schedule (e.g. annual in advance, or quarterly). The parties will also discuss the administration model (Shire-managed by default, or any request for proponent-managed as per Policy) and associated governance (committee involvement, etc.).
- **Documentation:** The outcome of negotiations will be captured in a draft Community Benefit Agreement (see Appendix 3 for an example outline). This agreement may take the form of a Planning Agreement under the Planning and Development Act (if applicable and enforceable) or a stand-alone Deed between the Shire and proponent. The agreement will specify obligations on both parties. Shire Council approval is required to endorse the agreement (and Council may resolve to make it a condition of development approval or a linked obligation).
- **Legal Review:** Both the Shire and proponent should seek any necessary legal review of the agreement to ensure it is robust. Important considerations include default provisions (e.g. what if payments are late), transfer of obligations to any new owner, and dispute resolution mechanisms.

Step 3: Development Approval and Agreement Execution

- **Council Report:** When the development application (DA) for the project is assessed by Council (or by a Joint Development Assessment Panel, JDAP, or State Development Assessment Unit (SDAU) if relevant), the existence or status of the CEF agreement will be noted. Ideally, the agreement (or a memorandum of understanding) is signed concurrently with development approval. If the DA is approved by Council/JDAP, a condition may be included along the lines of "The proponent shall implement a Community Enhancement Fund in accordance with the Shire's Council Policy and the signed agreement dated [X]."
- **Finalising the Agreement:** The Shire President and CEO (on behalf of the Shire) and the proponent's authorised officers will execute the Community Benefit Fund agreement. It will come into effect upon execution or upon a specified trigger (such as upon the project reaching financial close or commencement of construction, depending on what is negotiated).

Step 4: Establishment of the Fund and Governance

- **Reserve Account Setup:** The Shire's finance team will create a new restricted reserve account in its financial system titled "Community Enhancements Fund – [Project Name]" (or a consolidated fund for multiple projects, with sub-ledger tracking per project if needed). This ensures any incoming funds are sequestered. The Shire will also establish internal codes to track the 10% Indigenous Nations Fund portion.

- **CEF Committee Formation:** Council will establish the CEF Committee or Advisory Group by resolution, including appointing members (elected member representatives, community members, proponent rep, and an Indigenous community rep, etc., as outlined in the Policy). Terms of Reference will be adopted, covering the committee's role, meeting frequency, quorum, decision process (recommendations), and reporting. Alternatively, if the fund will be small initially, the Council may choose to handle decisions directly and form the committee once significant funds accumulate.
- **Public Communication:** Once the fund is official, the Shire will announce the establishment of the CEF to the community. This could include a joint press release with the proponent, highlighting the contribution amount and the shared commitment to community development. It helps set expectations that funding will flow when the project commences operation.

Step 5: Payment and Indexation Process

- **Invoicing:** The Shire will issue an invoice to the proponent for the CEF contribution as per the agreed schedule. Commonly, payment will be annual. The first payment might be due either at the start of construction (if agreed) or upon commissioning. (For example, some agreements might stipulate a smaller construction-phase community contribution before full operations.) Typically, the first full annual payment is due within a set time after the project starts exporting power.
- **CPI Adjustment:** Each year, the Shire's invoice will adjust the contribution by the CPI. For instance, if Year 1 (2025) contribution for a solar farm is \$50,000 (based on capacity using \$850/MW ([Benefit-Sharing Guideline](#))) and CPI for the year is 3%, then Year 2 invoice becomes \$51,500. The agreement will specify the CPI index (e.g. Perth Consumer Price Index, or a national CPI) and the reference quarter for calculations.
- **Recordkeeping:** The Shire records the payment receipt into the CEF reserve. If the project spans multiple decades, the Shire will maintain a schedule of expected payments and ensure the proponent is reminded of upcoming contributions. The proponent should similarly include the payments in their financial models and annual budget for the facility.

Step 6: Fund Allocation Planning

- **Annual Plan:** Each financial year, the Shire (through the CEF Committee or relevant officers) will develop a plan for how that year's available CEF funds (including any carryover) could be allocated. This might involve: setting aside the 10% Indigenous portion for specific Indigenous-led proposals; identifying priority projects in consultation with community (e.g. this year focusing on upgrading a local sports complex, plus a grants program for community groups); and reserving funds if a large future project is targeted. The plan will consider the thematic priorities and any guidance from the Strategic Community Plan or Council.
- **Call for Proposals (if grants program):** If part of the fund is to be distributed via community grants, the Shire will open an application process. Local community groups, clubs, schools, or not for profit enterprises might apply for CEF grants for their projects. Clear criteria will be published (such as alignment with the fund's themes, demonstrating community benefit, capacity to deliver the project, etc.). The proponent may be invited to help promote this opportunity to encourage a wide range of applications.
- **Shire Initiated Projects:** The Shire administration may also put forward proposals for using CEF money on Shire projects (for example, a co-funding opportunity with State/Federal grants where CEF money provides matching funds for a big infrastructure project). These proposals would also be tabled to the CEF Committee for consideration.

Step 7: Decision-Making and Approvals

- **Committee Review:** The CEF Committee (or Council if no committee) reviews all proposed uses of the funds. This could be done in a meeting where Shire staff present a summary of grant applications from the community and any Shire project proposals. The committee assesses each against the Policy objectives and available budget. The proponent's representative provides input, particularly if certain proposals resonate with the proponent's own community investment focus. The GKBAC/Indigenous rep will specifically advise on Indigenous Fund allocations. The committee then forms recommendations – e.g. which projects to fund and at what amounts.
- **Council Approval:** Because the funds are Shire-held, the final approval for expenditure lies with the Council (unless delegated). The committee's recommendations are reported to the Council meeting (this might be part of the Shire's budget adoption or a separate item). Council reviews and formally approves the disbursement from the reserve as recommended or with amendments. Council will ensure decisions

are fair and within the scope of the Policy. Where a Council member has a conflict of interest (for example, if they are on the board of a community group applying for funds), they will exclude themselves per standard governance laws.

Step 8: Fund Disbursement

- **Release of Funds:** Following approval, the Shire's finance team arranges payments to the selected projects/recipients. If the Shire itself is delivering a project, the funds remain in the reserve until transferred to the municipal fund at the time of expenditure (with proper internal accounting). For grants to external groups, funding agreements or Memorandums of Understanding (MOUs) might be used to outline the use of funds and any reporting back needed from the recipient. Cheques/EFTs are issued to grant recipients with official letters.
- **Acknowledgment:** Along with the payment, the Shire will provide guidance on how the contribution should be acknowledged by recipients (e.g. "please acknowledge the Shire of Narrogin Community Enhancement Fund (supported by [Project Proponent]) in any publicity"). Joint press releases or events will be planned for all disbursements and major projects.

Step 9: Monitoring and Reporting

- **Project Monitoring:** The Shire (and possibly the proponent's community liaison, if they have one) will monitor the progress of funded projects. Recipients may be asked to provide a short report or presentation on the outcomes once completed. This ensures accountability and helps gather success stories.
- **Annual Reporting:** At the end of each financial year (or calendar year), a CEF Annual Report is prepared. It will include the total funds received from each proponent project, the list of projects funded (with brief descriptions and amounts), the carryover to next year, and any highlights or community feedback. This report is presented to the Council and also shared with the proponent. It may be published on the Shire's website or included in the Shire's Annual Report to residents. This transparent reporting aligns with best practice where benefit-sharing arrangements information is publicly available ([Benefit-Sharing Guideline](#)).
- **Audit:** The CEF transactions are subject to internal and external audit as part of the Shire's finances. The proponent may also request an audit statement or verification of how funds were used, which the Shire will provide to maintain trust.

Step 10: Ongoing Collaboration and Review

- **Regular Meetings:** The Shire will hold regular liaison meetings with the proponent (for example, annually or semi-annually) to discuss not only the fund but overall project-community relations. This provides an opportunity to adjust any aspect of the CEF program by mutual agreement. For instance, if after a few years both parties see a need to focus more funds on a particular issue (say, local road safety or a new community centre), the strategy can be tweaked.
- **Review of Policy and Agreement:** The CEF Policy and any specific CEF agreement may be reviewed after a certain period (e.g. every 5 years). Changes could include updating contribution rates if state guidelines change, or altering governance if needed. Any amendments to an agreement would require consent of both Shire and proponent. The Shire will also stay informed on any emerging State policies or legislation on community benefit funds to ensure this local approach remains in alignment or can be adapted.
- **End of Project or Termination:** If the project reaches its end of life (around 30 years or if decommissioned earlier), the proponent's obligation to contribute will cease as per the agreement. At that point, the Shire will plan for the use of any remaining funds – ideally, to cap off with a lasting legacy project. If a project is repowered or extended, the agreement should be revisited to continue or renew contributions. In cases of project ownership transfer, the Shire will engage with the new owner to reaffirm the commitments (the agreement should bind successors, but proactive engagement helps ensure a smooth transition).

Appendix 2 – Community Enhancement Fund (CEF) Contribution Modelling Examples

This appendix provides illustrative models for Community Enhancement Fund (CEF) contributions based on project capacity, using both the NSW guideline rates and the Shire's advocated framework.

