Summary

Council is asked to consider supporting the removal of the Narrogin Cemetery fences which consists of a metal pool style fence along Williams Road and a post and rail fence along Lefroy Street.

Background

On 21 August 2018, the Elected Members and the Shire's Executive Management Team undertook a bus tour around Narrogin with a view to identify areas or locations that required improvement, replacement or removal. Through this process the Narrogin Cemetery fence was identified for removal.

At the Narrogin District Townscape Committee Meeting held on 18 October 2018 the Committee was presented with a proposal submitted by the Shire's Department of Technical and Rural Services to remove the existing fences and replace them with native plants.

It was proposed to replace the existing fence with native hedge plants planted next to the fence on the Cemetery side, watered for one year until established, and remove the fence.

Comment

The Executive Manager Technical and Rural Services suggested the following native plants as suitable species for hedging:

- Agonus flexuosa nana
- Grevillea ANZAC
- Grevillea superb
- Rysynocarpus tuberculatus (wedding bush)
- Chamelaucium purple pride
- Hakea laurina

The Narrogin District Townscape Committee supported the removal of the fences, but did not support the recommendation for the proposed planting of the suggested species to replace the fence.

The Committee discussed soil suitability and expressed significant reservations regarding the survival of any plants on the fence line. They indicated a preference for the use of a product such as bollards to define the cemetery boundaries and made a recommendation that Council remove the existing metal fence and the pine post and rail fence.

The Committee's recommendation was as follows:

"That in relation to the proposed removal of the existing fence at the Narrogin Cemetery the Narrogin District Townscape Committee recommends that Council supports the removal of the existing metal fence and the pine post and rail fence."

In conclusion, it is the view of the Administration and our internal horticultural expertise, that a suitable selection of species can be grown as a hedge, with watering in the first season.

Summary

Council is asked to consider the appointment of Mrs M Atkins to the Australia Day and Honours Committee as a Community Member at Large following the endorsement of the amended Terms of Reference in December 2018.

Background

Council resolved, pursuant to resolution number 1218.128 at its meeting of 19 December 2018, as follows:

“That, in relation to the proposed amendments to the Australia Day and Honours Committee Terms of Reference and Schedule 1.4 Processes and Criteria, Council recommends that:

- 1. The name of the Responsible Officer be changed from the Manager Leisure and Culture to Executive Manager Development and Regulatory Services;*
- 2. Schedule 1.4 Processes and Criteria is amended to reflect changes to the date of the advertising schedule and the nomination period;*
- 3. Increase Committee membership from five (5) to eight (8);*
- 4. Increase the quorum from three (3) to four (4);*
- 5. Increase the number of Community Members from zero (0) to three (3).”*

The Shire invited nominations to the Australia Day and Honours Committee through an advertising campaign on social media and in the Narrogin Observer throughout January 2019. One nomination was received from Mrs Mareesa Atkins. At the Australia Day and Honours Committee meeting held 19 February 2019, the Committee recommended that Council endorse Mrs Atkin’s nomination.

Comment

Mrs Atkins has been an active volunteer in Narrogin for a number of sporting and community groups including the Upper Great Southern Hockey Association and brings with her a wealth of committee, events and catering experience.

In 2016, the Upper Great Southern Hockey Association (UGSHA) hosted an international hockey series between the Australian Kookaburra's and Great Britain. Mrs Atkins volunteered to be the canteen manager for the event. This required her to organise two dinner functions, providing meals for almost 3,000 people over two days, including both teams and their support staff.

The compliments that the association received as a result were too numerous to mention, and Mrs Atkins played a pivotal role in the success of the event.

In addition Mrs Atkins has worked as a volunteer in a range of roles including:

1. School canteens for 9 years;
2. Little Athletics for 7 years;
3. Minkey hockey coach for 3 years;
4. Secretary of the UGSHA for 3 years;
5. Volunteer Team Manager, Carnival and Country Week coordinator of the UGSHA for over 10 years; and
6. Canteen Manager of the UGSHA for 8 years.

In December 2016, Mrs Atkins received recognition at the Shire of Narrogin's Thank a Volunteer Day event, and on Australia Day 2018 she received the Shire of Narrogin's Citizen of the Year Award in recognition of her outstanding community service.

Summary

Currently, the Shire of Cuballing deposit their kerbside and transfer station waste at the Narrogin Waste Management Facility (NWMF) under an informal agreement. This report is to formalise that arrangement.

Background

In 2016 the Shire of Cuballing approached the then Town of Narrogin, with a request to deposit their kerbside and transfer station waste at the NWMF. This informal arrangement commenced at the beginning of July 2016 and continues to this day.