Standard Rates (2023 baseline): As per NSW Government's Benefit Sharing Guideline ([Benefit-Sharing Guideline](#)) and the Shire's policy, the base contribution rates are:

- **Wind Energy Projects:** \$1,050 per MW per year (indexed annually).
- **Solar Energy Projects:** \$850 per MW per year (indexed annually).
- **Battery Energy Storage (Standalone BESS in rural zone):** \$150 per MWh of storage capacity per year (indexed annually). *(Note: For simplicity, the Shire may alternatively use \$250 per MW of battery power capacity as a guideline; however, if precise storage (MWh) is known, the NSW rate per MWh may be applied to ensure sufficient contribution.)*

These figures are in 2023 dollars and are subject to CPI escalation each year going forward ([Benefit-Sharing Guideline](#)). The following examples demonstrate how contributions would be calculated:

- **Example 1: Mid-sized Wind Farm** – A wind farm of 50 MW capacity. Using the wind rate: $50 \text{ MW} * \$1,050 = \$52,500 \text{ per annum}$ initially. If the project operates 30 years, and assuming an average inflation of 2% annually, by year 30 the annual contribution would grow to around \$95,000 and the cumulative contribution over 30 years would be approximately \$2.3 million (in nominal dollars).
- **Example 2: Large Wind Farm** – A project spread over two local government areas: 300 MW of wind capacity in Shire of Narrogin (for instance). Contribution: $300 \text{ MW} * \$1,050 = \$315,000 \text{ per annum}$ to Narrogin ([Benefit-Sharing Guideline](#)). *(If split with another Shire, each Shire's share could be proportional to number of turbines or capacity in each jurisdiction, as was done in the Sapphire Wind Farm agreement in NSW ([Benefit-Sharing Guideline](#))).* Over 25-30 years, this single project would inject on the order of \$8–9 million into the local community, creating substantial legacy benefits.
- **Example 3: Solar Farm** – A 100 MW solar farm. Using the solar rate: $100 \text{ MW} * \$850 = \$85,000 \text{ per annum}$. Indexed over 30 years, total contributions would exceed \$2.5 million. Even a smaller 10 MW solar farm would contribute \$8,500 per year, which could fund small community projects or accumulate for larger ones. Many solar projects also include battery components – see hybrid example below.
- **Example 4: Battery Storage Project (Standalone)** – A large standalone BESS of 200 MWh capacity (for example, 50 MW power with 4 hours storage = 200 MWh).
- Using the battery rate: $200 \text{ MWh} * \$150 = \$30,000 \text{ per annum}$. If the BESS were instead calculated by MW: $50 \text{ MW} * \$250 = \$12,500$ – however, since 50 MW 4-hr has significant storage, the higher \$30,000 (via MWh) ensures the contribution is proportional to the facility's usefulness and impact. As battery projects become larger, the guideline may adjust, but this policy secures a baseline contribution from any storage facility.
- **Example 5: Hybrid Renewable Project** – A project combining 150 MW of wind, 50 MW of solar, and a 50 MWh battery on the same site. Contribution would be calculated for each component then summed: Wind: $150 * \$1,050 = \$157,500$; Solar: $50 * \$850 = \$42,500$; Battery: $50 \text{ MWh} * \$150 = \$7,500$. Total = **\$207,500 per annum**. If the battery is integrated (not standalone), some guidelines suggest not double-counting it ([Benefit-Sharing Guideline](#)); however, the Shire's stance is that every component should contribute unless it's clearly part of the same capacity counted elsewhere. In any case, this example project would provide over \$200k/year, which could be transformational for local community funding.
- **Alternative Capital Value Model:** For context, the Shire's advocacy mentioned a 1.5% of Capital Investment Value (CIV) as another method. If a wind farm costs, say, \$2 million per MW to build, a 50 MW wind farm costs ~\$100 million. 1.5% of \$100m is \$1.5 million. Spread over 30 years, that averages \$50,000 per year – which is in line with the \$52,500 per year from the per-MW model. Thus, the per-MW rates roughly correspond to ~1.5% of typical project capital cost, ensuring the community captures a small percentage of the project's value. The per-MW (or MWh) approach is more straightforward to administer and adjust with CPI, which is why it's used in this Policy.
- **Indexation Impact:** It's important to illustrate indexation. If inflation runs higher, the contributions will increase accordingly. For example, a \$100,000 annual contribution today at 3% inflation would be about \$242,000 in 30 years. This protects the community's benefit in real terms and avoids erosion of purchasing power.

These contributions, while significant, are generally a small fraction of a project's revenue or profit and are considered standard practice in other jurisdictions to ensure community support ([Benefit-Sharing Guideline](#)) ([WA government's wind farm development policy lagging behind, councils say - ABC News](#)). Developers in NSW, Victoria, and other states commonly enter into such agreements (sometimes called Voluntary Planning Agreements or Community Benefit Schemes) – for instance, some wind farms in NSW contribute around \$2,500 per turbine or \$1,000+ per MW per year into community funds, and many have delivered hundreds of thousands of dollars to local projects over time ([Benefit-Sharing Guideline](#)) ([Benefit-Sharing Guideline](#)). The Shire of Narrogin's policy ensures we are aligned with these best practices, neither disadvantaging our community nor placing unreasonable burdens on industry.

Allocation Example: Suppose in one year the Narrogin CEF (combined from several projects) has \$300,000 available. Per this Policy, at least \$30,000 (10%) would go into the Indigenous Nations Fund for Indigenous-led initiatives. The remaining \$270,000 could be allocated to various community projects – e.g. \$100k for upgrading a regional recreation centre, \$50k for environmental conservation projects (perhaps leverage additional grants), \$20k for youth training scholarships, \$50k in community grants to local clubs, and retain \$50k for next year or a future big project. The Indigenous Nations Fund \$30k might support, say, a cultural centre upgrade or Aboriginal youth programs in the area (guided by GKBAC rep). In subsequent years, projects would vary according to community needs, but over a decade one could imagine new playgrounds, health services expansions, tourism facilities, and educational programs all being part-funded by this stream. The cumulative effect lifts the social and economic well-being of the Shire significantly, validating the community's support for hosting renewable infrastructure.

Appendix 3 – Community Enhancement Fund (CEF) Example Agreement (Heads of Terms)

This appendix provides a high-level outline of an example agreement that could be used to formalise the Community Enhancements Fund contributions between the Shire of Narrogin and a project proponent. This is a general guide and actual terms will be subject to negotiation and legal advice.

Title: *Community Enhancement Fund Agreement* (Community Benefit Deed) between **Shire of Narrogin** and **[Proponent Company]**.

Parties:

- **Shire of Narrogin** (the “Shire”), of 89 Earl Street Narrogin WA 6312.
- **[Proponent Name] Pty Ltd** (the “Proponent”), ACN [xxxxxx], registered address [xxxxx]. (This is the developer/operator of the [Name of Renewable Project]).

Background:

- The Proponent is developing the “[Project Name]” which is a [wind farm/solar farm/BESS/hybrid] with a capacity of [X MW] (and BESS capacity of Y MWh if applicable) located at [general area description] within the Shire.
- The Shire of Narrogin has a policy requiring large renewable energy projects to provide community benefit contributions to ensure local communities share in the benefits of these projects ([News Story - MEDIA RELEASE - Shire of Narrogin Calls for Unified Support for Responsible Renewable Energy Development » Shire of Narrogin](#)). The Proponent, in the interest of being a good corporate citizen and maintaining a social license to operate, has agreed to contribute to a Community Enhancement Fund for the benefit of the Shire’s community.
- This Agreement outlines the terms and conditions of the Proponent’s contributions and the Shire’s obligations in managing those contributions. It is entered into in good faith alongside the development approval for the Project.

1. Commencement and Term:

This Agreement commences on the date of signing (or upon the grant of development approval, if later) and continues for the operational life of the Project, estimated to be 30 years from the commencement of electricity generation. The term may be extended or revised by mutual agreement, for instance if the Project is repowered or its operational life is extended. If the Project is decommissioned earlier than 30 years, clause [X] on early termination will apply (generally requiring contributions up to the date of decommissioning and any final settlement of that year’s amount pro-rata).

2. Contribution Amount:

The Proponent will provide an annual monetary contribution to the Shire’s Community Enhancements Fund. The contribution for the first year of the Project’s operation is agreed to be \$[Amount], which is based on the formula of [\$1,050 per MW for wind / \$850 per MW for solar / \$150 per MWh for BESS] applied to the Project’s capacity (noting the Project consists of [A] MW of wind, [B] MW of solar, [C] MWh of storage). This base amount is in 2023 dollar value. For each subsequent year, the annual contribution will be adjusted by the CPI (All Groups, Perth) for the preceding year (or an equivalent index as agreed). The Shire will provide the Proponent with a calculation of the adjusted amount each year. If the Project’s capacity is expanded, the contribution will be recalculated accordingly (subject to a reasonable notice and agreement on start of increased payments). The contribution is exclusive of any rates or taxes – it is a separate community benefit payment, not to offset rates or other charges.

3. Payment Schedule:

Unless otherwise agreed, the Proponent shall pay the annual contribution in one instalment each year. The first payment shall be due on [date, e.g. 1 July] after the Project commences commercial operations (or within 30 days of that milestone). Thereafter, each payment is due by [date] of each year. The Shire will issue a tax invoice for each contribution. The Proponent shall pay the invoice within 30 days of receipt. Alternatively, by mutual agreement,

the annual contribution can be split into [quarterly/half-yearly] payments to facilitate cashflow (the indexation would be applied proportionally). Late payments shall accrue interest at [e.g. statutory interest rate for local govt charges] and persistent default (after notice and cure period) may trigger dispute resolution as per Clause 9.

4. Fund Management:

The Proponent's contributions will be held by the Shire in a dedicated reserve (the Community Enhancements Fund). The Shire will be responsible for administering the fund and expending monies on eligible community projects, in line with the Shire's Community Enhancements Fund Policy and this Agreement. The Shire will ensure that at least 10% of the annual contribution is earmarked for the Indigenous Nations Fund component to support Indigenous initiatives (with guidance from GKBAC). The Shire will maintain separate accounting for all contributions and expenditures under this fund. The funds will be used solely for community benefit purposes and not for the Shire's general operational costs, except for minor administrative overhead directly related to managing the fund (if any, and ideally taken from interest earnings to avoid reducing community monies). Unspent funds will roll over each year and remain available for future community projects. The Shire may invest the funds in accordance with its investment policy and the Local Government Act, with any interest earned to be added to the fund. Both parties acknowledge that using the local government to manage the funds leverages existing prudent financial management structures.

5. Fund Governance and Consultation:

The Shire will establish a governance mechanism (e.g. a committee or panel as described in the Policy) to guide how funds are used. The Proponent will be invited to nominate a representative to join the committee in an advisory or observer role. The committee will also include community representatives and at least one elected member. The committee's function is to recommend projects and allocations for the fund. The Proponent and the Shire agree to cooperate in good faith in this process, recognising the Proponent's desire to see its contributions create positive outcomes, and the Shire's role in representing community interests. The Shire will consult with the Proponent on the strategic priorities for the fund, particularly if the Proponent has relevant expertise or programs (for example, if the Proponent runs a regional STEM education program, the Shire might allocate some funds to complementary local STEM scholarships). Final decisions on fund disbursement rest with the Shire (Council), but will take into account the committee's recommendations. The Shire will also consult GKBAC or other Indigenous bodies regarding the Indigenous Fund portion. In the event the Proponent chooses to directly administer certain community programs (as part of or in addition to the contributions), this will be done in coordination with the Shire to avoid duplication and ensure alignment with community plans (such arrangements can be detailed in a Schedule to this Agreement if applicable).

6. Eligible Projects and Use of Funds:

The Agreement reaffirms that funds will be applied to projects that benefit the community within the Shire of Narrogin. A non-exhaustive list of eligible uses: community infrastructure (e.g. recreation facilities, community halls, local road safety improvements), health and wellbeing initiatives, educational and training programs (such as scholarships, apprenticeships for locals in renewables), environmental and sustainability projects (landcare, climate adaptation, etc.), arts and cultural heritage projects, events that foster community cohesion, and emergency services support. Both parties agree that funded projects should be non-controversial, broadly inclusive, and aligned with the themes set out in the Shire's strategic documents. The Proponent's branding or naming rights for facilities can be discussed on a case-by-case basis for major contributions (e.g. a "[Project Name] Community Sports Centre" refurbishment courtesy of the fund), subject to Council policies on sponsorship. The Shire will not use CEF money to cover costs that the Proponent is otherwise required to bear as a condition of development (e.g. road repairs directly caused by construction, which are dealt with via separate agreements, or compliance monitoring costs). The CEF is intended for additional community value, not mitigation of direct impacts, which are managed under other legal frameworks.

Suggested initial thematic approach areas of investment include:

- Sport & Recreation: Enhancing sport & recreation facilities, the lifeblood of rural towns;
- Health and Wellbeing: Enhancing health and wellbeing generally;
- Education and Training: Scholarships and workforce development programs;
- Environmental Initiatives: Promoting renewable adoption and conservation;

- Arts, Culture & Events: Fostering vibrant regional communities;
- Disaster Resilience and Emergency Services: Strengthening emergency services; and
- Tourism Development: Investing in attractions to drive economic growth.

7. Transparency and Reporting:

The Shire will provide an Annual Report to the Proponent each year by [date, e.g. September 30] detailing: the amount of contribution received in the past year, the projects or initiatives funded (with brief description and amount allocated to each), the balance of any unspent funds, and plans for any major carryover projects. The report will also include testimonials or outcomes where available (e.g. "X number of people benefited from the new training program funded by the CEF"). The Shire will make this information available publicly (e.g. via Council meeting minutes or website) to maintain transparency with the community ([Benefit-Sharing Guideline](#)). The Proponent is encouraged to use the information in its own sustainability reporting or media releases to highlight the community benefits delivered. Representatives of the Proponent may be invited to annual public forums or committee meetings to discuss the fund's outcomes. If the Proponent administers any portion of the community benefits (outside this fund), it will likewise report those to the Shire annually for completeness. Both parties will communicate regularly about the fund's status, and any concerns or suggestions either party has regarding the fund's operation will be discussed in good faith.

8. Recognition:

The Shire shall ensure appropriate recognition of the Proponent's contribution in line with the Policy. This includes, but is not limited to: signage or plaques on infrastructure projects funded (where practical) acknowledging the Proponent's role (e.g. "Funded by the Community Enhancements Fund from [Project Name]" and Shire logos), acknowledging the Proponent in press releases or public announcements regarding the CEF-funded projects, and inviting the Proponent's representatives to ceremonies or events inaugurating projects. The intent is to publicly credit the Proponent for its community investment, reinforcing the positive relationship. The Proponent may also choose to co-brand certain programs (for example, "[Company Name] Narrogin Community Scholarships" in partnership with the Shire). Any media produced by the Proponent referencing the fund should acknowledge the Shire's role (e.g. as administrator and partner). Both parties will agree on any signage wording or major publicity to ensure accuracy and appropriateness.

9. Default and Dispute Resolution:

If the Proponent fails to make a contribution by the due date, the Shire will notify the Proponent in writing and the Proponent must rectify the non-payment within [60] days. Failure to do so entitles the Shire to pursue legal remedies to enforce the payment (since this Agreement may be documented as a deed, it is legally enforceable). However, both parties acknowledge that maintaining a cooperative relationship is paramount. In the event of any dispute arising from this Agreement – whether about the interpretation of eligible fund uses, the adjustment of contributions, or any other matter – the parties agree to first meet and attempt to resolve the issue amicably. If needed, senior representatives (e.g. the Shire CEO and a Director of the Proponent) will engage in mediation. If a dispute cannot be resolved through negotiation or mediation within a reasonable time, either party may refer the matter to an independent arbiter or to a court with jurisdiction, although formal litigation is a last resort. This dispute clause is aimed at ensuring any disagreements do not derail the overall purpose of the fund or the relationship between the community and the project.

10. Assignment and Successors:

This Agreement binds the successors and assigns of the Proponent. If the Project (or the operating entity) is sold or transferred, the Proponent will ensure as a condition of that sale/transfer that the new owner/operator enters into a deed of novation or equivalent to assume the obligations of this Agreement. The Proponent shall notify the Shire of any impending change in ownership. The Shire's rights and obligations under this Agreement will similarly bind any amalgamated local government or a scenario where responsibilities shift (though the Shire has no intention to assign its role except as required by law). This clause ensures continuity of the community benefits regardless of ownership changes in the project over its life.

11. Variation and Review:

Any variation to this Agreement must be made in writing with the consent of both parties. Both parties acknowledge that the contribution rates are set based on current policy and guidelines; if in future the State of WA introduces a mandatory scheme or the Shire updates its Policy, the parties may review the terms to ensure consistency. However, any reduction in the agreed benefit to the community would not be made without a compelling justification and mutual agreement. A formal review of this Agreement shall occur at the 5-year mark (and every 5 years thereafter) to discuss its effectiveness, with adjustments made by agreement to address any issues or changed circumstances (for example, if CPI indexing dramatically changes economic value, or if the project's capacity changes). The review will also consider community feedback on the fund's performance.

12. Miscellaneous:

Include standard legal clauses such as: Notices (how communications under the agreement are given to each party, e.g. addresses for service), Governing Law (State of Western Australia), Entire Agreement (this document constitutes the entire agreement on the subject of community contributions for this project, and supersedes any prior representations), and counterparts (if signing in multiple copies).

Execution:

Signed for and on behalf of Shire of Narrogin by: Shire President & CEO Names, Shire President & CEO signatures, date and sealed if required.

Signed by an authorised representative of [Proponent Company]: Director or CEO name(s), Director or CEO signature, date.

This example agreement is a template outline and will be tailored to the specific project and negotiations. It serves to illustrate the key commitments – namely, the proponent's promise to deliver ongoing community funding and the Shire's role in managing those funds for maximum local benefit, in a transparent and accountable way.

History Adopted 23 April 2025

Policy Objective

To set the method of calculation for pensioner rebates on properties where there is a curtilage, or dual/commercial or farmland use.

Policy Scope

This policy applies to the Manager Corporate Services, Finance Officer (Rates) and affected ratepayers.

Policy Statement

Section 28(2) of the *Rates and Charges (Rebates and Deferments) Act 1992* provides that:

“Where although land is used as the ordinary place of residence of an applicant or registered person it is not the sole use of that land, the administrative authority may apportion the prescribed charge, and any rebate allowable, according to –

- (a) the extent to which the land is so used as a place of residence; and*
- (b) any other use,*

on a basis proportionate to the respective uses.”

This provision enables an administrative authority (the Shire of Narrogin) to allow a concession, in an equitable way, to the part of the rates levied relating to the residential use of a commercial property, if the circumstances warrant. For example, if a pensioner owner-occupies a house that is on rural land also used for farmland purposes such as cropping.

This policy was created to identify the method that the Shire of Narrogin will use to calculate the pensioner rebate on curtilage/dual use commercial or farmland properties.

Principles

Concessional rebates are applied in a fair and equitable manner for all concessional ratepayers.

Provisions

A rebate shall only be applied if the resident has demonstrated they are entitled to such rebate by completing the appropriate application form, including provision of their concession details.

The Rates Officer is to verify the concession entitlement using the Centrelink Confirmation eServices for businesses, and the ratepayer's ownership of the property using a Landgate title search.

If the ratepayer is eligible the Rates Officer is to use the following method to calculate the rebate to be applied:

Rates Officer is to ascertain area of property that is solely used for residential purposes (to a maximum of 2 Ha). This involves consultation with the applicant as well as online mapping tools.

The rates levied are to be portioned based on the respective areas:

$$\left(\frac{\text{Area used for residential purposes only (Ha)}}{\text{Total area of property (Ha)}} \right) \times \text{Rates Levied (\$)} = \text{Portion of rates on which a concession can be applied (\$)}$$

For example, if the rates levied are \$2,000, the total property area is 60 Ha and the area solely used for residential purposes is 2 Ha the rates on which a concession would be applied is as follows:

$$2/60 \times 2000 = 66.67$$

The concession is to be applied on \$66.67.

If the ratepayer is a pensioner, and they are entitled to a 50% rebate, the rebate amount to be claimed from the Office of State Revenue would be \$33.34, calculated as follows:

$$66.67 \times 0.50 = 33.34$$

If the area used for residential purposes cannot be determined, then an arbitrary maximum of two (2) hectares (the house portion of the farm) is to be used as permitted by the Office of State Revenue.

The Executive Manager Corporate & Community Services is to ensure compliance with this policy.

Policy Statement

This Environmental Health Policy (the Policy) outlines the objectives, principles, and approach to managing environmental health matters in the Shire of Narrogin (SoN) area.

The Policy supplements the SoN Public Health Plan 2021-2026 and sets out:

- Environmental health responsibilities at Commonwealth, State, and Local Government level;
- Principles for environmental health in the SoN area; and
- Priorities for dealing with environmental health matters in the SoN area.

Responsibilities

Environmental health practice is about creating and maintaining environments that promote good public health outcomes within the community, including addressing behaviours that impact on these factors. Environmental health also includes environmental protection at the interface between people and the environment, including management of air quality, waste, waterways, and noise.

Managing environmental health is the responsibility of all community members, businesses, and all tiers of government in Australia.