The kerbside and transfer station waste from the Shire of Cuballing received at NWMF are:

Year	Kerbside Tonnes	Transfer Station Tonnes	Total Tonnes
2016/17	71.60	79.46	151.06
2017/18	76.57	173.80	250.37
2018/19 (Qtr. 1)	17.38	37.48	54.86

It is suggested that this arrangement be formalised with a contract expiring on 30 June 2024.

Comment

It is anticipated that the current life of the NWMF is 70 years based on existing tonnages and management techniques. During the 2017/18 financial year 4,852 tonnes were deposited at the NWMF with 976 tonnes recycled and 3,876 tonnes landfilled, including the 250 tonnes from Cuballing.

The NWMF is currently licenced to accept a combined total of 8,000 tonnes per year, including 500 tonnes of recyclables, with the balance of 7,500 tonnes to landfill.

Options available include:

1. Proceed with a Contract with the Shire of Cuballing; or
2. Maintain the current informal arrangement; or
3. Cancel the current arrangement.

Consultation

Consultation has occurred with:

Mr Dale Stewart – Chief Executive Officer

Mr Gary Sherry – Chief Executive Officer, Shire of Cuballing

Statutory Environment

Section 58, *Environmental Protection Act 1986* and *Schedule 1, Environmental Protection Regulations 1987* and the Shire of Narrogin's Narrogin Waste Management Facility Licence Number L7087/1997/13.

Policy Implications

Nil

Financial Implications

The Shire of Cuballing is currently charged \$79 per tonne, inclusive of GST, which equates to \$71.81 excluding GST.

If approved, it is suggested that any net revenue, after expenses, be placed in the landfill Reserve.

In the current financial year, \$270,000 has been budgeted for the operation of the landfill site. Based on the previous years' known tonnages of waste, the current cost of disposal is \$69.99 per tonne.

To establish a new equitable facility the estimated cost is in the order of \$3.5 million including: land; lined landfill; meeting the environmental conditions of the licence; and post closure. If, conversely, the Shire was seeking to develop a regional waste facility, this cost would be significantly greater.

With an estimated life of 70 years and current annual tonnage of 4,376 (3,876 Narrogin & Cuballing), approximately \$50,000 per year should be placed in Reserve. This is based on the current and proposed tonnages to landfill. Approximately \$11.43 per tonne would be required to be put into Reserve to cover the future set up costs. This does not take into account the estimated additional 500 tonnes from the Shire of Williams' waste as referenced in the subsequent item.

It is proposed that the waste be accepted at the current adopted fee of \$79.00 per tonne, as amended each year, and that if a higher fee applies to a particular waste type, then the higher fee will apply. For example, currently general waste from outside the Shire is charged at \$79.00 per tonne, with asbestos waste charged at \$152.00 per cubic metre.

Indicatively, the rate per tonne from the Shire of Cuballing in the 2019/20 financial year needs to be closer to \$80.00 per tonne plus GST, based on current known costs.

Given the fact that the Shire currently has a tender out for management of the NWMF from July 2019 for the next three years (plus three year option), the Shire Administration will need to review the rate per tonne charges, with subsequent recommendation to Council if required.

OFFICERS' RECOMMENDATION

That, with respect to the informal agreement with the Shire of Cuballing for depositing waste at the Narrogin Waste Management Facility, Council authorise the Chief Executive Officer to enter into a contract until 30 June 2024, to accept kerbside and transfer station waste, at the Narrogin Waste Management Facility subject to:

1. The kerbside and transfer station waste from the Shire of Cuballing being accepted at a fee for waste from outside the Shire of Narrogin as determined each year and currently at \$79.00 per tonne including GST, unless a higher fee applies to that waste type.
2. The following waste types not being accepted:
 - a. Green waste;
 - b. Recyclables, unless sorted;
 - c. Tyres; and
 - d. Clinical/medical waste.
3. The net income being placed in the Reserve of the current Waste Management Facility.
4. A 12 month notification exit clause being able to be exercised by either party.
5. Any other matters the CEO considers relevant to the contract.

Dear Aaron,

SHIRE OF CUBALLING WASTE ISSUES

At the Great Southern Regional Waste Group (GSRWG) Meeting held on Thursday 11th February the transfer of regional waste to the Town of Narrogin's White Road site and the potential for member Councils to participate with the Town in their upcoming tender for kerbside waste collection was discussed. The Shire of Cuballing would like to discuss further with the town of Narrogin the possibility for the Shire of Cuballing to take up this offer sooner than the GSRWG may choose to act.

As background you would probably be aware the Shire of Cuballing is currently installing a waste transfer station at the Shire's Cuballing Waste Disposal Site. The construction of this station is being assisted by grant funding obtained by the GSRWG. The transfer station will be constructed in the centre of the Cuballing Waste Disposal Site and will impact on the safe use of this site by the public. Therefore the Shire of Cuballing intends to cease the operation of the Cuballing Waste Disposal Site when the transfer station construction is complete.