Federal

The National Environmental Health Council (enHealth) is the peak national environmental health advisory group. enHealth consists of members of relevant Commonwealth, State, and Territory health Departments, the New Zealand Ministry of Health, and the National Health and Medical Research Council. EnHealth provides national leadership on environmental health issues and implements the Australian National Environmental Health Strategy.

State

The Environmental Health Directorate (the EHD) of the WA Department of Health, Public and Aboriginal Health Division, is the government sector with responsibility for maintaining public and environmental health standards across WA. EHD main role is to ensure appropriate management strategies, such as legislation, guidelines, surveillance, monitoring and public education, are in place to prevent disease, illness, injury, disability, and premature death arising from environmental exposures and other environmental health impacts.

Local

Local Governments have statutory responsibilities for promoting standards of environmental health within their area through the administration of legislation, provision of environmental health services and community education initiatives.

Principles

SoN work directly with our community to prevent and reduce incidences of disease, illness, and harm, by undertaking activities which support a healthy environment for all community members. In dealing with environmental health matters, SoN provide these services by:

- Undertaking activities and services in order of risk-based approach.
- Balancing the needs of the built environment and economic development with the health of our community.

- Creating and maintaining an environment that promotes good public health outcomes by assessing and controlling factors that will prevent and reduce the incidence of disease, illness, or harm in our community.
- Working in collaboration with State Government and industry to create and implement initiatives which aim to improve levels of voluntary compliance with relevant legislative obligations.
- Providing access to educational materials for our community and industry to increase understanding of relevant legislative obligations.
- Developing and maintaining standard operating procedures that support consistent and effective routine monitoring, management of complaints, and identification of emerging issues.

6.6 Approval for Venues for Sporting, Cultural or Entertainment Events: Regulation 18 and 19B Policy

Responsible Executive	Executive Manager Planning & Sustainability	
Statutory context	<i>Environmental Protection Act 1986 and the Environmental Protection (Noise) Regulations 1997, Delegation to the Shire's CEO, No. 112, gazetted 20/12/2013.</i>	
Corporate context	Council Policy	
History	Adopted	22 February 2023
	Reviewed	26 April 2023
	Reviewed	28 May 2025

Policy Scope

The Council recognises the economic / social and cultural value derived from sporting, cultural or entertainment events. This policy is to ensure a balance between the Council's commitment to be a vibrant events centre and its vision of being a leading regional economic driver and a socially interactive and inclusive community, in operating under its delegations to approve public events and outdoor entertainment venues in accordance with the *Environmental Protection (Noise) Regulations 1997* (the regulations).

Noise is managed under the provisions of the *Environmental Protection (Noise) Regulations 1997*, which allow different noise levels dependant on the type of premises receiving the noise (residential / noise sensitive, commercial / or Industrial) and the surrounding land uses and traffic volume on nearby roads.

The regulations provide for events that would exceed the permitted levels for events such as concerts, sporting and community activities to gain conditional approved by the CEO in the form of a Regulation 16 approval for community events, a Regulation 18 approval for one-off events and Regulation 19B approval for events held at entertainment venues.

This Policy is to address permanent venues which propose to hold regular outdoor concerts and events that would produce noise in excess of the levels permitted under the regulations. Other venues while not excluded from applying for a Regulation 19B approval are expected to comply with the noise levels prescribed or apply for Regulation 18 approvals for special events.

This policy is not intended to apply to venues that are substantially indoors who should manage their noise emissions via appropriate venue management and application of suitable noise attenuation.

Policy Statement

This policy is provided to inform the CEO of the Council's acceptability criteria for applications to approve Venues under Part 2, Division 7 of the *Environmental Protection (Noise) Regulations 1997*, acting as a submission to the CEO for their consideration. It is acknowledged that the CEO alone is delegated by the Chief Executive Officer of the Department of Water and Environmental Regulation to consider and approve applications for Venues under Part 2, Division 7 of the *Environmental Protection (Noise) Regulations 1997*.

The policy also allows the delegate CEO to approve an event if they are satisfied that its noise emissions would exceed the assigned levels and it would lose its character and usefulness if it had to meet the assigned levels. The delegate CEO can approve up to two events per year at one venue, and additional events if satisfied the majority of the affected residents have no objection to the holding of the extra events.

Policy principles

In considering applications submitted under Regulation 18 and 19B the Shire will be guided by the following principles which address issues not clearly defined In the regulations and may be specifically applicable to the Shire of Narrogin, considering population density and proximity of residential premises to entertainment venues of various types:

- Cumulative impact - the proximity of a Venue application to other Venues which already have an approval under Regulation 19B or are the subject of another current application will be taken into consideration. Where a 1km radius around a Venue overlaps with the 1km radius around another approved or currently proposed Venue, the cumulative noise impacts on noise sensitive premises within the overlap area will be given particular weight in assessing an application. Noise modelling will be considered when assessing venues that may jointly impact noise sensitive premises;
- Precautionary principle - where a Venue has not previously been the subject of an approval under Regulation 19B or Regulation 18, the Shire may limit the duration of an initial approval to not more than 3 years;
- Precautionary principle - limit the number of notifiable events permitted to be held in any 12 month financial year. Consideration will be given to the spread of events throughout each 12 month period, balancing traditional demand for more events in the spring months against excessive impacts on local communities from multiple events in a short span of time;
- Precautionary principle - limit the event duration to a maximum of 8 hours with a strict 10 pm noise curfew for events held on Sunday - Thursday, and a strict 10:59 pm noise curfew for events held on Friday - Saturday. Event proposals that wish to exceed the event period of 8 hours and/or curfew time to submit a separate Regulation 18 application. If approved this approval will count as 1 of the approved Regulation 19B events;
- Precautionary principle - limit line and sound check for a period of 2 hours after 10 am on the day of the event. Sound checks to be limited to PA testing and noise limit assessing, not used for extended band practice and or jamming.

Application Requirements

An application for Venue Approval is required to be made by the Venue / Organiser to the CEO of the Shire in accordance with the requirements of the Regulations and with any supporting documents the applicant may see as relevant and that the CEO may request.

Fees

Fees associated with the application need to be proportionate with the cost of assessing and processing the application. The regulation recommends that an application for approval is to be made at least 60 days before the event and be accompanied by a fee of \$1,000.

An application for approval may be made between 21 and 59 days of the event if the application is accompanied by the application fee of \$1,000 in addition to a late fee, equal to one quarter of the application fee. An application may be made less than 21 days before the event if, in addition to receiving the application fee and late fee, the delegate CEO is satisfied that there are exceptional circumstances for the application not being made earlier.

Notwithstanding the above, the delegate CEO may, in his or her discretion, waive or reduce the application fee. If a late fee is applicable to the circumstances, the late fee remains equal to a quarter of the application fee. For example, if a delegate CEO decides to reduce the application fee for a community event to \$100 and a late fee is applicable, the late fee will be \$25.

This policy is designed to eliminate the risks inherent in the use or abuse of drugs alcohol or other substances and to provide a safe and productive workplace for employees.

The Shire is committed to ensuring all employees take reasonable care not to endanger the safety of themselves or others (including customers) in the workplace. Alcohol and other drug usage becomes a work safety and health issue if a worker's ability to exercise judgment, coordination, motor control, concentration and alertness at the workplace is impaired.

2. Application

For the purpose of this policy –

- the term “employee” shall extend to cover contractors as per the Work Health and Safety Act 2020, volunteers and any person performing work for or with the Shire in any capacity,

Employees must report to their employer any situation where they genuinely believe that an employee may be affected by alcohol and/or other drugs.

3. Responsibility

Under the Work Health and Safety Act 2020, workers must take reasonable care of their own safety and health and not endanger the safety and health of others at the workplace. The consumption of alcohol and/or drugs while at work is unacceptable (the hazard extends to being adversely effected, possibly as a result of the night before in addition to consumption as work), except in relation to any authorised and responsible use of alcohol at workplace social functions.

All employees are expected to comply with the Code of Conduct for Employees at all times. They should carry out their duties in a professional, responsible and conscientious manner and refrain from any conduct (including alcohol abuse or substance misuse) which could adversely affect their personal work performance or the safety and well-being of others.

Employees are required to present themselves for work and remain, while at work, capable of performing their work duties safely. An employee who is under the influence of alcohol and/or drugs at the workplace, or is impaired, may face disciplinary action including possible termination of employment.

4. Drug Use in a Shire workplace

Employees who buy, take, or sell drugs in any Shire workplace, may be found to have engaged in serious misconduct. Such behaviour may result in disciplinary action up to and including dismissal.

5. Prescribed and Over the Counter Medications

The Employee must follow the instructions in respect of prescribed or over the counter medications. If the medication affects their ability to perform a task they must advise their supervisor or manager. Employees taking prescribed or over the counter medication must not commence duties if their doctor or pharmacist indicates that it would not be safe to do so.

The categories of drugs and substances prohibited by the Shire are outlined as per the Australian Standard AS 4308 for drugs of abuse.

6. Consumption of Alcohol on the Premises

Except in situations where the Shire holds or hosts a function within the district and alcohol is provided, employees must not bring in and/or consume alcohol in the workplace. With the approval of the CEO or Executive Manager an employee may be approved to drink alcohol at a work related function.

7. Responsibilities

The Shire considers that the use of alcohol or other drugs is primarily a health issue for individual employees, however, where an employee's performance or conduct affects their health and safety, and/or others in the workplace, the Shire is committed to appropriately managing the issue.

A likely outcome of any breach of this policy will be disciplinary action (up to and including termination of employment), however the Shire may also manage the issue by –

- Providing appropriate education and training to employees;

- a) the Shire will allow an employee to access any accrued personal or annual leave, or leave without pay by agreement of the CEO, while they are undergoing treatment, and;
- b) the Shire will take steps to return an employee to their employment position after completion of the treatment program, if practicable in the circumstances.

Where an employee acknowledges that they have an alcohol or drug problem and are receiving help and treatment, the line manager or members of senior management, will review the full circumstances and agree on a course of action to be taken. This may include redeployment to suitable alternative employment, or possible termination from employment if the employee is unable to safely carry out the requirements of their role.

10. Pre-Employment Medical Tests

As part of the recruitment selection process, preferred candidates for employment positions may be required to attend a medical assessment which includes drug and alcohol testing. Failure to provide a negative test result may result in their application for employment being unsuccessful.

11. Random Testing

Random testing may also be conducted. Random testing may utilise a variety of methods for randomly selecting names such as software, lottery of selection through coloured marbles in a bag drawn by each employee. All staff on site must participate in the random selection.

12. Identification of Impairment & Testing

If the Shire has reasonable grounds to believe that an employee is affected by drugs and/or alcohol it will take steps to address the issue.

Reasonable grounds may include (but are not limited to), where an employee's coordination appears affected, has red or bloodshot eyes or dilated pupils, smells of alcohol, acts contrary to their normal behaviour, or otherwise appears to be affected by drugs and/or alcohol.

Testing may be carried out as a result of all incidents (including, but not limited to near miss, injury, property damage, and personal altercations).

If the Shire suspects that an employee is under the influence of drugs and/or alcohol it may pursue any or all of the following actions –

- require that an employee undergo drug and alcohol testing administered by a Shire authorised testing provider (such as Pathwest) at the direction of the Shire;

A medical assessment may include a drug and/or alcohol test. Testing shall be conducted in accordance with the Australian Standard AS/NZS 4308:2008 – Procedures for specimen collection and the detection and quantitation of drugs of abuse in urine.

In circumstances where an employee indicates the consumption of prescription or pharmacy drugs, the Shire may request further information from the medical practitioner conducting the assessment about the effects and proper usage of the prescription or pharmacy drugs being taken. The Shire may direct the employee to go home following the medical assessment until it can be established that they are fit to undertake their duties.

If an employee refuses to attend a medical examination or refuses to submit to an alcohol or drug test, the employee will be immediately directed to go home. Refusal to attend a medical assessment or refusal to go home constitutes a breach of this policy and may result in disciplinary action being taken against the employee up to and including the termination of employment.

The following steps are to be taken where an employee who has submitted to a medical assessment returns a positive test result for alcohol and/or drugs –

- The employee tested and the CEO will be informed of the result;
- A disciplinary discussion will take place in accordance with the disciplinary policies and procedures of the Shire.

An employee who returns a positive test will be in breach of this policy. A breach of this policy may result in disciplinary action being taken against the employee up to and including the termination of employment.

13. Testing in the event of an accident/incident

The Shire, at the discretion of the CEO or Executive Manager may require an employee to undertake a drug and alcohol test, as described above, in the event of an accident or incident where there is a risk to health and safety.

14. Education, Training & Awareness

Employees who recognise that they have a drink or drug problem, or that they are at risk of developing one, are encouraged to come forward so that they can be assisted to get the appropriate help. Contacts at outside agencies where help can be obtained will be made readily available to all employees via the Shire's noticeboards.

Policy Statement

Mental health can be defined as the capacity to feel, think and act in ways that enhance our ability to enjoy life and deal with the challenges we face.

Mental health problems have causes including stressors within the workplace and the outside world. The most common mental health problems in the workplace are stress, anxiety and depression. These can result in poor working relationships, errors and accidents, absenteeism and high staff turnover.

Recent trends indicate that mental ill health in the workplace is increasing. It has been suggested that mental health problems are an increasing cause of injury, illness and absences across Australian workplaces.

The potential benefits of mental health promotion include increased productivity and loyalty, reduced absenteeism and staff turnover. The employee experiences enhanced wellbeing, which also impacts on physical wellness and family life.

Purpose

The purpose of this policy is for the Shire of Narrogin to establish, promote and maintain the mental health and wellbeing of all employees through workplace practices, and encourage employees to take responsibility for their own mental health and wellbeing.

The Shire of Narrogin believes that the mental health and wellbeing of our employees is key to organisational success and sustainability.

Goals/Objective

A mentally healthy workplace is one that takes a proactive and preventative approach to mental health, where risk factors are identified, and reasonably practicable action is taken to minimise their potential negative impact on an individual's mental health. It is also one where protective and resilience factors are fostered and maximised and there is a focus on ensuring good workplace outcomes for employees at risk of mental health problems and illness.

To achieve this the Shire of Narrogin will aim to:

- Build and maintain a workplace environment and culture that supports mental health and wellbeing and prevents discrimination (including bullying and harassment);
- Provide leadership and support that engages employees to build organisational and individual resilience in the workplace particularly to change, stress and work demands;
- Increase employee knowledge and awareness of good mental health and wellbeing and empower workers to take responsibility for their own mental health and wellbeing;
- Reduce stigma around depression and anxiety in the workplace, and all forms of mental health illness;
- Facilitate employees active participation in a range of initiatives that support mental health and wellbeing; and
- Encourage work life balance and support flexible work arrangements where reasonably practical and does not result in negative local economic outcomes.

Scope

- This policy will comply with Work Health and Safety legislation.

Policy Statement

The Central Business Precinct

This Policy applies to the Central Business District (CBD). The Central Business Precinct is bounded by the southern side of Clayton Road, Federal Street, Fairway Street, Park Street and Earl Street as defined in the former Town of Narrogin Town Planning Scheme No.2 as depicted in the plan below.

Former Town of Narrogin Town Planning Scheme No. 2 – Scheme Map

1.0 COLOUR PALETTE

1.1 Objectives

The objectives of this policy are to:

- Encourage proponents within the CBD Precinct, if they intend painting the exterior of their property or affixing or altering signage to their property, to lodge a Development Application to the Shire for assessment in accordance with this Policy.
- Create a consistent colour palette applicable to development using colours from the Town Centre Colour Palette Guide developed by H+H Architects;
- Strengthen the identity of the Central Business Zone;
- Provide guidance to Council, private landowners and developers on the appropriate external colours for new or existing development;
- Encourage where possible, original colour schemes to enhanced the heritage building, streetscape and the Central Business Precinct;
- Attain a high quality visual streetscape; and
- Preserve, enhance and complement the existing built environment.

1.2 Policy Statement

An integral part of the '2016 Narrogin Townscape Study Review' undertaken by H+H Architects and Malone Design is the adoption of a "colour palette" to be used as a guide by Council when it assesses new and existing development, and when it selects colours for application to public street furniture and public buildings.

The colours are considered appropriate to the Shire of Narrogin environment, and have the potential to introduce an exciting new element into the town's character.

H+H Architects has been commissioned to develop the Shire of Narrogin 'Town Centre Colour Palette Guide and Sign Guide', which is to be used as a basis for guiding developments within the Central Business Precinct and to be read in conjunction with this policy.

1.3 Policy Provisions

Colours Guidelines

1.3.1. Development Applications lodged that propose the treatment of the external surface of a building shall include the following information:

- Demonstrate that the type of paint, as well as the preparation of the building and application of the paint will contribute to the conservation of the building, and will not significantly compromise the significant heritage fabric of the building.
- Evidence of research into original colour schemes in the form of a paint scraping and/or historical research into the style of building.

1.3.2. Where possible, colours selected shall be consistent with the original colour schemes of the building.

1.3.3. Where it is not possible to determine the original colour scheme, colour selection shall be consistent with the following key principles and the Colour Palette Guide based on the era of the development (Federation, Inter-War and Post War):

- The main body of the wall shall be natural wall colours that suggest the natural materials underneath (i.e. brick, stone or render).

- Where it is proposed to paint brick or stone quoining, colours shall be consistent with the natural materials underneath.
- Decorative elements - including cement rendered dressings (stucco), architraves, friezes, cornices, and pilasters – shall be highlighted with the use of no more than two muted tones in a lighter colour than the main body of the wall.
- Outer window frames shall be painted in dark colours (browns, deep reds, or dark greens), with light cream or white highlights accentuated in window sashes, and dividing joinery between individual window panes.
- In the case of verandahs and awnings, structural elements shall be dark tones (browns, deep reds, or dark greens) while decorative elements shall be highlighted with the use of light muted tones (cream or white).
- In the case of buildings with external timber cladding, paint colours shall be consistent with the original colour schemes of the building.

1.3.4. In addition to clause 1.2., Council shall have regard to the following:

- Any established conservation management plan relating to the site;
- Any statement of heritage impact relating to the site; and
- Any advice received from the Heritage Council of Western Australia relating to the site.

1.4 Face brickwork and Limestone Fabric

- 1.4.1. Council will not approve the rendering or painting of face brickwork or limestone fabric for buildings of recognised heritage significance unless it can be demonstrated by the applicant that it is not possible to conserve the face brickwork or limestone fabric in its current form, and painting or rendering the face brickwork or limestone fabric is the only suitable conservation treatment in the circumstances.
- 1.4.2. The sealing of exposed face brickwork or limestone fabric of buildings with recognised heritage significance is not considered appropriate and will not be supported.
- 1.4.3. In cases where treatment of face brickwork and limestone fabric is proposed, an application shall be accompanied by a technical report from a suitably qualified expert in support of the methodology to ensure that the treatment will be beneficial for the ongoing conservation of the building.

1.5 Treatment of Existing Buildings Listed in the Shire of Narrogin Local Heritage Survey 2019

- 1.5.1. Paint colours shall be compatible and complimentary to the heritage character of the existing building.
- 1.5.2. Where the external building is constructed of face brickwork and limestone fabric, treatment of external surfaces shall be in accordance with clause 1.2 of this policy.

1.6 New and Infill Development

- 1.6.1. Proposed colour schemes and finishes are to be consistent with the Colour Palette Guide and have regard to the following criteria:
- Whether the colour scheme and/or building finishes are consistent with the streetscape.
 - Whether the colour scheme and/or building finishes are likely to have any significant impact on any abutting or immediately adjacent property with recognised heritage significance.
 - The colour palette shall be used as a guide for applicants when assessing new and existing development including street furniture and public buildings within the Shire of Narrogin Central Business Precinct.

- Applicants will be strongly encouraged to use the colour palette that reflect the era of development (Federation, Inter War and Post War periods).
- Any request by an applicant to deviate from the adopted colour palette must be accompanied by detailed reasons. The CEO may approve alternative colours which are reasonably close to those contained within the colour palette, and where the overall visual intent will not be compromised.

2.0 SIGN GUIDELINES

2.1 Objectives

The objectives of this policy are to:

- Ensure consistency with the sign guidelines for the Town Centre Precinct in accordance with the Town Centre Colour Palette Guide and Signage Guide prepared by H+H Architects.
- Guide the design, materials and siting of advertising structures and signs in the Town Centre Precinct.
- Ensure that signs erected on heritage buildings, or any buildings in the Town Centre Precinct, should be compatible with the character of the building, streetscape and heritage precinct.
- Ensure that signs are located in appropriate positions on the building, be clear and easy to read from the street and not to visually dominate the building or area.