With the closure of the Cuballing Waste Disposal Site, the most logical site for transfer of the waste the waste collected at the Cuballing Transfer Station is the Town of Narrogin's White Road site. Waste would most likely be transported the 15 kilometres weekly, in a sealed waste collection truck, via Springhill and Wandering Narrogin Roads. The Shire of Cuballing would expect to pay the Town of Narrogin for access.

At this time the amount of waste that we expect to be transferred from the Cuballing Waste Transfer Station to be in the region of 200 tonnes per annum. Currently estimates completed by Bowman & Associates for the GSRWG have estimated the total waste creation of the Shire of Cuballing at 300 tonnes per annum for the entire Shire. I expect that Cuballing Transfer Station would collect about 66% of this amount or 200 tonne per annum.

The Shire of Cuballing is looking to introduce kerbside waste and recycling collections in our Cuballing and Popanyinning town sites next financial year and would like to discuss options and possibilities with the Town of Narrogin for a joint purchase services. While I would expect that joint purchase may provide the Town of Narrogin with some benefit through a marginally increased economy of scale additional economy of scale, it would definitely advantage the Shire of Cuballing. I also acknowledge some difference in the service requirements of our local governments and these may prove too difficult to overcome. At this time, we are still gathering information about our requirements, given that we have never had a kerbside collection service.

All communications to be addressed to: Chief Executive Officer, PO Box 13, CUBALLING WA 6311

OFFICE HOURS: Monday to Friday 8.30am to 4.30pm

Ph: 08 9883 6031, Fax: 08 9883 6174, Email: enquiries@cuballing.wa.gov.au

With the introduction of a kerbside waste collection service the Shire of Cuballing would then again approach the Town of Narrogin to transfer waste collected by this service from the towns of Popanyinning and Cuballing to the Town of Narrogin's White Road disposal site. Such a transfer, in a compactor collection truck would be the easiest way to handle the waste collected. This service is expected to collect an additional 50 tonne per annum of waste from Popanyinning to be transferred to the White Road disposal site.

In summary the Shire of Cuballing would like to commence the transfer of waste envisaged by the GSRWG to the Town of Narrogin's White Road disposal site sooner than other GSRWG Councils. This transfer arises because of the shift of the Shire of Cuballing to waste transfer stations and kerbside waste collection. I would like to meet with you or an appropriate staff member to further discuss this matter.

Yours faithfully

As background you would probably be aware the Shire of Cuballing is currently installing a waste transfer station at the Shire's Cuballing Waste Disposal Site. The construction of this station is being assisted by grant funding obtained by the GSRWG. The transfer station will be constructed in the centre of the Cuballing Waste Disposal Site and will impact on the safe use of this site by the public. Therefore the Shire of Cuballing intends to cease the operation of the Cuballing Waste Disposal Site when the transfer station construction is complete.

With the closure of the Cuballing Waste Disposal Site, the most logical site for transfer of the waste the waste collected at the Cuballing Transfer Station is the Town of Narrogin's White Road site. Waste would most likely be transported the 15 kilometres weekly, in a sealed waste collection truck, via Springhill and Wandering Narrogin Roads. The Shire of Cuballing would expect to pay the Town of Narrogin for access.

At this time the amount of waste that we expect to be transferred from the Cuballing Waste Transfer Station to be in the region of 200 tonnes per annum. Currently estimates completed by Bowman & Associates for the GSRWG have estimated the total waste creation of the Shire of Cuballing at 300 tonnes per annum for the entire Shire. I expect that Cuballing Transfer Station would collect about 66% of this amount or 200 tonne per annum.

The Shire of Cuballing is looking to introduce kerbside waste and recycling collections in our Cuballing and Popanyinning town sites next financial year and would like to discuss options and possibilities with the Town of Narrogin for a joint purchase services. While I would expect that joint purchase may provide the Town of Narrogin with some benefit through a marginally increased economy of scale additional economy of scale, it would definitely advantage the Shire of Cuballing. I also acknowledge some difference in the service requirements of our local governments and these may prove too difficult to overcome. At this time, we are still gathering information about our requirements, given that we have never had a kerbside collection service.

With the introduction of a kerbside waste collection service the Shire of Cuballing would then again approach the Town of Narrogin to transfer waste collected by this service from the towns of Popanyinning and Cuballing to the Town of Narrogin's White Road disposal site. Such a transfer, in a compactor collection truck would be the easiest way to handle the waste collected. This service is expected to collect an additional 50 tonne per annum of waste from Popanyinning to be transferred to the White Road disposal site.

In summary the Shire of Cuballing would like to commence the transfer of waste envisaged by the GSRWG to the Town of Narrogin's White Road disposal site sooner than other GSRWG Councils. This transfer arises because of the shift of the Shire of Cuballing to waste transfer stations and kerbside waste collection. I would like to meet with you or an appropriate staff member to further discuss this matter.

Yours faithfully

Summary

The Shire of Williams is seeking to deposit waste from the Williams town site, at suitable sites including the Narrogin Waste Management Facility (NWMF), on an ongoing basis through a Memorandum of Understanding, or contract, following a recent fire at their waste management facility.

Background

In late December 2018, a fire occurred at the Shire of Williams Waste Management Facility. The Shire extinguished the fire, however this resulted in about 5 years of refuse waste space being filled with soil.

Consequently, the available landfill area is limited and the Shire of Williams is now considering alternative options, earlier than anticipated. These options include transporting their waste to existing waste facilities in the region, including Narrogin. There is also a waste facility at North Bannister, operated by Suez, however the travel distance is about 70 km compared to Narrogin, which is about 30 km.

At present, the kerbside waste collection in the Williams town site occurs on a Tuesday. There are no plans, at this stage, for waste from other towns within the Shire of Williams to be transferred to Narrogin.

The arrangement would initially be for the kerbside waste to be transported to Narrogin on a weekly basis. The Shire of Williams is considering placing a transfer station at their waste management facility, with that waste to be transported to Narrogin at a later date. A kerbside recycling collection service is also being considered.

It has been advised that approximately 4.76 tonnes of waste per week, about 250 tonnes per annum is collected by kerbside collection with a similar amount anticipated from the proposed transfer station, when operational. This would make the combined estimate from both sources about 500 tonnes per year.

Comment

It is anticipated that the current life of the NWMF is 70 years based on existing tonnages. During the 2017/18 financial year 4,852 tonnes were deposited at the NWMF with 976 tonnes of recyclables and the balance of 3,876 tonnes landfill, including an estimated 250 tonnes from Cuballing. The waste from the Shire of Williams is estimated at 500 tonnes per annum, when combined with the Shire of Cuballing's current 250 tonnes per annum, this would equate to about 14.4 percent of the waste currently being landfilled at Narrogin.

The additional tonnage from the Shire of Williams when added to the 2017/18 financial year return of 3,876 plus 500 (estimated) would equate to a total tonnage of 4,374. This estimated tonnage is below the maximum allowable tonnage under the current waste licence of 7,500 tonnes.

The additional waste would have an impact on the current life expectancy of the facility, however the impact is not expected to be significant.

The NWMF is currently licenced to accept a combined total of 8,000 tonnes per year, including 500 tonnes of recyclables, with the balance of 7,500 tonnes to landfill.

The current fee for this waste is \$79.00 per tonne, inclusive of GST, which equates to \$71.81 excluding GST.

The options available are:

1. Do nothing and let the Shire of Williams find an alternate site for their waste;
2. Offer to take the Shire of Williams waste at a fee as set each year.

All waste transported to Narrogin would require a weighbridge docket, for accuracy.

Consultation

The EMDRS, Azhar Awang and Senior Environmental Health Officer, Rob Powell met with Seonaid Leslie, Waste Management Officer, Shire of Williams on Thursday 7 March 2019 to discuss this matter.

Statutory Environment

Environmental Protection Act 1986 and Schedule 1, Environmental Protection Regulations 1987 and the Shire of Narrogin's Narrogin Waste Management Facility Licence Number L7087/1997/13, issued under section 58 of the EP Act.

Policy Implications

Nil

Financial Implications

The Shire of Williams would currently be charged \$79 per tonne, however this would be subject to review as part of the news fees and charges in the 2019/20 Budget.

If approved it is suggested that any net revenue, after expenses, be placed in the landfill Reserve.

In the current financial year, \$270,000 has been budgeted for the operation of the landfill site. Based on the previous years' known tonnages of waste, the current cost of disposal is \$69.99 per tonne.

To establish a new equivalent facility, the estimated cost is in the order of \$3.5 million including land, lined landfill and meeting the environmental conditions of the licence and post closure costs.

With an estimated life of 70 years and current annual tonnage of 4,376 (3,876 Narrogin & Cuballing plus 500 estimated from Williams), approximately \$50,000 per year needs to be placed into Reserves. With the current and proposed tonnages to landfill, \$11.43 per tonne would be required to be put into Reserves to cover the future set up costs.