2.2 Policy Statement

This policy has been prepared to support and to be read in conjunction with Part V – Control of Advertisements of the former Town of Narrogin Town Planning Scheme No. 2 and the Shire of Narrogin Public Places and Local Government Property Local Law 2016. The scheme requires the submission of an application for Development Approval for non-exempt advertisements.

Policy Statement

1. INTRODUCTION

Public art is mostly located in public places and spaces but may also be incorporated into private areas open to the public such as shopping plazas, schools, parks, town centres, streetscapes and buildings. It can be a literal piece of artwork such as a sculpture, a painting, a wall mosaic or a mural. It can be incorporated into a functional object including paving, water features (such as a fountain), seating, bridges and lighting. It can also be a temporary work such as an art performance in an outdoor public space.

Public art contributes to the identity of a place in a range of ways. This includes interpreting local culture and customs, enhancing the overall design and visual appearance of a place and adding to the vibrancy, liveability and familiarity of a place through the creation of memorable experiences and landmarks. Public art is often created by local communities themselves and is enhanced with the help of experienced community artists.

2. POLICY OBJECTIVES

The Shire of Narrogin Public Art Contribution Policy aims to:

- Support the implementation of the Shire of Narrogin Public Art Strategy & Masterplan 2019;
- Facilitate the creation of original, high quality public artworks sited in a visually accessible public location;
- Contribute to the arts and cultural development and the fabric of daily life in Narrogin;
- Create a vibrant and contemporary sense of place whilst also respecting and responding to Narrogin's existing history, culture and aspirations;
- Encourage arts engagement, and interaction with places and spaces in Narrogin; and
- Infuse qualities of diversity, creativity and character through themes, types of art and approach.

The Public Art Contribution Guidelines for the commissioning of new public art works are to be read in conjunction with this Public Art Contribution Policy.

3. DEFINITIONS

Artist: In this policy Artist means a person who meets two or more of the following criteria:

- Has a track record of exhibiting/selling their artworks in reputable galleries or public spaces;
- Earns over 50 percent of their income from art related activities such as selling works or public art commissions;
- Has a Bachelor Degree or Diploma qualification in visual or fine art, or other art forms where relevant; or
- Can otherwise demonstrate that they have artistic expertise.

Public Art: For the purpose of this policy, public art is broadly defined as work or activity designed and/or fabricated by an artist, installed in public space and accessible to the general public. The work may be temporary or permanent, located in a public space or facility provided by both the public and private sector (this includes areas within private buildings that are easily accessible by the public). Public art also includes the contribution of a conceptual idea by an artist to the design of a public space or facility.

As part of this Public Art Contribution Policy, public art can include (but is not limited to):

- The artistic treatment of functional equipment such as bike racks, benches, fountains, playground equipment, light posts or shade structures which are unique;
- Landscape art enhancements such as walkways, bridges or art features within a garden;
- Murals, tiles and mosaics covering walls, floors and walkways and sculptures, free-standing or incorporated as an integral element of a building's design.

Public art does not include:

- Business logos.
- Advertising signage.
- Art objects which are mass produced or off-the-shelf reproductions.
- Landscaping or hardscaping which would normally be associated with a development.

Owner: means the owner of the land upon which the relevant development is proposed to be built. The Owner may also be the Applicant.

Construction Cost: In this policy construction cost means all costs associated with the preparation, construction and full completion of a development, including all materials, labour, servicing and ancillary costs. To ensure accurate calculation of public art contribution values the Shire if necessary may require an applicant to provide cost breakdowns and/or certification from a quantity surveyor to confirm construction cost.

4. POLICY STATEMENT

Narrogin Shire Council aims to either acquire or commission and complete, at a minimum, one public artwork every two years. The Council recognises that best practice public art projects can only be achieved through the allocation of adequate budgets.

Council's financial contribution to public art will be through a number of approaches. These are set out below:

I. Percent for Art Scheme

Council may enter into a planning agreement with developers contracted to undertake new building works or refurbishments. The Western Australian State Government Percent for Art Scheme's offers a guide for this approach. Since 1989, this Scheme has allocated up to one percent of the estimated total construction cost of each State capital works project, valued at \$2 million and over, to a commissioned Western Australian artwork.

The Shire's Percent for Art approach requires that half a percent (0.5%) of the estimated construction cost (over \$2 million) is attributed to Public Art. The Shire's contribution requirement shall be imposed on applicable developments as a condition on the Planning Approval. The condition shall specify that the contribution must be made prior to commencement of the project.

Where Council determines a public art contribution applies the owner/applicant can choose to either make a cash in lieu contribution or coordinate a public art project.

Option 1: Cash in Lieu

It is recommended developers provide cash in lieu to the Shire of Narrogin for public art budgets up to \$25,000 but can provide cash in lieu for budgets over \$25,000 at their discretion.

Option 2: Coordinate a Public Art Project

The procurement of a public art project with budgets of \$25,000 and above, will be in accordance with the Shire of Narrogin's Public Art Strategy & Masterplan 2019 and the Public Art Contribution Policy Guidelines. It is recommended more complex public art projects are managed for the owner/applicant by an external public art consultant, unless there is a permanent role created within the Shire.

Costs associated with the production of public art include the following:

- Artist fees, materials, assistant's time, insurance, permits, business and legal expenses and operating costs;
- Fabrication and installation of the art work;
- Art consultant fees (maximum 15% of the budget);

- Site preparation, documentation of the art work and acknowledgement plaque.

Upon choosing Option 1, Cash in lieu full payment must be made to the Shire prior to submission of a building permit.

Upon choosing Option 2, the Owner/Applicant will review the Shire of Narrogin Public Art Strategy & Masterplan 2019 as well as the Shire of Narrogin Public Art Contribution Policy Guidelines and the Public Art Commissioning Process.

The percentage spent on public art and the threshold value will be reviewed by Council at the commencement of each financial year setting the minimum amount for which developments are required to contribute to public art. The amount will be set out in the Shire's Prescribed 'Fees and Charges'.

II. Infrastructure projects with a component of built-in artwork, funded under the Council's annual capital works program

Every year and in the process of developing the new financial year's draft capital works program, the Shire's Executive and the Manager Community Leisure & Culture will review the building program and nominate projects which offer the best opportunities to integrate public art. This process requires Shire officers to carefully consider, in advance, how public art may be assimilated within the design and construction of public facilities or their improvement works. Examples of infrastructure projects which could include a built-in art component are artist-designed alternative paving treatments, bridges, treatment to building facades, new fencing and new street furniture. Nominated infrastructure projects will be costed and submitted for Council's endorsement as part of its budget process.

III. Annual Budget Allocations

Council will consider public art opportunities as part of its annual budget and annual budget review process and consider it appropriate to allocate a special budget to acquire or commission a piece of stand-alone or iconic public artwork.

IV. Grant Funding

Council may obtain grant funding from a State or Commonwealth source, an arts institution or receive sponsorship from a philanthropic organisation or the private sector. Community groups may also propose public art funded by another source and seek to form a partnership with the Council.

5. SUSTAINABILITY AND PUBLIC ARTWORKS

The Council commits to implementing ecologically sustainable practices as part of all of its facilities and activities including the planning, design, and implementation of all outdoor public art projects. This includes the use of renewable (green) materials and technologies in artists' designs, fabrication and installation processes. The Council will also seek to acquire artworks that are appropriate to the environment in which they are to be installed e.g. outdoor artworks should be highly durable, resistant to vandalism and require low maintenance.

The Owner/Applicant seeks the Shire's approval for their chosen professional artist, enters into a contract with their approved chosen professional artist, and submits an Application for Artwork to the Shire. The application is reviewed internally by the Shire of Narrogin Public Art Advisory Panel. Once the Shire is satisfied, the project is given full approval.

11.6 Shire of Narrogin Dignitaries – CBD Footpath Plaques

Responsible Executive	Executive Manager Technical & Rural Services	
Statutory context	Nil	
Corporate context	Policy 1.21 – Freeman of the Shire Australia Day and Honours Advisory Committee (and Terms of Reference)	
History	Adopted	19 February 2025
	Amended	31 March 2025
	Reviewed	28 May 2025

Policy Statement

The Shire of Narrogin is committed to acknowledging individuals and or groups who have made significant, positive contributions to the community. This recognition will be in the form of bronze plaques installed on footpaths within the Narrogin Central Business District (CBD). The CBD Central Business Precinct is bounded by the southern side of Clayton Road, Federal Street, Fairway Street, Park Street and Earl Street as defined in the former Town of Narrogin Town Planning Scheme No.2 and where brick paving is the predominant footpath.

This initiative aims to celebrate Pioneers, Citizens of the Year, Freeman of the Shire awardees, Indigenous leaders, volunteers and other noteworthy identities or groups who have served and positively impacted the Shire.

Objective

The objective of this policy is to establish guidelines for the selection and installation of plaques on CBD footpaths to honour dignitaries who have contributed to the Shire's history and social fabric. Through this initiative, the Shire seeks to enhance local identity and foster pride in the community.

Scope

This policy applies to:

- Individuals and/or groups from the Shire of Narrogin who have made significant positive contributions, as identified by the Council or have been put forward as a nomination for a community award.
- Selection and installation procedures for plaques to ensure consistency and appropriateness.

Procedures

1. Selection of Honourees

- Nominations: Community members, the Council's Australia Day and Honours Advisory Committee or Townscape Advisory Committee, may nominate individuals or groups at any time for confidential consideration by the Council, on confidential recommendation by the Australia Day and Honours Advisory Committee. Nominees should not be consulted or informed of their nominations.
- The Advisory Committee and the Council will deliberate on nominations in a confidential "in-camera" setting in accordance with the principles established under the Eligibility below.
- Eligibility: Nominees may include:
 - Pioneers
 - Citizens of the Year
 - Freeman awardees
 - Indigenous leaders
 - Other distinguished individuals or groups who have contributed positively to the Shire of Narrogin.
- Approval: The Council will review and resolve on recommended nominations, subject to being satisfied that the nominee (or their executor or attorney or other suitable family representative) is supportive of the intended decision of the Council.
- Cultural Consideration: The Advisory Committee and the Council will acknowledge that in some cultures, it is considered offensive for a recognition plaque to be placed on a pedestrian thoroughfare

where it may be walked upon. In recognition of this, and out of respect for cultural sensitivities, alternative plaque placement options may be considered for honourees or their descendants who express concern regarding traditional footpath placement. This ensures that recognition can be provided in a manner that aligns with cultural values and avoids causing unintended offence.