It is proposed that the waste be accepted either:

- at the current fee of \$79.00 per tonne, as amended each year and that if a higher fee applies to a particular waste type then the higher fee to apply. Eg. Currently general waste from outside the Shire is charged at \$79.00 per tonne, with asbestos waste charged at \$152.00 per cubic metre; or
- at a new fee reflecting the desire to retain \$11.43 per tonne for future waste activities.

In conclusion, the Administration has recommended the existing adopted fee in the 2018/19 Budget until 30 June 2019 as it could appear unfair to treat the Shire of Williams different to the Shire of Cuballing.

OFFICERS' RECOMMENDATION

That, with respect to the request from the Shire of Williams to potentially deposit waste at the Narrogin Waste Management Facility, Council authorise the Chief Executive Officer to negotiate a contract until 30 June 2024, to accept kerbside and transfer station waste, at the Narrogin Waste Management Facility subject to:

1. The kerbside and transfer station waste from the Shire of Williams being accepted at a fee for waste from outside the Shire of Narrogin as determined each year and currently at \$79.00 per tonne including GST, unless a higher fee applies to that waste type.
2. The following waste types not being accepted:
 - a. Green waste;
 - b. Recyclables, unless sorted;
 - c. Tyres; and
 - d. Clinical/medical waste.
3. The net income being placed in the Reserve of the current Waste Management Facility.
4. A 12 month notification exit clause being able to be exercised by either party.
5. Any other matters the CEO considers relevant to the contract.

Dear Dale,

RE: Regional Waste Site – Shire of Narrogin Enquiry

The Shire of Williams would like to formally enquire about resource sharing with the Shire of Narrogin. The Shire of Williams wishes to dispose of its municipal waste at an alternative landfill from the earliest date possible.

In late December 2018 the Shire of Williams contained a landfill fire. Great care was taken to extinguish the fire and as a result a large volume of airspace was lost to a thick layer of soil. The Shire was already planning the closure of its registered rural landfill, but this event placed an urgency on finding a permanent alternative site.

The Shire of Williams has existing infrastructure at its landfill to become a transfer station but volumes and frequencies of disposals can only be guessed. The Shire proposes that initially only kerbside municipal waste be disposed of at the alternative landfill, and at a later date municipal waste from the transfer station be brought across.

The Shire of Williams is currently serviced by Avon Waste, who collect the townsites' kerbside municipal waste. Approximately 4.76 tonnes a week is disposed of at the Shire's landfill, with a compaction rate of 0.3 tonnes per m³. The annual expected volume from kerbside collections is approximately 832m³. From visual estimates it is assumed that a similar volume of waste will be generated by the future transfer station.

The Shire of Williams aims to enter into a contract or Memorandum of Understanding with an alternative landfill to finalise waste disposal gate fees, dates and times of disposals and any other particulars. The Shire hopes to work collaboratively to achieve regional long-term waste management solutions.

Attachments 1. Proposed Ten Year Road Program 2019-2029	

Summary

Council is requested to consider endorsing the proposed Ten Year Road Program 2019-2029 as presented at Attachment 1. The proposed program is a planned direction for the preservation of the Shire of Narrogin's road network asset including sealed and unsealed roads. The program further enables the Shire's budgeting process to continue into the future including the Shire's Long Term Financial Plan and Annual Budgeting.

Background

In 2016, an engineering consultancy company, TALIS, was engaged to evaluate the Shire of Narrogin's road network in its entirety inclusive of sealed and unsealed roads. The study involved evaluating the condition of all the roads and arranging them into a conditional hierarchy with roads in poor condition being rated towards the front of the list and other roads in a more acceptable condition behind these.

The presented proposed Ten Year Road Program takes into account the TALIS report however, in addition, it also takes into account the local knowledge of the Manager Operations (MO) who has inspected the roads and reviewed the TALIS recommendations. Further to this, data from road counters is being collected to determine traffic volumes and types of traffic i.e. heavy haulage or light vehicles. This data provides valuable information on road usage and why roads may or may not be deteriorating.

Comment

The proposed Ten Year Road Program shows the following categories:

- RTR – Roads to Recovery – Federal grant funds
- RRG – Regional Road Group – State grant funds
- Municipal (Muni) – Own source expenditure – Council funds
- Muni – Road Improvements – Council funds (New)

RRG funding

This is based on a one third – two thirds arrangement whereby Council must contribute one third of the cost of the nominated road project. Nominated road projects can only be on roads registered in the 2035 RRG list whereby these roads must meet a criteria to be eligible for RRG grant funding. The Shire of Narrogin currently is entitled to amalgamation funding for five years with 2018/19 being year one. Amalgamating Councils receive a maximum allocation of 100% of the average allocations the combined councils received three years immediately prior to the amalgamation or 75% of the combined maximum allocation, whichever is the greatest, for a period of five years.