2. Plaque Design and Placement

- Design Specifications:
 - Material: Bronze
 - Dimensions: 200mm (width) x 100mm (length) x 3mm (height)
 - Inscription: Each plaque will display the name of the honouree, a brief description of their contribution, and the date of awarding.
 - Plaques will be modelled on the inaugural plaque located on Federal Street in front of the Town Hall for reference and for consistency.
 - There are approximately 120 potential locations for such plaques within the existing CBD area for reference (as at October 2024).
- Placement:
 - Primary installation sites will be within the decorative square pavers on footpaths in the Narrogin CBD.
 - Additional locations on footpaths within the CBD may be considered as needed and as approved by the Council when the square decorative pavers are full.
 - The Shire's Administration will have a dedicated section within the Shire's website for this initiative that can be viewed by all and at any time (24/7/365). The Administration will also use its social media platform Facebook for the advertising of such with direction to the website.

3. Installation and Maintenance

- Installation Schedule: At least one plaque will be installed annually (generally following announcement of the Citizen of the Year Winner), with the potential for multiple plaques in one year, subject to Budget constraints and Council approval. This would allow for dignitaries in years gone by to be recognised. The location of such plaques to recognise previous years 'approved' awardees will be at the discretion of the Shire's Chief Executive Officer, in liaison with the Shire's President.
- Maintenance: Plaques will be maintained by the Shire to ensure their longevity and readability.
- Any plaques that are removed due to maintenance works are to be replaced in the same or nearby area where practicable.

Policy Statement

Upon application, Council will consider the permanent closure of a road reserve, if –

- a) the portion of the road reserve to be closed is isolated from other road reserves, or
- b) if the road were to be constructed, it would lead to a deterioration in amenity of adjoining land (i.e.: safety, noise, dividing the property, reduced value etc).

– End of Policy

Notes

Road closures are processed by Department of Lands, as the land in a road reserve always remains the property of the Crown. While the Shire owns the infrastructure that is constructed on the roads reserve, and has responsibility for its management, care and control, the Shire does not own the land. When a road is to be closed, the Shire will be asked to comment in support or opposition, but does not have the final say.

Policy Statement

Objective

Sustainable service delivery through optimised lifecycle management of assets –

- demonstrate the local government's commitment to strategic asset management as described in framework guidelines provided to local government as part of Integrated Planning and Reporting requirements of the Local Government Act;
- provide guidance for elected members during annual budget process;
- provide guidance for staff responsible for development of asset plans and programs; and
- provide the community with a statement of intent regarding asset management.

This policy applies to –

- all who are involved in the operations, maintenance, refurbishment, renewal, upgrading and development of local government's existing and new infrastructure and other assets;
- all of the local government's assets which include physical features such as roads, drainage, buildings, parks, pathways, playgrounds, plant and other assets that are not fixed in place.

Principles

The local government will procure, maintain and dispose of its assets in line with this policy and regulatory requirements.

The local government aims are to develop and implement cost-effective management strategies for the long term and strive for continuous improvement in asset management practices.

There are five core principles that this policy has regard for –

Principle 1: Understand the Community's Needs

Levels of service for each asset class will be detailed in line with community expectations and regulatory requirements. These levels of service will be determined-

- in words that are readily understood by the community,
- with regard to the cost of provision of these services to the desired level of service, and
- with an understanding of longer term changes necessary as a result of changing demographics within our community.

Principle 2: Be Financially Sustainable

The local government will develop annual asset plans and programs generated from rolling 10/20 year plans aligned to Corporate Plans, Asset Management Strategies, Long Term Financial Plan and Workforce Plan, updating each plan as necessary based on relevant decisions made.

Where relevant, consideration will be given to life cycle costs regarding decisions to renew, upgrade or procure significant assets before any decision is made.

The local government maintenance of assets shall be funded primarily from rates revenue and this shall be taken into regard when decisions are made to procure new assets. Where limits on rates funding exist, precedence shall be given to necessary maintenance activities for existing assets over proposals to procure new assets from this funding source.

The local government will continually review its stock of assets and undertake consolidation of assets where it is in the best interests of the community.

Principle 3: Recognise Environmental Impact

The local government will consider and amend asset programs as necessary, where practical and financially acceptable options exist for reducing energy or water consumption, reducing carbon impact, reducing consumption of non-renewable resources and preserve or enhance the environment in which we live.

Improvements in our asset management systems will be undertaken to ensure measuring and monitoring of consumption of resources are in place to better understand the implications for long term asset management.

Principle 4: Continuous Improvement

Asset management processes will be developed that include a systematic approach to planning, implementing, reviewing, and modifying asset management activities to improve the efficiency and efficacy of the overall system.

Processes will be developed to ensure that the local government is aware of contemporary asset management practices and that staff and service providers undertake continuous improvement

Principle 5: Public and Staff Safety

All facets of the asset management process will have a risk based approach to designing and undertaking each stage of the process to ensure public and staff safety is not compromised.

Application

As there is a substantial investment in assets, the local government will endeavour to meet the service needs of the community, in a manner that does not place undue economic, social, or environmental burden on future generations. Decisions relating to the provision and management of public infrastructure shall reflect the local government's core values, statutory responsibilities, and accountability to the community.

To achieve this, the local government will –

1. Ensure that appropriate infrastructure and other assets are acquired, maintained, and renewed to meet the needs of current and future stakeholders, at equitable intergenerational cost.
2. Undertake a critical review of the need for that asset.
3. Take into account **whole of life** costs associated with asset ownership when considering proposed capital investment or other related expenditure, including upgrade and renewal works.
4. Quantify and communicate the true cost of operating and maintaining assets, as a basis for setting service level standards and making informed decisions on asset purchase, maintenance, and renewal.

5. Consult with key stakeholders to establish agreed service standards that reflect community expectations and willingness / propensity to pay.
6. Implement appropriate business practices and procedures to ensure that infrastructure and other assets are operated, maintained, and renewed in accordance with agreed standards, at lowest **whole of life** cost to the community.
7. Where appropriate, engage the private sector and Government agencies to explore opportunities for alternative “non-asset” service delivery solutions, including public private partnerships and integrated / shared servicing arrangements.
8. Ensure that statutory and legal obligations with respect to the operation and maintenance of public infrastructure and other assets are effectively met, particularly with regard to public safety and security.
9. Continually seek opportunities for multiple use of assets.
10. Provide appropriate asset data and reporting to meet the needs of the end users/key stakeholders.
11. Develop and implement long term Asset Management Plans as determined by the CEO, for the key asset classes –
 - a) Transport assets – roads, paths, bridges, culverts, drainage, airport, street furniture etc.;
 - b) Property assets – buildings, freehold land and associated ancillary infrastructure;
 - c) Recreation assets – parks, ovals, reserves, gardens, playgrounds etc.;
 - d) Plant and equipment – vehicles, tools, plant and machinery, information technology and communications equipment etc.
 - e) Portable and attractive assets – in accordance with the *Local Government (Financial Management) Regulations 1996* r.17B; and
 - f) Other classes as deemed appropriate or necessary
12. Develop and implement an Asset Management Improvement Strategy detailing proposed business improvement actions and projects aimed at enhancing organisational effectiveness with respect to the management of assets.
13. Valuation and stocktake of assets –
 - (a) fair value assessment is to be undertaken on a rotational basis for the assets identified in the Financial Management Regulations r.17A(2) or directed by the CEO or Executive Manager Corporate & Community Services;
 - (b) stocktake of moveable (non-portable and attractive) assets within a class is also to take place within 1 month when directed to be undertaken by –
 - (i) CEO;
 - (ii) Executive Manager Corporate and Community Services for any area of Shire operations; or
 - (iii) Executive Manager for the relevant Department.

– End of Policy

Notes

Asset, for the purposes of this policy, includes a physical component of a facility which has value that enables services to be provided and has an economic life greater than 12 months.

Stocktake, for the purposes of this policy, requires that the asset/s be physically sighted and counted, and reconciled to the records held.

Notes

Note – requirements are intended to be consistent with relevant provisions of the Shire of Narrogin Extractive Industry Local Law.

Main Roads WA issues road network use permits for RAV (restricted access vehicles). Where the road network includes Shire roads, a local government can impose a CA07 conditions for RAVs that requiring the operator to carry written approval from the Shire permitting use of the road.

RAV traffic (i.e.: multi-trailer heavy vehicles) results in significantly increased cost to maintain the road asset, particularly if the road construction is not designed or intended to sustain such traffic. Wear and tear increases proportionally with the vehicle length, number of trailers, axle combinations and weight of the load carried.

The Shire constructs, maintains and renews road assets generally in line with expectations or requirements of local users, with funding from rates, financial assistance grants, regional roads group funding and federal funding, and does not have funding to construct or maintain road assets for heavy haulage by Restricted Access Vehicles (RAV)..

It is important that the Shire receives adequate compensation from users to ensure the construction, maintenance and renewal of its affected road assets.

Council is committed to maintaining its road assets in accordance with the integrated long term financial and asset management plans.

Policy Schedule 12.12(b) – CA07 Conditions that may be applied

<https://www.mainroads.wa.gov.au/UsingRoads/HeavyVehicles/ravnetworkaccess/Pages/default.aspx> on 5 March 2017

Main Roads Heavy Vehicle Services (HVS) is responsible for administering road access for Restricted Access Vehicles (RAVs).

RAVs are vehicles that exceed any of the following –

- a width of 2.5 metres;
- a height of 4.3 metres;
- a length of 19 metres for a vehicle combination;
- a length of 12.5 metres for a rigid vehicle;
- a gross mass of 42.5 tonnes;
- any other mass or dimension limit prescribed in the Road Traffic (Vehicles) Regulations 2014.

RAVs must only operate on roads approved by Main Roads, under either an order (notice) or a permit.

There are many types of RAVs and each of them has different performance characteristics, require a different amount of road space when operating and have a different impact on the road infrastructure. For this reason, it is necessary to assess the roads these RAVs operate on to ensure the road is suitable for the particular type of vehicle and the safety of other road users is not compromised.

Main Roads Heavy Vehicle Services (HVS) works collaboratively with the relevant road asset owner to ensure roads are suitable for RAV access. RAV Networks are maintained for the various types of RAVs and are published in the form of Road Tables and a RAV Mapping Tool.

Extract from – Main Roads WA Heavy Vehicle Operations
Standard Restricted Access Vehicle (RAV) – Route Assessment Guidelines
Version 3 – October 2016

APPENDIX H – OPERATING CONDITIONS

Main Roads will apply the operating conditions below, as a condition of permit, to very low traffic volume roads when the road's width does not meet the minimum requirements in Appendix B.

These and other similar operating conditions may be applied to the assessment of other roads.

1. When travelling at night, the RAV must travel at a maximum speed of 40km/h and display an amber flashing warning light on the prime mover.
2. No operation on unsealed road segment when visibly wet, without Road Owners approval.
3. Headlights must be switched on at all times.
4. Speed restrictions. *
5. Direct radio contact must be maintained with other RAVs to establish their position on or near the road (suggested UHF Ch 40).
6. Road not to be entered until driver has established by radio communication that there is no other RAV on the road travelling in the opposing direction.
7. Operation is not permitted while the school bus is operating on the road. Operators must contact the relevant schools and obtain school bus timetables; or where direct contact can be made with the school bus driver, operation is permitted once the school bus driver confirms all school drop-offs/ pick-ups have been completed on the road.
8. Current written approval from the Road Owner, endorsing use of the road, must be obtained, carried in the vehicle and produced upon request.

These conditions are applied in the Prime Mover, Trailer Combinations and Truck, Trailer Combinations Operating Conditions. The applicable roads must be clearly identified as either a "Type A" Low Volume Road or a "Type B" Low Volume Road as a road condition.

*40 km/h or 60 km/h as determined from Appendix C.

12.14 Funding Contribution – Application for Advancement of Sealing of Shire Gravel Roads

Responsible Executive	Executive Manager Technical & Rural Services	
Statutory context	Local Government Act 1995	
Corporate context	Asset Management Plan - Road Program 2021-2031 Road Network Analysis and Forward Works Program (May 2016) (Talis) Roads 2030 - Regional Strategies for Significant Local Government Roads (2013) (MRWA) (Wheatbelt South)	
History	Adopted	27 April 2022
	Reviewed	26 April 2023
	Reviewed	28 May 2025

Policy Statement

This Policy is to be used by staff to facilitate applications received from landowners or businesses, outside of the townsite (rural), who request a section of the Shire's gravel road network to be sealed, generally, but not limited to, for the purpose of dust suppression.

Applications may be made from applicants who are landowners or businesses in the Shire of Narrogin who wish to advance (bring forward) the bitumen sealing program from where it currently may/ may not lie in the Council's adopted Road Improvement Programs.

Background

Occasionally in rural areas of the Shire, landowners have dwellings or businesses have office developments in close proximity to a gravel road within the Shire, that experiences inconvenience or nuisances such as dust falling onto their dwelling or other, as a result of traffic driving past on the gravel road adjacent.

Applicants are to make application in writing to the Chief Executive Officer to have a section of gravel road sealed. All project specific details are to be in the application inclusive of:

- Name of landowner/applicant/business;
- Address of the dwelling or business property to which the seal applies;
- Description of the seal request i.e., what is the applicant applying for, length, location, width, etc;
- A simple diagram of road seal in relation to the dwelling; and
- Other details as requested by the Chief Executive Officer.

The Bitumen Seals will be a 2-coat bitumen seal using 14/7mm aggregate however the Manager of Operations will assess each application and advise the applicant of the best seal rate to use taking into consideration site specific conditions.

Applicants will be required to fund 50% of the full cost to seal the gravel road section applied for, to the standard of Main Roads WA Supplement to Austroads Guide to Road Design for that category/hierarchy of road. The Shire will not make a profit on an application and will only charge the applicant 50% of the actual cost to seal the section of road applied for (i.e. using internal rates and not using Private Works rates). The Shire will furnish the applicant an estimate of the total cost prior to proceeding with any application and if the applicant is in agreeance and Shire matching funding is available, then the project will proceed, whereby the applicant will be invoiced prior to commencement of the project. The works will not proceed unless:

1. A budget exists for the project (this may require a budget amendment) and;
2. Applicants Payment has been received in full.

Works are to be scheduled to optimise mobilisation of staff, plant and availability of materials and bituminous product. Any estimates provided by Shire Staff are only valid for 6 months and works will not take priority over Shire Budgeted and previously scheduled works. Resource implications must be taken into account.

In the event works cannot proceed for any reason within 6 months of the estimate being issued, then the Shire will revise the estimate in consultation with the applicant. If the applicant is in agreeance with the revised estimate, then this estimate will be valid for a further 6 months from date of issue.

For dust suppression sealing, for example, in front of a dwelling or business, a minimum sealed length of road of 300m is considered necessary to be effective, being 150m either side of the dwelling on the road. Please note that the Shire does not warrant that this will be the case. Prevailing winds, vehicle volumes, type of adjoining pavement material all impact upon this.

Officers will make reference to the current Forward Road Programs of the day to see if the particular road being applied for is included within it. If the road is included in the road program, then this will be advised to the applicant who can decide if they still wish to proceed with their application or wait for the road to be sealed as per the program (which may be amended from time to time by the Council).

Each application will be assessed on a case-by-case scenario and approved by the Chief Executive Officer as being compliant with this Policy.

The Shire's matching 50% funding toward any approved application will be dependent on available funds within the Annual Budget. If there is no specific Budget allowance for an approved application, then officers will need to submit a Budget request form that will be considered in the annual Budget process among other competing projects or Budget Review process.

Road Safety Vision Statement

The Shire of Narrogin is committed to creating a safe and sustainable road network that minimises death and serious injury to all road users.

Through proactive measures, strategic planning, and collaboration with State and Federal partners, we aim to maintain our roads to the highest safety standards for this critical asset class.

By continuously investing in road infrastructure, technology, staff training, optimal fleet turnover and other road safety initiatives, the Shire strives to ensure that all road users, including residents, visitors, and transport operators, travel with confidence and security on our roads.

Policy Statement

The Shire of Narrogin acknowledges that road safety is essential for the well-being of its community. To this end, the Shire will implement various Road Safety Management Strategies that adopts current and future best practice road safety principles as far as practicable.

The policy is intended to create a safer road environment through engineering, education, enforcement, and collaboration with stakeholders. The Shire will ensure that all road users, including pedestrians, cyclists, and motorists, benefit from a safer transport network.

Objective

The objective of this policy is to outline the Shire of Narrogin's commitment to enhancing road safety across the Shire by adopting a comprehensive approach to help minimise road fatalities and serious injuries as far as

practicable. The policy strives to align with State and Federal principles of road safety and additionally, aligns to WALGA RoadWise road safety principles as a registered RoadWise Council.

Key Principles

The Shire of Narrogin's approach to road safety will be guided by the following road safety principles, adapted from State and Federal road safety initiatives;

- **Fallibility** - Recognising that people make mistakes, the road network must be designed to minimise the potential for fatal or serious consequences resulting from those mistakes;
- **Vulnerability** - Acknowledging the human body's limited tolerance to crash forces, the design of roads and vehicles should protect people from serious injury;
- **Shared Responsibility** - Road safety is a shared responsibility between road users and road asset managers. The Shire is committed to providing a safe road network and forgiving environments for all road users; and
- **System Strengthening** - Strengthening all parts of the road safety system so that if one part fails, the others will protect people from fatal or serious injury.

Policy Measures

The key objectives for the Shire to achieve optimal road safety on its road network is through:

- **Roads and Roadsides:**
 - Enhance road safety through separation of traffic, including vehicles, bicycles, and pedestrians where possible.
 - Improve crash protection by addressing hazards on roadsides, such as widening shoulders, adding barriers, vegetation management and improving lighting.
 - Conduct regular road safety and condition inspections on the Shire's road network using trained in-house staff.
 - Offer road safety and or auditor training to relevant personnel.
 - Utilise the Shire's solar digital variable messaging trailer mounted units, to promote road safety and advise road users of changing road conditions where relevant.
 - Conduct regular, and at least annual road signage inspections and audits for relevance and condition.
 - Utilise the Shire's traffic counters to identify traffic classes and movements, that will inform on volume and speed trends.
- **Intersections:**
 - Ensure safe speeds, relevant advisory and regulatory signage is present and traffic management at intersections to reduce collisions.
 - Consider Installing roundabouts or other road safety initiatives where feasible to improve safety.
- **Reducing Travel Speeds:**
 - Consider the implementation of targeted speed reductions strategies, particularly in mixed-use areas where vulnerable road users and or pedestrians are present, utilising the Shire's solar speed signs, and in collaboration with regulatory bodies (MRWA).
- **Fleet Safety:**
 - Implement the Shire's Fleet and Plant Replacement policy to ensure Shire vehicles and plant meet the highest safety standards, including the purchase of 5-star ANCAP-rated vehicles and enforcing driver compliance.
- **Post-Crash Response:**
 - Provide first aid and emergency preparedness training for employees where practical and relevant.
 - Through trained in-house staff, investigate black spot sites on Shire roads, identified by MRWA and analyse the potential causes and consider remedial actions or road improvements to rectify.
 - Consider submitting applications for State and Federal road grant funding, inclusive of Black Spot funding for hazardous roads or sections of.
- **Area of Application:**

- This policy applies to all Shire-managed roads, roadsides, footpaths, and cycle paths. The policy also informs the development and maintenance of road infrastructure across the Shire.

Collaboration & Partnerships

The Shire of Narrogin will collaborate with State and Federal governments, local communities, and road safety organisations to implement best practices in road safety. The Shire will actively participate in National and State road safety programs to secure funding and technical support.

Administration & Review

The administration of this policy lies with the Shire's Technical & Rural Services Division. This policy will be reviewed every four years or as required to align with emerging road safety standards.