RTR funding

This is administered by the Federal Government and supports the maintenance of the nation's local road infrastructure asset, which facilitates greater access for Australians and improved safety, economic and social outcomes. Under the Roads to Recovery Program, direct funding to local councils is distributed according to a formula based on population and road length set by the Local Government Grants Commissions in each state and the Northern Territory. Each Council's Roads to Recovery allocation is fixed for the life of the Program.

Additional Road Improvement Projects

These are included in the Ten Year Road Program and will require additional Municipal funding. The Chief Executive Officer (CEO) asked the Executive Manager Technical & Rural Services (EMTRS) to draft a list of Road Improvement Projects that could be presented to the Road Reference Group for consideration.

The MO and the EMTRS considered a number of road improvement categories i.e. sealing of gravel roads, seal extensions to gravel roads, widening of roads, reducing curves and blind spots, realigning cambers, major drainage upgrades etc.

Factors that were considered for selecting roads included:

- Traffic volumes;
- Commodity transport use;
- Maintenance costs – gravel vs seal;
- Quality of trafficable road surface; and
- Road safety.

As a result of this analysis, the following roads have been suggested to be included in the Additional Road Improvement Projects:

- Dongolocking Road – seal the remaining 3 kms of unsealed gravel road. This road is also used for the transport of commodity and in sealing the remaining gravel section would reduce maintenance costs into the future and provide a superior trafficable road surface. Estimated cost \$315,421.
- Quigley Street – is a gravel road within the Narrogin Town site. There are residential dwellings on Quigley Street as well as a bus depot. Seal Quigley Street to suppress dust and provide a superior trafficable road surface. Estimated cost \$27,306.
- Chipper Street – half sealed residential street. Complete sealing to provide a superior trafficable road surface. Estimated cost \$34,426.
- Leake Street – unsealed CBD Street. Seal to provide a superior trafficable road surface. Estimated cost \$21,358.

- Moss Street – unsealed gravel residential street. Seal for dust suppression and provide a superior trafficable road surface. Estimated cost \$85,562.
- Earl Street South – unsealed street connecting to Moss Street. Seal for dust suppression and provide a superior trafficable road surface. Estimated cost \$29,201.
- Narrogin Valley Road – Repeated requests from residents on this road for sealing of the gravel section to continue. Seal a further 3.5kms to connect to Simmons Road for connectivity to Great Southern High Way and provide a superior trafficable road surface. Estimated cost \$367,419.
- Whinbin Rock Road – This road is used extensively by trucks for the transport of commodity to Narrogin. Sealing the remaining 13 kms of unsealed gravel road would reduce maintenance costs into the future and provide a superior trafficable road surface. Estimated cost \$1,304,355.

It should be noted, that with respect to Whinbin Rock Road, should the current proposal for a development application, immediately north of Highbury, proceed to development, the Council will need to review the relative priority and level of this investment required.

Road Reference Group Meeting

A proposed draft Ten Year Road Program 2019-2029 was presented to the Road Reference Group for consideration and discussion at a meeting on 12 March 2019. The draft Ten Year Road Program presented to the Road Group initially did not include the Additional Road Improvement Projects as this was presented separately for the Group to discuss the new concept and proposed funding or if the project was to be funded at all. The Group supported the concept of Additional Road Improvement Projects and recommended that the locations put forward (above) be included in the proposed Ten Year Road Program 2019-29 with additional Municipal (Council) funding being made available to fund the projects over ten years and for the amended draft Road Program to be presented back to the Group at the next Road Reference Group meeting.

The Road Reference Group also commented that they would like additional annual Municipal funds to be added to the Road Program from 2019 (\$218,505) to fund the Additional Road Improvement Projects. The Group also commented that they did not want road funding to be reduced as it would from 2023-24, where the Shire's Regional Road Group Amalgamated Grant Funding reverts back to single Council grant funding. The Group recommended from 2023-24 that on top of the \$218,505 a further \$85,000 for a total of \$303,505, be added annually until 2029 to cover the short fall from the reduced RRG Municipal contribution.

Another Road Reference Group meeting was held the next evening 13 March and the revised Ten Year Road Program inclusive of the Additional Road Improvement Projects was presented to the Road Reference Group and supported by the Group with the Group recommending the EMTRS present the Ten Year Program to Council for consideration.

Gravel Road Re-sheeting

Due to the changing nature of gravel roads compared to a sealed road, the existing allocation of \$400,000 annually, rather than nominating a particular gravel road, is preferred. At a cost of around \$30,000 per kilometre to form up and re-sheet a gravel road, this equates to approximately 13kms per annum which is conducive of the already adopted Five-Year Road Program 2017-22. There are also other variables to consider here e.g. distance to transport gravel, vegetation and drainage requirements. Gravel roads put forward annually are roads considered high priority for that financial year.

Sealed Road Defect Stabilisation

The current adopted Five Year Road Program also identifies the need to conduct pavement stabilisation works throughout the sealed road network. An existing allocation of \$100,000 per annum has been adopted (since 2017) and has been continued into the Ten Year Road Program to rectify any such sealed pavement defects that present. Due to the unpredictable nature of pavement failures, works are identified on an annual basis and are prioritised in the same way as gravel road re-sheeting works.

Budgeting

The proposed Ten Year Road Program forms the basis for the Shire's road asset budgeting process into the future inclusive of the Long Term Financial Plan.

It is important to note that the proposed Ten Year Road Program is a plan based on current road conditions and can be reviewed and revised annually to take into account changing road conditions due to traffic movement, community needs, environmental factors such as extreme weather events and financial availability or restraints.

Options

Council has the option to adopt the presented Ten Year Road Program inclusive of Road Improvement Projects as is or alternatively Council may wish to fund the Road Improvement Projects listed by annually transferring funds to the Road Construction Reserve Account with a set annual figure of \$220,000 (or other as determined by Council) or instead only transfer surplus funds that are available at the end of a financial year.

Consultation

Consultation for the Ten Year Road Program was conducted with:

- The Road Reference Group
- The Chief Executive Officer
- Executive Manager Corporate & Community Services
- Manager Operations

Financial Implications

The proposed Ten Year Road Capital Works Program 2019 – 2029 will need to be considered in the context of the Shire of Narrogin's Long Term Financial Plan and Annual budgeting process.

Page one of the attachment summarises the financial implications for the Ten Year Road Program.

The desire of the Road Reference Group to seek an additional annual municipal (predominantly from rates) allocation to roads of \$218,505 is admirable, however, this request will need to be considered in the light of all the Community's and Council's request and requirements to deliver a balanced budget within a tight fiscal environment.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 28 FEBRUARY 2019
Prepared by: Manager of Finance
Reviewed by: Executive Manager of Corporate & Community Svcs

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of Local Government (Financial Management) Regulations 1996, Regulation 34. Note: The Statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement.

SIGNIFICANT ACCOUNTING POLICIES

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**NET CURRENT ASSETS****FOR THE PERIOD ENDED FOR THE PERIOD ENDED 28 FEBRUARY 2019****SIGNIFICANT ACCOUNTING POLICIES****CURRENT AND NON-CURRENT CLASSIFICATION**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

EMPLOYEE BENEFITS

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave
(Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the City has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the City expects to pay and includes related on-costs.

(ii) *Annual Leave and Long Service Leave (Long-term Benefits)*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the City does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

PROVISIONS

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

Summary

The Council is required to advise the YMCA of whether it is prepared to offer it the 5-year extension of the contract with respect to management of the Narrogin Regional Leisure Centre (NRLC) not less than three months prior to the cessation of the first period (30 June 2019).

In addition:

- the proposed deficit budget for the 2019/2020 financial year is required to be endorsed, together with the proposed fees and charges for that year; and
- the YMCA seeks Councils' approval of a Budget variation for the current financial year due to unforeseen revenue losses associated with aquatic centre closures during the preceding 9 months.

Background

Council entered into a management contract with the YMCA in 2014 for a 5 year period with a 5 year option at the Council's discretion (June 2014).

Council approved a Deficit Budget for contract for the 2017/18 Financial year of \$262,281 (24 May 2017).

Council approved a Deficit Budget for the contract for the 2018/19 Financial Year of \$284,706.

Comment

Extension of Term

The first consideration is whether the Council is inclined to approve the extension of the contract for a further 5-year term?

The Administration is of the view that continuation of the existing management arrangements is still the best way forward in maximising activation and participation rates of the Centre, whilst minimising undue risks associated with employment and continuation of services. The expertise, specialisation and resources of the YMCA is the overriding factor here. Whilst there has been some concerns over some aspects of the operations, these are becoming fewer and less critical.

- Should the term be extended it is however recommended that the following matters be included as an addendum, to be agreed between the parties:
- Provision of a map of the leased area and buildings.
- Clarification that the Council provides mowing services of all grassed areas within the leased area free of charge.
- Clarification that the YMCA retains all revenue of offices within the leased area (the Shire still receives revenue from the Agricultural Society).
- Clarification of inclusion of booking services of the Centre Sports Oval and Thomas Hogg Oval, with income retained by the YMCA.
- Cleaning of the Thomas Hogg Oval Toilets being at the cost of the Council.
- Clarification that the Shire no longer needs access to an office within the premise at free rent.

Sunday Trading

The other aspect is the continuation of opening of the Centre (aquatic and gym) on Sundays from 12 noon to 5pm. This trial opening is on average for the benefit of 16 users per Sunday, at an average gross revenue of \$18 per person, but at an average expense of \$42 per person. The estimated loss of specifically openings on Sundays is approximately \$20,000 per annum. If the Council wished this to continue into 2019/20, this would need to be added to the Budget submitted by the YMCA.

The Administration has recommended against this expense.

The Council, at its meeting of April 2017, resolved to approve the Sunday activities following a trial at the time.

Deficit Budget 2019/20 Financial Year

The YMCA has provided a Deficit Budget inclusive of Management Fee for the next financial year of \$286,333, only marginally more than that approved in 2018/19 of \$284,706. This is due to improvement in activation and a planned reduction in agency employment costs, notwithstanding pressures such as wage increases, CPI, etc.

It is however premised on no Sunday opening.

The Administration is proposing that the Council endorse this Budget, should they endorse a continuation of the 5-year term.

Fees & Charges

The YMCA has proposed only minor variations to the Fees & Charges pursuant to Attachment 4.

The Administration is proposing that the Council endorse this Budget, should they endorse a continuation of the 5-year term.

Budget Variation Request

The YMCA has submitted a variance to the current approved Budget Deficit, requesting an additional sum of \$181,840 (Option A), \$113,581 (Option B) or \$100,845 (Option C), dependent upon the Council's view of different aspects of the variation request. Refer Attachment 3.

The Administration is proposing that the Council request the Chief Executive Officer to discuss this request in detail, noting that the Council is not prepared to accept any additional agency / employment cost overruns (Option A) and subject further explanation of the reduction of revenues and additional costs associated with the aquatic closures is prepared to consider Options B or C.

Consultation

- Senior management of the YMCA.
- Azhar Awang, Executive Manager Development & Regulatory Services.

Statutory Environment

There are no relevant statutory matters that relate, other than those contained within the contract.

Policy Implications

There are no relevant Council Policies that relate nor proposed policies required or proposed.

Financial Implications

Extension of the Contract involves no major financial implications.

Consideration of the request of the YMCA to vary the 2018/19 Budget to the extent of up to \$113,581 could be accommodated within the current Budget, if it was deemed justified as unforeseen and caused through no fault of the contractor. The existing Management Fee Budget provides for some \$15,000 latitude over the approved Budget, and acquisition of the proposed Building Management System, approved by the Council for acquisition hasn't yet occurred and could easily be deferred to the new financial year (\$30,000). Other savings are in the Youth Area of the Budget which has some \$50,000 unallocated, pending the completion of the proposed Youth Engagement Strategy currently being undertaken free of charge and expected to be completed by the YMCA, by late June 2019.

Clause 8.2 of the Contract provides that the contractor may submit a variation request to the Principal (the Shire) for consideration, if events beyond their control have negatively impacted upon their expenses and revenues.

The YMCA contend that the aquatic centre closures for various times during the financial year has had a direct negative effect on revenues associated with not just the aquatic side, but also the dry side to some extent – eg food sales. Also there were some water egress events that led to cancellation of some dry side events, such as a large Netball Carnival. It is proposed that the Chief Executive Officer be requested to meet with the YMCA to clearly articulate what these effects were, including the specific dates and events, for further consideration.

Initial calculations indicate that the direct aquatic revenues for the year (predicted) will be down some \$60,000 from the approved Budget.

Strategic Implications

Objective	2. Social Objective (To provide community facilities and promote social interaction)
Outcome:	2.2 Build a healthier and safer community

OFFICERS' RECOMMENDATION

That, with respect to management of the Narrogin Regional Leisure Centre, Council:

1. Authorise the Shire President and Chief Executive Officer to sign a contract extension of a further 5 years from 1 July 2019, pursuant to clause 5.2 of the contract, subject to minor modifications to the existing contract via an addendum, to include matters addressed in the Officer's Report, including reversion to not opening the Centre on Sundays, as per the original contract, due to lack of patronage on that day.
2. Approve the Budget subsidy for 2019/20 Financial Year of \$286,000, noting that this is only \$1,000 greater than the 2018/19 Financial Year, subject to the Centre being closed on Sundays.
3. Endorse the proposed Fees and Charges with effect from the 2019/20 Financial Year and inclusion in the Fees & Charges Schedule for adoption in coming months.
4. Note the impact that the unforeseen aquatic centre component closures have had on the Centre's revenues and request the Chief Executive Officer to meet with the Management of the YMCA to detail the rationale of the request for a Budget Subsidy variation for Financial Year 2018/19, with a report to Council no later than June 2019 for Council's consideration as to what extent it will support that variation.
